DEPARTMENT OF AGRICULTURE

Moth Damage Estimate for 1956

How to Combat Them

To anyone anxious to apply home methods to the prevention and control of moth infestation, we suggest the "Home and Garden Bulletin No. 24" published by the Department of Agriculture. It is for sale by the Superintendent of Documents, Washington 25, D. C. (Price 15¢)

Tested Methods

We purchased a moth-proofing solution recommended for application in the dry cleaning process which would make it possible to offer this service to the public WITHOUT added cost. Before offering this service we ran two swatches of wool in a solution at least 15% above recommended strength, thereby precluding any misgiving on our part that the bath was too weak. We sent these treated wool swatches to the National Institute of Dry Cleaning for testing. The swatches were exposed for 28 days to black carpet beetle larvae, a standard method drawn up by the American Society for testing material and the American Association for Textile Chemists and Colorists.

The swatches were returned to us with a very defined area of infestation and damage. The suggested alternate method of treatment would entail a procedure that raised the cost beyond reasonable value.

A Sound Approach

The Department of Agriculture recommends: ***First,*** Dry clean any material to kill any existing larvae; ***Second,*** Place crystals, flakes, or balls, using one pound to every 100 cubic feet of space, in a tightly sealed container, then place the material in the container, keeping in mind that the vapors are heavier than air.

We will clean any garment or blanket at regular price and give FREE OF CHARGE, a plastic or moth seal bag.

We also, as in past years, offer the BERLOU MOTHPROOFING PROCESS GUARANTEED IN WRITING FOR FIVE (5) YEARS at a nominal cost.

TEEN-AGE

Spotlight

by KATHY FULLER

We decided to start this column on a week directly following our Easter Vacation, so there isn't much in the way of actual school activity to report.

SATURDAY night, April 14, the Junior Class will hold a dance, Headliner Hop, in the Senior High School Cafeteria.

FRIDAY, April 13, Kappa Delta Phi has scheduled a dance at the Clarksville School. Bill Chattin's orchestra will play for both round and square dances.

Most exciting vacation we heard about was Vicki Wood's trip to Florida with her parents and brother. They visited St. Petersburg, Daytona Beach, St. Augustine and several other exciting cities and places. Most exciting thing Vicki did, according to her account, was deep sea fishing . . . but her only catch was a mild attack of sea sickness.

VICKI WOOD

That's about all there is for this week. Let us know what you'd like to read in this column . . . and we'll try to do it just that way.

CARD PARTY BENEFIT: On Thursday, April 19, the Unionville Community Association will hold a card party at the Unionville Reformed Church.
