**MILL HILL MISSIONARIES
ORDINATION ON JULY 7**

The ordination of the first three Mill Hill Missionaries in America will take place on Saturday morning, July 7, at the Cathedral of the Immaculate Conception, Albany at 9 A.M. The Most Reverend William A. Scully, Bishop of Albany, will officiate.

The three young men are Carl Cooper of Chicago, Lester Lonergan of Yonkers, N.Y. and Daniel Callinan of Minn. These three Mill Hill boys were among the first students who graduated from Mater Christi College in Albany. Their philosophical course was pursued at St. Louis University and their theological studies were taken at Mill Hill's Motherhouse in England.

The story of Mill Hill dates back to 1866 when Herbert Cardinal Vaughan founded the first English-speaking Society for foreign missions at Mill Hill, London with only one student and himself.

Bishop Gibbons of Albany is truly a living link with Cardinal Vaughan. When the Bishop was studying theology in 1893 at the American College in Rome, he was much impressed by an address given by Cardinal Vaughan to the theology students. The Cardinal begged them to remember the vital needs of the foreign missions.

In 1948, when Mill Hill sought admittance into the Albany Diocese, Bishop Gibbons not only welcomed them but he also helped establish their first foundation. This was a 14-room Colonial house on the country estate of Dr. H.L.K. Shaw - a one-time pediatrician in State Farm Road, Guilderland. Since the official opening in 1951, expansion has been a must. New offices, an auditorium and living quarters have been added by the Brothers to the original building. At present a large chapel is being constructed and is near completion. A farm, on the opposite side of State Farm Road, has also become part of the Mill Hill property. It, too, is being operated by the Brothers, who plan to build their Training Center on it - a Center where Mill Hill Brothers will be trained as builders,

CAN A MUTUAL FUND DO SOMETHING FOR YOU?

In most cases the answer to this question is "yes."

A shareholder in a fund becomes part owner of an interest in many different companies. Dividends are paid to shareholders, usually quarterly and most funds also make annual distributions to you of profits from the sale of securities.

Because of the various types of funds, a selection can usually be made which is tailored to your requirements. Monthly payment plans are available.

REDDY SAYS: "It's more fun living in an all-electric Gold Medallion Home!"

FULL HOUSEPOWER . . . a feature of every Gold Medallion home . . . means plenty of electrical outlets to take care of your present *and* future electrical needs. You can build an electric workshop and know you have the proper wiring for it. You can add electric servants without fear of overloading circuits. Full housepower means planning ahead . . . electrically!

ELECTRIC HEAT keeps your Gold Medallion home so clean it practically makes the dust cloth obsolete. Your home can have this safe, quiet modern system today. Room-by-room temperature control lets you keep bathrooms toasty warm while the bedrooms remain cool for sleeping.

AN ELECTRIC KITCHEN is the heart of every Gold Medallion home. Cooking is a joy with fast, clean, cool electric ranges. An electric dishwasher is a welcome helpmate in easing the work of that unwelcome chore. An electric refrigerator, washer and dryer complete your list of electric servants.

LIGHT FOR LIVING Modern lighting glamorizes rooms, brings out the best in colors and provides contrasts for highlighting your favorite furniture. Your Gold Medallion home takes on a new beauty after dark.

Look for the Gold Medallion before you buy a home, or contact Niagara Mohawk for help in laying out your plans for an ALL ELECTRIC Home.

IT'S A WOMAN'S WORLD

HIS AND HER SHOWER

A Southampton, L.I. mother of a bride-to-be has introduced a new kind of bridal shower that should inspire new promotions among retailers according to word from the State Commerce Woman's Program. Because the boyfriends of girls attending a shower often gather at the party near the end of the evening anyway, it was decided to let them in on the fun and add to the groom's possessions as well.

A "His and Her Shower" was given, complete with two cakes, appropriately inscribed. Girls brought their gifts for the prospective bride and the men brought their's for the groom. What with the current male interest in barbecuing, gourmet cooking and carving, there's a wide range of gifts to be selected. How about his own garment bag, bried case, tool kit, mammoth bath towel, carving set, liqueur glasses, car robe, chef's apron, barbeque cook book or enameled iron skillet?

LEGAL STATUS OF WOMEN IN NEW YORK STATE

There are many laws in New York State that protect the rights and well-being of working women, according to Secretary of State Caroline K. Simon. Possibly the most important legislation of all is Section 199A of the Labor Law which states that no employee shall, because of sex, be subjected to any discrimination in rate of pay. Especially significant in New York State, is a law providing that a married woman can now enjoy the same legal status as an unmarried woman in entering into contracts - which is equal to that of men.

Natural Gas for Voorheesville

The Public Service Commission today authorized Niagara Mohawk Power Corporation to construct a new natural gas distribution system within the Village of Voorheesville, Al-

bany County, and to exercise a gas franchise granted it recently by that municipality.

The company now provides natural gas service within the Town of Guilderland, which is north of the Town of New Scotland in which Voorheesville is located. To provide service in Voorheesville it proposes to extend its mains from their present terminus in Guilderland southerly. This will require about 24,890 feet of new eight-inch main and 2,000 feet of four-inch main, together with necessary service laterals.

Work is scheduled to be started immediately so that service may begin before the start of the next heating season. All construction is to be done in conformity with the P.S.C. Gas Safety Code.
