### IT'S NO PICNIC!

Picnics are fun—part of the American tradition of outdoor enjoyment.

But it's no picnic to turn the children loose in poison oak or ivy. Learn to identify them.

Roast those franks and fry those trout outdoors. But put out all fires.

Slippery stones can break your bones. Be careful on that fishing trip. Don't stand up in a small boat. A fishing license isn't a permit to hurt yourself or endanger the children.

You can be careful and still have fun. And it's no fun not to have accident insurance.

#### Kohinke Seeks Legislation for Problem

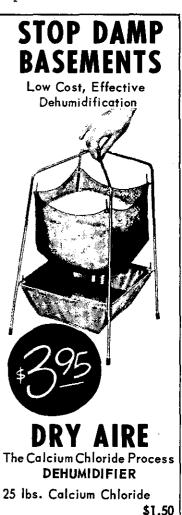

Bethlehem Supervisor Bertram E. Kohinke said today that he would favor the creation of a Legislative Commission to study the County Supervisor apportionment problem throughout New York State. He said that the Commission's mission would be to find a formula which would strike a fair balance between geographic and popular repre-

sentation on Boards of Supervisors and present such a formula with a thorough report and recommended legislation which would put such a formula into effect.

Mr. Kohinke said: "It is obvious that a fair geographic-popular representation does not exist in Albany County," but cautioned that there was no

immediate chance for special legislation correcting the Albany County situation alone. He said that adoption of a County Charter, with special features, could correct the inequities in theory, but that the machinery of drawing a County Charter was pretty much in the hands of the existing Board of Supervisors. He further stated that the Legislature was prevented from passing a bill to deal with Albany County alone by Article 9, Section 1 of the New York Constitution since that provision requires a request for a change by the Board of Supervisors - a request unlikely to be made. He further explained that there were other

Constitutional hurdles contained in Article 3, Section 17, which deals with special bills. "All in all, "he said, "we can't consider Albany County in a vacuum. We must look for a general law to provide a fair deal throughout the state."

Mr. Kohinke reviewed some of the possibilities which would provide greater popular representation. He noted the "weighted voting" system in use in Nassau County under a charter; under this system one supervisor might have 6 votes or one vote - according to the population he represents. Then too, he said that the Town Law now provides the germ of an idea which could permit the election of several supervisors with a presiding supervisor. He also said that the entire County (including cities) might be divided up into wards subject to a mandated review and reapportionment after every Federal census. "Every one of the possible remedies has its own advantages and disadvantages, " he said, "and finding the solution which would stand a chance in the Legislature would be a very difficult task."

"Whatever the remedy advanced by the Commission might be, it would be certain to cut across party lines, " said Mr. Kohinke. No one in the Legislature would vote for a

general reapportionment unless he knew precisely how the political strength would be changed in his own County and the entire State, was the opinion of Mr. Kohinke. He said that is one of the reasons why a Commission to study the matter was required.

Mr. Kohinke concluded as follows: "In the United States, we are generally committed to a system of representation giving weight to both population and units of government. Even the smallest town or smallest state has problems peculiar to itself and requires some representation. What has really caused the problem is the representation given wards of cities which have remained static throughout the years. Wards are, however, not units of government but merely convenient lumping together of areas where people vote: thus wards have no claim to fixed and abiding representation as do units of government. At the same time, when County Government was first set up, no one envisioned the day when we would have towns with threequarters of a million people such as the Town of Hempstead, The very desirable legislation which over the years has made town government attractive and workable has also worked to discourage the creation of cities by centers of population which cities might be entitled to greater county representation under their charters. Whatever solution is eventually arrived at, it should be of the formula type which gives weight to the dynamics of our society and population."

You'll see old mill sites, trout streams, a modern factory that started in a rural village shed, reforested areas, contour strip cropping and beautiful mountain views. Experience the solitude of woods roads and lovely old villages (one is the living equal to Sturbridge or Cooperstown). Children will love to stop and see the dairy and beef cattle and sheep just on the other side of the fence.

DATE - Sunday, July 15, Start anytime you wish between 10:30 A.M. and 3:30 P.M. (In case of rain, tour will be one week later, July 22.

STARTING PLACE - Delmar Elementary School, 445 Delaware Ave., Delmar, N.Y. Here you will pick up your tour directions, map and running commentary.

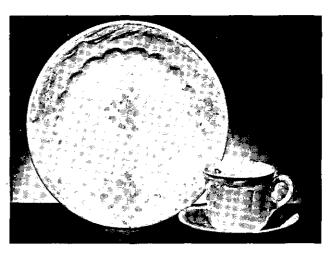

DRIVING TIME - Tour covers 45 miles. Drive at your own speed. You can stop wherever you want to. There will be about 12 marked stops of special interest.

Arrangements for this tour have been made for all the people of Albany County by the Albany County Extension Service and the Albany County Soil Conservation District, with the U.S. Soil Conservation Service assisting.

For many people, the "automatic" quality of saving through U.S. Savings Bonds is of great in itself. An added advantage: accrued interest on E bonds need not be declared for tax purposes until the bonds are cashed.

#### FOUR DELMAR GIRLS TO ATTEND GS ROUND-UP

Four girls from Delmar will be among the 38 senior scouts from the Hudson Valley Council, who will attend the 1962 International Girl Scout Roundup at Button Bay State Park on Lake Champlain in Vermont July 18-31.

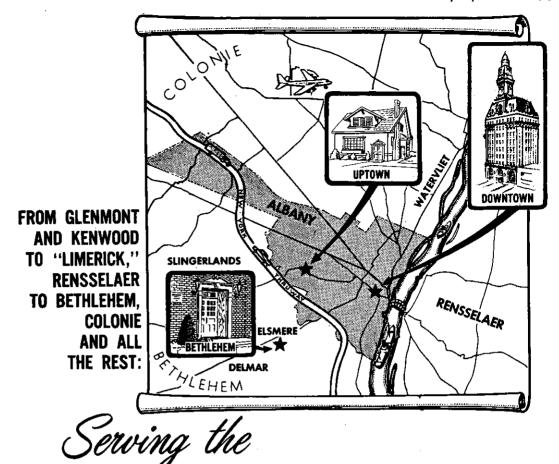

From Delmar there will be Barbara Lynne Clarke, Sue Jardine Estey, Sally Everson, and Karen Goold, At Roundup, Barbara will demonstrate candle dipping, Sue will do Dutch cooking, Sally will make small Shaker brooms, and Karen will enamel on copper.

This Roundup is third to be sponsored by the Girl Scouts and is the largest event for teenaged girls in the free world. The purpose of this encampment is to bring together girls of various races, national origins and creeds to share in a rich camping experience and a wide selection of activities.

These girls were specially selected through all scouting qualifications to represent their communities. For many months in preparation for Roundup, the patrols in the Hudson Valley Council have been training in fair weather and foul to prefect their camping skills - pitching tents in a high wind, lashing, building tables and benches and cooking out-of-doors on charcoal burners.

Among their many and varied activities will be included demonstrations illustrating typical features of their respective region or country, including folk dancing, singing, cooking and demonstrations of local occupations and industries, from weaving to western branding. A reconstructed Colonial Village Green in the center of the camp will bring the past to life with its sugar house, bandstand, thimble factory, surreys, gigs, and other momentos of by-gone days.

The roll of women in the future will be discussed on the course of four youth forums on human relations and world affairs. The girls will also engage in such pursuits as arts and crafts, photography, meteorology and news reporting, any of which may suggest career possibilities. As part of

In a week of hard-fought contests, liberally sprinkled with good hitting and brilliant pitching, the contenders inched up in the Major League standings when the smoke of battle cleared. As a result, Murray-Simon tied Carroll for first place. Breathing down the necks of the first place teams is Albany Public Market, only one game behind.

This week's action saw the combination of Rick Plass and Roger Woodin pitch a no-hitter for Mullen in the 5 to 1 win over Patterson. Dan Moak. Rick Plass and Rick Dumas of Mullen got doubles in the game. Main edged out Hilchie 3 to 2 with Wisenburn of Hilchie getting 8 strikeouts. Albany Public Market beat Patterson 10 to 2 with doubles by Jim Kelley, Mike Rudolf, Desi Del Giacco, and Steve Marshall. Murray-Simon out-hit Hilchie 18 to 12 with Ronnie Gardner gathering 3 two-baggers. Mike Brush of Murray-Simon shut out Tougher 2 to 0. The Albany. Public Market team, helped by the pitching and hitting of Tom Arnstein, bombed the Carroll team by a score of 10 to 5.

#### De Heus Names Potter to Head Steak Roast Comm.

Otto de Heus, President of the Bethlehem Republican Organization, announced the appointment of Edgar L. Potter as Chairman of the Third Annual Steak Roast to be held August 22, 1962, at Murray-Janex Park.

Mr. Potter, a veteran Republican and for several years Vice-President of the Republican Organization, in turn appointed John De Mallie and Raymond Brownell to assist him as Co-chairmen. Mr. Potter also announced the following committee appointments: Distinguished Guests, Otto de Heus; Publicity, George Laird, Jr., Tickets, Arthur McCormack; Reception, Ralph Butler; Entertainment, Arthur Zautner; Prizes, George Butman. Mr. Potter said, "The tickets are being printed this week and will be ready for distribution next week. We plan to have the sale of tickets handled through the committeemen and several other party workers this year. Equitable distribution has been a problem in the past and we are hopeful that this will be overcome. So many Republicans felt hurt because they weren't given an opportunity to buy a ticket to this affair. Last year we had an overflow crowd so we rented a tent that accomodated 120 additional people. The operators of Murray Janex Park have enlarged their facilities this year so that this won't be necessary unless. of course, we are swamped with ticket orders."

Mr. Potter pointed out that the various committee chairmen will choose their helpers and meet this week to complete their plans.

July 2 marked the one hundredth anniversary of the signing of the Land Grant College

A DAILY FEATURE

Luncheon at the TOLL GATE 90¢ Act by President Abraham Lincoln.

Also known as the Morrill Act, this act laid the ground-work for the Agricultural Extension Service that serves more than 1000 farms and many more City and suburban residents in Albany County today according to Norman C. Kidder, County Agricultural Agent.

The beginning of a new era in agricultural development in the country, the Morrill Act brought into being the 68 Land Grant colleges and universities. "to teach such branches of learning as are related to agriculture and the mechanic arts."

This act has been called the most revolutionary single development in the history of American higher education. It provided for instruction in subjects not previously considered worthy of university study; it reached persons higher education was bypassing and it led to a new concept of the role of higher education.

Today a fifth of the nation's 3,891,000 college students attend Land Grant colleges and universities. They award 25

Referring to New York State, the agent said that it received 990,000 acres of land which went to the support of Cornell University, the Land Grant institution for the State. Ezra Cornell converted this land to a five-million dollar endowment for the university. #### ABOUT BABIES

A Public Service of the National Baby Care Council

TAKING BABY CALLING
By William Kitay
Member, National Association
of Science Writers
Editor, All About Babies

There are some children who are just wonderful when going calling. They are no cause for trouble, concern or embarrassment. There are others, though, who seem to have the knack of turning a social visit into a nightmare for both you and your hosts.

We have one of each in our home. Our son, when he was little, had the patience of Job. Given a small toy he would quietly amuse himself for hours. Even without a toy he seemed to have the ability to keep himself entertained and out of mischief.

Our daughter, when she was a toddler, was a terror. She was adept at emptying bookcases, dresser drawers and kitchen cabinets in seconds. She once spent all of an afternoon visit standing on her head in a corner of a couch to our embarrassment and the consternation of our hosts.

Now that both are grown, we can look back and from our experience offer several suggestions that might help readers be welcome visitors when they

take baby calling.

- 1. Teach your child good behavior when you're at home. Never try to do it while visiting someone else's home.
- 2. Wait until you get home to discipline your child. People find it embarrassing to watch another's child being punished. Should your child misbehave, speak to him quietly and divert his attention by starting him on something new. Being irritated and losing your temper will not endear you to your hosts.
- 3. Be concerned with what your child is up to. Never permit a situation to develop in which your hosts are forced to scold your child.
- 4. Anticipate what your child might be up to. If he's headed for a serving tray full of cups of tea and pieces of cake, get there before he does. Avoid trouble by keeping an eye on him.
- 5. Most children do not have the patience to sit still for hours while adults chat. Take along a small unbreakable toy for him to play with. Let him look through magazines and wander around within your sight.
- 6. Keep a small collection of baby's toys in homes of friends and relatives you visit frequently. Children delight in rediscovering familiar toys and even look forward to visiting in anticipation of the toys they'll find.
- 7. When your child is tired and irritable, bring your visit to an end and take him home.

Defending freedom is a job for all Americans. You can do your share by buying U.S. Savings Bonds through the payroll savings pay where you work, or at any bank.
