

BETHLEHEM'S COMMUNITY AMBASSADOR FOR 1963

Mrs. John J. Cunningham of Feura Bush Rd., Delmar, has been selected from among 8 applicants as the 1963 Bethlehem Community Ambassador. The announcement was made by Mrs. Jessie Rezzemini, Chairman of the Selection Committee at a reception held recently by the project officers and friends in the library of the Bethlehem Senior High School.

As the 10th successive Community Ambassador, Mrs. Cunningham will spend two months in Turkey this summer. The first month she will live with a Turkish family, while the second month will involve travel with a special group, including one member of her Turkish family. Although they will do some sightseeing, the main interest of the group is meeting the people with the hope of obtaining a better understanding and appreciation of Turkish life and culture. Upon her return in early September, Mrs. Cunningham will be available for speaking engagements before local clubs and organizations.

A graduate of the College of St. Rose, where she was recently elected to the Alumnae Board of Directors, Mrs. Cunningham also holds a Masters degree in Social Studies from The State University of New York at Albany. Her teaching career includes 3 years at Colton Central High School and 3 years of teaching 9th grade Social Studies and substitute teaching at Bethlehem Central Junior High School.

She feels that her background in history, geography and political science (having both studied and taught them) will be helpful to her in a project of this type. In addition, she is doing considerable independent research on Turkey, including a study of the Turkish language, through records. Also under the chairmanship of Mrs. Evan McChesney, the Orientation

NEW COMMUNITY AMBASSADOR: MRS. JOHN J. CUNNINGHAM

committee is arranging informal meetings between Mrs. Cunningham and local Turkish nationals and former residents of Turkey. A formal five-day orientation will be held at the international headquarters of the International Living at Putney, Vermont, from July 5 to July 10. Immediately following this orientation she will leave by chartered flight for Paris and thence to Istanbul.

Her husband is an Albany attorney associated with Halter, Sullivan and Rehfuess and they have a 3 1/2 year old son.

While in Istanbul, Mrs. Cunningham hopes to meet with Dr. Matthew Elbow (of Delmar)

one of her former Professors at Albany State, who is now on leave from that College and is spending the year as a guest Professor at the American Robert College in Istanbul. Since Dr. Elbow specializes in studying the Middle East, she feels he will be an invaluable asset to her own understanding of Turkey and environs.

At a business meeting of the Community Ambassador project, which preceded the reception Mrs. Frank Lane and Mrs. George Robinson were re-elected chairman and co-chairman of the project, as were the rest of last year's slate of officers. The treasurer, Mrs. Ann Rear-

ABOUT BABIES***A Public Service of the
National Baby Care Council***TESTING FOR TB**

By Katherine H. K. Hus, M.D.

Pediatrician in Charge
Tuberculous Division, Jefferson
Davis Hospital
Houston, Texas

Adults can be bad medicine
for babies. Bad in the sense
that they can give children tu-
berculosis.

Babies aren't born with TB
and they don't get it from the
milk they drink -- at least in
this country. But more than
2,000 future citizens under five
years of age have active tuber-
culosis. They get it from the
air which they have to breathe
to stay alive.

Very young children get TB
because they breathe in tuber-
cle bacilli that have been
spawned in the air by grown
persons in close contact with
them.

Fortunately, it is easy to test
a baby for tuberculosis. A
tuberculosis skin test will tell
the story. These are remark-
ably sensitive skin tests which
cause a reaction if there is in-
fection.

Nowadays, most pediatricians
advise prophylactic treatment
for the tuberculin positive child.
This calls for a drug known as
"isoniazid" for at least a year.
Sometimes a second drug is ad-
vised. This is commonly known
as PAS, instead of the tongue-
tangling word, "para-aminosa-
lityclic" acid.

However, studies have shown

that "isoniazid" alone is very effective to provide the necessary protection. It has been shown that this drug will prevent the development of serious disease among children who already are infected with tubercle bacilli.

Treatment, of course, is the first step, but it is urgent that the source of infection be found, to prevent further exposure. This means examination of all persons in close contact with the child: relatives, friends, or domestics. They should be given a tuberculin test and chest

X-rays. If a case of active tuberculosis is found, the victim should be placed under treatment immediately, and the child should be protected from further contact.

Tuberculosis is usually thought of as a disease of older people, but infants are highly susceptible to it. The disease usually takes a serious course with them. Common sense calls for regular tests of children so that treatment can begin at the first sign of danger.

SAFE SUMMER HAVEN

for all your winter wearables

SHOWN ABOVE is a partial inside view of Killip's "Polarized" Storage Vault. Sus-pended from individual hangers are the winter Coats, Suits and Dresses of thousands of our customers.

No Moths Would Dare Invade!

In this huge Polarized Storage Vault the air is kept dehumidified and low temperatures maintained constantly. Periodic fumigating is still another protection against moth damage.

Knows the Joys of More Closet Space

Every homemaker needs more closet room, especially during the summer months. When winter woollens are jammed into drawers and closets you incur the risk of moth damage, re-gardless of the presence of moth flakes and sprays. You incur none of these risks when you have your winter garments stored at Killip's - and you'll have all the closet space you need for your summer wearables.

How to Use Killip Storage Service

Phone us - or ask our routeman - to provide you with one of our big HANDI-HAMPERS. Or more than one if you can't get everything into a single container. Pack the Handi-Ham-per FULL. We'll call for it, dry clean every piece immaculately, then suspend it from an individual hanger in our Polarized Vault. Then, in the Fall, every piece will be delivered to your home - dry cleaned, freshly shaped and pressed and ready to wear.

LOW COST

We make one flat storage charge of \$5.98 - regardless of the number of filled Handi-Hampers entrusted to us. You pay nothing until we deliver in the Fall. Then you pay the storage charge plus regular dry cleaning charge for each garment. Every piece insured against fire, theft, water damage.

FRIEHOFFER ANNOUNCES 5-DAY WEEK DELIVERY

The Freihofer Baking Co. announced yesterday that no house deliveries will be made by route salesmen on Wednesdays, starting July 10.

Freihofer products were previously delivered house-to-house every day but Sunday. Salesmen will go on a five-

day-a-week schedule under the new policy.

A Freihofer spokesman said the company conducted a survey of modern housewife's purchasing habits, and concluded after a long period of speculation that "the 5-day delivery basis is adequate to satisfy her wants."

Five 4-H girls from the Town of Bethlehem will be taking a trip to Syracuse and the State Fair this year, because their demonstrations were deemed superior by judges at the recently held district competition.

It was announced at a 4-H leaders meeting at Bethlehem Central Junior High School last week that Janet Lawrence, Jean Olson, Linda Williams, Ann Winne and Paulette Zitko will be competing at the State Fair.

At the district (Tri-County) competition held in March, Albany County participants collected 13 blue ribbons and 1

red ribbon. From these 14, seven were chosen to give their demonstrations at the State Fair (which includes the five Delmar area girls).

Paulette Zitko and Janet Lawrence are seniors at Bethlehem Central High School, and Jean Olson, Linda Williams and Ann Winne are juniors there.

Just what have they learned to demonstrate so expertly? Paulette's project falls under the "home management" division, while the other four fit the "special foods" category. "How to pack a suitcase" is what Paulette demonstrates, and she believes the knowledge she has gained will stand her in
