## An Explanation

Dear Sir:

There have been so many communications regarding the proposed monument for our Memorial Park that possibly a little misunderstanding has crept in. To clarify matters may I say that the proposed stone is simply a permanent replacement for the present wooden structure that is now falling apart. It will be a memorial to all veterans of all wars.

Perhaps "park" is not the right word to use as it is really just a plot of ground dedicated to the memory of all veterans of the Town of Bethlehem. It should not be thought of in terms of a spacious pleasure park. Such a park could not be purchased for thirty times the amount this stone will cost.

Every town has its war memorial; ours will be exceedingly modest, but permanent.

Our goal is \$3,000, and it can be easily and painlessly reached if each family will give even as little as one dollar.

Contributions should be sent to the Bethlehem Memorial Committee, Delmar, New York, as soon as possible in order that the stone may be in place and ready for the dedication services on Memorial Day.

Sincerely yours,  
Helen B. Piper  
Member,  
Memorial Committee

## Memorial, okay, but no park!

Dear Sir:

It seems to me that the resolution in the proclamation submitted by our Supervisor in the March 26th issue of the Spotlight, is much more fitting for a Memorial to the Veterans than a recreational park would be.

Some have already contributed to the granite memorial and do not wish their contribution to be used toward a park. What about them?

If you parents want a park where your children can play, you should finance it yourselves, but do not try to combine it with a War Memorial, nor

saddle it on the over-burdened taxpayers who have all they can do to pay for the education of the children which increases every year and which includes swimming pools in both Junior and Senior High Schools.

I think we are near enough to parks and recreational facilities so that children will not suffer from a lack of places to play and swim. Besides I know of very few homes here that do not have plenty of space in their own back yards for their children to play.

Another question I should like to have answered by the School Board is why the cost per pupil in Bethlehem Central is \$725, and in the surrounding districts is only a little over \$500. Could it be because we are paying for all those swimming pools et cetera

### Thanks, girls!

Dear Girls:

I can't tell you how pleased and proud I am of all the girls in Beta Gamma Rho who participated in the Easter Seal Drive this year. As "Bunnies," working every Saturday and one Sunday afternoon the four weeks before Easter, you brought in more money than has ever been brought in by any group of "Bunnies" in the Easter Seal Drive since your sorority initiated the idea four years ago with the able assistance of Mrs. D-Cady Herrick.

This year, the total amount for your group alone was \$561.53, which is way over half the total amount collected by all three of the different "Bunny" groups working this year.

It has been a real pleasure working with all of you for this worthy cause. I hope you have had as much fun in our association as I have had. I am truly grateful to all of you - thank you so much. Also, I know you will join me in thanking Mrs. Herrick and Mrs. Harold Willard who did such a wonderful job in assisting both of us all during the drive.

### ROAD ARGUMENT RAGES ON

#### Fred Stimmel Calls Meeting To Present 'Factual Summary'

The Bethlehem-New Scotland Roads Association today called a community informational meeting for May 13 in an effort to clarify and resolve the growing dispute over the location of the proposed arterial highway link through the hamlet of Slingerlands.

Frederick C. Stimmel, newly-elected president of the group, said the association would present a "factual summary of the situation in the nature of a community information briefing."

The meeting will be held at 8 p.m. in the Bethlehem Senior High School auditorium. Representatives of the Department of Public Works, the Town Boards of Bethlehem and New Scotland, the New York Good Roads Association, and other interested civic groups will be invited.

The DPW proposal to route a high-speed divided highway through the center of Slingerlands has been vigorously opposed by residents of the community, who feel the connector should skirt the hamlet to the west.

Stimmel said the meeting was being called to accomplish these things:

1. Spell out the details of the DPW's proposed route plan and discuss its effects in the community.
2. Afford the DPW an opportunity to present its reasons for planning the link to bisect Slingerlands.
3. Obtain an expression of opinion from residents of Bethlehem and New Scotland on the presently proposed route.
4. Present a sounding board for the official views of the Town Boards of Bethlehem and New Scotland.
5. Make a start toward resolving the apparent differences of opinion between the DPW and residents on the proper location of the highway.

Here's something that spells security - a safe box filled with U. S. Savings Bonds.

**DELAWARE AVENUE IMPROVEMENT ASSOCIATION MAPS NEW AND BROADER PROGRAM OF CAREFUL PLANNING**

The Delaware Avenue Improvement Association is an organization of area property owners dedicated to the continued development of the Delaware Avenue sector of the Town in the direction of a model residential-business-professional community.

A sub-committee under the Chairmanship of John Ruskowski of Snowden Avenue met Wednesday evening, April 1, to map plans for a spring beautification-clean-up campaign which will utilize the coordinated efforts of other civic groups and solicit the aid of Town officials in the drive.

On the same evening, other representatives of the Association attended a public hearing of the town's Zoning Board of Appeals which was considering a request for approval of

a gasoline station off Route 9W. Meanwhile a third group is exploring plans for expansion of the Association into a broader organization with representation from throughout the Town of Bethlehem.

"Our goal," said Mr. Ruskowski, "is to do everything we can to help our town officials develop an increasing community consciousness among our business and resident neighbors. The Tri-Village community is well on its way toward becoming one of the truly outstanding examples of what careful planning can accomplish."

Members of the sub-committee which met with Mr. Ruskowski were: Mrs. John H. Hanks, Mrs. Edward H. Sargent, Messrs. Earle Ribero, Dr. Warren Coxé, Robert Biggane, Lawrence Jones and Louis Spelich.

WRGB WEEKDAYS 4:45-5:00

**Let's Fly A Kite - SAFELY!**

Flying kites and model airplanes is good sport, but it can be dangerous, Niagara Mohawk Power Corporation warned today.

The power company pointed out that flying kites or model planes near electric power lines requires extreme caution. If the string or wire used to control the devices became entangled in electric wires, serious injury or death could result the company said.

And there could be widespread inconvenience too, the company pointed out, explaining that control wires entangled in power lines might cause a power interruption affecting scores of people.

In renewing Niagara Mohawk's annual springtime safety plea, the power company urged everyone to observe four basic rules while flying kites:

1. Fly kites only in open fields, away from electric lines.
2. Never use string having wire or tinsel in it.
3. Make certain the string is dry. Wet string, like wire, can conduct electricity.
4. Don't climb electric poles, towers or substation fences to rescue an entangled kite. If a kite gets caught in wires or in a tree through which wires run - let it go.

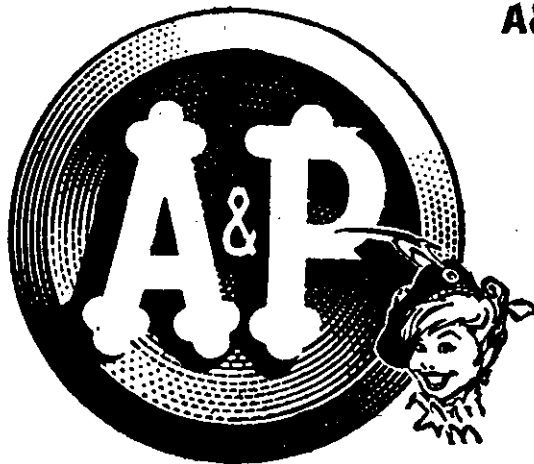

Niagara Mohawk said that flying model airplanes near electric wires is hazardous because many models are controlled by wire leashes which are good conductors of electricity.

**A real "friend in need" to all homemakers**

Impending Spring housecleaning tasks need not hang over you like a dark cloud. Do as thousands of other homemakers are doing at this time of year - "Call in Killip." You'll be delighted with the professional work we turn out in HAND FINISHING your finer accessories - things like ruffled Curtains, tailored Draperies, Blankets, Vanity Sets, beautiful Chenille Bedspreads, for example.

If you have ever attempted to launder a pair of ruffled curtains, you know how time-consuming it is. And how many homemakers are en-

dowed with the special skills required for refinishing costly draperies? At Killip's each piece is individually measured, hand processed and finally finished on a modern DRAPER-FORM. The dimensions are retained intact - and a "four-square" beautiful hang is assured.

But we plead with our friends to remember - all hand refinishing is "slow" work which can never be hurried. For that reason we ask that you permit us to call NOW for all the pieces you can spare. In other words do not get caught in the Spring bottleneck!

Margaret Kennedy secretary for S. W. Hooper Corp., Delmar. Mr. Thompson is a graduate of Wilbur H. Lynch High School in Amsterdam, and is employed with Niagara Mohawk Power Corp., Albany. No wedding date has been set.

**Where Are Those Never-Used Articles? Dig them Out!**

Suddenly it's spring and the time is here for the annual drawer and closet cleaning that we all face. The women of the Delmar Presbyterian Church would like to ask you all to think twice before throwing that no-longer-used item away.

Ask yourself if it has any use or value to anyone at all. If it does, they would appre-

Many Tri-Villagers, impatient for the warm breezes of spring, have taken off for other parts of the world for brief vacations. Let us not be too envious to begrudge them the good fortune.

Mr. and Mrs. Conrad P. Spuck of 60 Wellington Rd. have just returned from Mexico, where they enjoyed a couple of weeks of really hot weather.

Mrs. Andrew J. McConnell of 23 Hawthorne Ave. and her daughter, Barbara, a sophomore at Cornell University, took advantage of the Easter holiday to travel to the University of North Carolina for a visit with Barbara's sister, Nancy. Nancy a Cornell grad, is doing graduate work in chemistry on the southern campus.

Mr. and Mrs. George North of 117 Winne Rd. basked in the leisure of a Caribbean cruise, a most thoughtful Christmas gift from their daughter, Betsy, and son, Bill. Mrs. North is a Citizenship Education teacher at Bethlehem Central Senior High School, and Mr. North is an auditor for Mobil Oil.

Mr. and Mrs. Joseph Peck of Saratoga (she's the former Pat Dumm of Delmar) are presently on an 18-day tour of Europe. The young couple is traveling there with the 1964 European Study Tour of the New York Dairy Herd Improvement Cooperative.

Pat and Joe met while both were students at Cornell, and Joe now has his own dairy farm just outside Saratoga. This is Pat's second visit to Europe; she spent three months there with two girl friends shortly before her marriage a year ago last summer.

A political science student, Wendy is busy trying to land an interesting job in England. "This is the time to see the world," she believes - "when I'm still young and single."

Her parents are all in favor of Wendy's wanderings. "Our children can do whatever they want," Mrs. Wriston told me, "as long as its decent and we can afford it." Now, there's a simple, straightforward, and commendable parental viewpoint!

Kathy Haberer, daughter of Mr. and Mrs. John Haberer of 482-BKenwood Ave., was guest of honor at a surprise wedding shower one night last week. She'll be married on June 20 to Keith Wells of Utica.

where the engaged couple knew each other for many years.

Mr. Wells will graduate in June from Clarkson College. The future bride, a graduate of Cazenovia Junior College, is employed as receptionist for Dr. John M. Knighton, a dentist who resides at 34 Forest Rd. in Delmar and has an office in Albany.

ture album has been complete without delightful pictures recording their first years.

But do pictures of your baby invite adoring oohs and ahs, or merely polite reactions?

In order to take the best pictures of your baby, you'll need a little bit of know-how, a smattering of patience, and lots of applied psychology.

As far as equipment is concerned, if your camera can take close-up pictures, so much the better. A tripod also comes in handy to eliminate camera movement and free your hands for other things. If you "shoot" without a tripod, be sure to brace your elbows when you "snap" to keep blurs from your finished photos.

Your picture taking area should be about three feet from a plain background. A solid colored blanket, spread on a low table or bassinet, if baby's very small, will suffice. Since you won't want to unnecessarily involve your child in preliminaries, use a doll as a "stand-in" for all arrangements.

It's best to place your camera about four feet from your youngster. With blanket and camera set, replace the "stand-in" with your loved one and let him begin to play.

Of course, with uncontrolled activity, your youngster is apt to crawl toward you and the camera, so you'll have to arrange something to keep his interest. For example, you might want to try hand puppets, or his favorite toy placed "on location." Baby also might react well to playing with some colorful small objects, such as a ribbon or a balloon.

There are a few "discovery" games which bring delightful expressions to baby's eyes. When your child is old enough

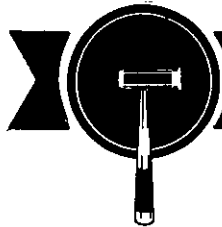

to handle a book, you might try placing a few brightly colored pieces of ribbon between different pages. As baby comes to a page where a piece of ribbon was hidden, viola! You will have just the right expression.

A toy, a rattle or a block also can be hidden in the blanket fold or in a rolled sock, for the same effect. In any case, such discovery will reward your patience and result in a fine new contribution for the pages of your family album. And those resultant oohs and ahs you'll hear from admiring friends and neighbors will be genuine appreciation for adorable baby pictures.

**SPOTLIGHT  
GARDEN  
TIPS**

Now you are ready for the important job of choosing the proper seed for your garden. The very fate of your flowers depends on the quality of seeds you choose, for no matter how much experience you have or how fertile your soil happens to be, you cannot turn out beautiful flowers without superior seeds.

Naturally, it's impossible to judge the quality of seeds simply by looking at them. The size, formation and color of your flowers are all in the hands of the seedsman whose product you purchase. Thus I

cannot stress too much the importance of choosing a really reputable seedsman.

One leading firm with more than 75,000 dealers "triple tests" all of its seeds. The tests are for germination, quality of the flower and completeness of mixtures. These rigid tests assure seeds of superior quality.

To me, one of the most outstanding and interesting aspects of flower gardening is to stand before a complete assortment of seeds in a flower shop or hardware or department store and to choose from the multi-colored packets those varieties best suited to my needs. These enable the small beginning gardner to obtain all the seeds he needs for as little as 59¢.

Here's how it works:

Your Reddy Recommended Dealer will show you why: Modern electric ranges are so clean and so dependable. Electric cooking frees you from worry, too. With the steady, even heat of an electric range you have no fears about undercooking or overcooking your foods.
