

Planning their Annual Steak Roast are these members of The Democrats of Bethlehem: from left to right, seated, are Bob Gibbs, ticket chairman; James Kennedy Jr., President, Democratic Club; Mrs. Fred Darbecker, ticket co-chairman. Standing are James Denn, general chairman; and Mrs. Donald Steffens, publicity. The Roast will be held at Murray-Jennex Sunset Park on Saturday, August 21, starting at 12:30. Dinner will be served at 5:30.

#### PLASTICS PLANT PLANS ANNOUNCED BY GE

The General Electric Company will build a multi-million dollar plastics plant in the town of Bethlehem, about 10 miles south of Albany, N. Y.

The facility will be used for the manufacture of polyphenylene oxide, a new plastic announced by General Electric last December. Capable of producing 10 million pounds of PPO a year, the Bethlehem plant will be the first of its type in the world.

The new plant site is located on a 500-acre tract on Route 32 near the Selkirk railroad yards. Preliminary construction is already under way by the general contractor, Blaw-Knox Company, Pittsburgh. Pa. The facility is expected to be in operation by mid-1966 and will employ approximately 150 persons at the start, most of whom will be professional personnel.

#### TOWN BOARD PASSES ORDINANCE REGULATING WATER USE

The Town Board of the Town of Bethlehem, Albany County, New York, does hereby enact and ordain as follows:

Section 1. The Town of Bethlehem is now in the fourth year of drought and it is impossible to forecast when the drought will end. As a result, the supply of water available for use in Water District #1 has decreased to an appreciable degree, and it is the belief of the Town Board that steps should be taken to conserve the water supply and that restrictions should be imposed on the use of water and penalties for violation of such restrictions.

Section 2. The use of water for all swimming pools, filling or make-up, wading pools, watering lawns, gardens, shrubs and trees and washing cars, both private and commercial, sidewalks, driveways, service stations and other similar purposes including any outdoor use, is hereby prohibited except that for four two-hour periods during each week, from 6:00 A.M. to 8:00 A.M. and 8:00 P.M. to 10:00 P.M. on Tuesdays and Fridays, hand-held and handoperated hoses may be used for watering lawns, gardens, shrubs and trees and water may be used during the forgoing morning hours to fill wading pools which are not in excess of 6 ft. in diameter to a depth of not to exceed ten inches. This exception shall not be construed to permit the use of sprinklers, perforated hoses or similar devices.

Band Concert
Thursday, 7:30 P.M.
Clarksville
Parking Circle

Section 3. The Superintendent of Water District #1 is hereby granted authority, in accordance with regulations to be promulgated by him, to permit additional use of water by bona fide commercial nurseries that were in business on June 1, 1965.

Section 4. A violation of this ordinance shall be deemed an offense and shall be punishable by a fine of not to exceed One Hundred (\$100.00) Dollars, and in addition thereto the Town Board after a hearing with the members of the Town Board may cut off the supply of water to any person or persons violating this ordinance, and to any property on which a violation occurs.

Section 5. Nothing contained herein shall be construed to prohibit the use of water from a private supply of water that is in no way connected to the supply lines of Water District #1.

#### Awarded Research Fellowship

F. Robert Jordan, Jr., son of Mr. and Mrs. F. Robert Jordan of 22 Bartlett Lane, Elsmere, has been awarded a summer research fellowship at Albany Medical College, where he recently completed his second year of study.

Mr. Jordan is performing research under the supervision of faculty members in the department of physical medicine. The fellowship is supported by a grant to the Medical College from the U.S. Public Health Service.

The summer fellowship program at Albany Medical College is designed to teach selected medical students the methods and value of medical research. Sixty-seven undergraduates of the college are spending their summer vacations in this way.

#### PLASTICS PLANT (Cont'd.)

Dr. John F. Welch, manager of CDO's Polymer Products Operation, Pittsfield, Mass., said that while the plant is being constructed, PPO will continue to be available in truckload quantities from a developmental facility in Pittsfield. Dr. Welch's Operation has the domestic responsibility for all phases of the PPO business.

Dr. Welch said the Capital District site was chosen from a

Both in beautiful shades of redberry, blueberry, peat brown, glen green. Cardigan, 34-40, \$20.00; skirt, 8-14, \$18.00.

Summer Hours: Closed Mondays July and August ONLY Daily 10 a.m. Evgs. Wed., Thurs., Fri. number of locations studied. He said it was selected because of its excellent service by rail, air and highway facilities and its close proximity to the GE Research Laboratory in Schenectady where fundamental research on PPO and related materials is continuing.

Dr. Welch also noted that other favorable factors for the Capital District included the excellent living conditions for employees and the nearness of well-regarded colleges.

Dr. Welch and the people of his division worked closely at the state government level with the Commerce Department's First Deputy Commissioner, Ronald B. Peterson, when the Bethlehem site was under consideration. Also involved in working out the site arrangements were Town of Bethlehem Supervisor, Bertram E. Kohinke, Town Attorney Arthur McCormack, and personnel of the GE Real Estate and Construction Operation. In connection with the project, Dr. Charles E. Reed, Vice-President and General Manager of General

Summer Hours: Closed Mondays July and August ONLY Daily 10 a.m. Evgs. Wed., Thurs., Fri. Electric's Chemical & Metallurgical Division, called on Governor Rockefeller recently for an overall discussion of the economic outlook for the Empire State.

PPO was invented by Dr. Allan S. Hay in the General Electric Research Laboratory in Schenectady. A unique thermoplastic, it combines such characteristics as excellent performance over a very broad temperature range; outstanding resistance to steam and to water-based solutions of alkali and acids; excellent electrical properties.

Joining General Electric's phenolic molding compounds and LEXANR polycarbonate resin as competitors with metals and other engineering plastics, PPO is expected to gain major markets in hot water pipe, plumbing components, surgical instruments, appliance parts, and in

myriad applications in the electrical and electronic industries.

Development of world-wide markets for PPO through joint ventures with Dutch and Japanese chemical companies has already been announced by G.E. In Holland, a 60 per cent owned subsidiary, N.V. Polychemie AKU-GE, has been formed with Algemene Kunstzijde Unie NV. A 50/50 venture with Mitsui Petrochemical Industries, Ltd. is awaiting approval by the Japanese government.

The plant is designed around an entirely new manufacturing process known as oxidative coupling. When announced last December, Dr. C. Guy Suits, General Electric research director, said oxidative coupling is "the most exciting basic polymer invention since the discovery of linear polycondensation chemistry in the 1930's which made

possible nylon and other polymers... this basically new polymerization process hastens the day when countless common products will be made of plastic materials specifically tailored to the particular job."

The Chemical Development Operation is part of General Electric's Chemical & Metallurgical Division which has two of its major components in the Capital District — the Insulating Materials Department at Schenectady, and the Silicone Products Department at Waterford.

Other CHEMET Division components include the Chemical Materials Department with plants in Pittsfield, Massachusetts and Mt. Vernon, Indiana; Laminated Products Department, Coshocton, Ohio; Metallurgical Products Department with several facilities in Michigan; and the X-Ray Department headquartered in Milwaukee, Wisconsin.

#### Town to Move Several Depts.

Supervisor Bertram E. Kohinke recently made the following announcement:

The Town of Bethlehem plans to move several departments from the century-old Town Hall, 393 Delaware Avenue, to the recently-acquired buildings at 100 and 110 Adams Street nearby. The move is not expected to be made until the end of the year.

Law enforcement services will be centralized in one of the Adams Street buildings. These include Police, Juvenile Bureau, Peace Justice Court and chambers. In addition, offices of the Water and Sewer Departments, Civil Defense and the Town Historian may be moved to Adams Street.

A major portion of the two buildings will continue to be used as a headquarters for highway workers in the northern end of the Town, and for the storage of highway, election and other Town equipment. The Town has been renting space in the same structures for these purposes.

The changes are necessitated by the growth of the Town and the continuing demands for the services available. It is essential that working space be added.

WATCH "FREDDIE FREIHOFER" WRGB WEEKDAYS 4:45 - 5:00

The Town Hall will continue to be the main location of public services. Remaining will be the Town Clerk, the Receiver of Taxes, the Assessor, the Building Inspector, the Comptroller, and the Supervisor. Meetings and hearings of the Town Board will continue to be held in the Town Hall.

The brick and concrete block structures were purchased by the Town for \$99,000, after approval by a vote of the people last January. Prior to this, two independently-conducted appraisals listed the value at \$103,920 and \$105,000. The building at 100 Adams Street was erected in 1953 and an addition on the rear was constructed in 1956. The building at 110 Adams Street was built in 1954. The combined facilities provide 15,964 square feet of space. Parking facilities have been provided close by.

The purchase is being financed through the sale of bonds at approximately 3.5% interest over 20 years. The per-taxpayer cost is about five cents per \$1,000 assessed valuation. The total 20-year cost, including principal and interest, will amount to \$135,750. But the Town has been paying rent for use of a part of the buildings of \$6,220 per year, which in 20 years would amount to \$124,400.

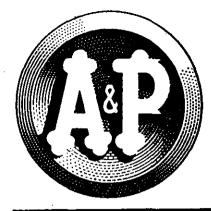

The structures will, of course, be removed from the tax rolls. It is estimated the Town tax loss for 20 years would amount to \$28,500 and the school tax to \$32,500, for a total tax loss of \$61,000.

The gains offset these figures. The cost of rental of the additional storage and office space in these buildings over the 20year period has been estimated at \$109,000 or more. The present tenant of one of the buildings, L & H Garage, is relocating on Adams Street, creating a new taxable property. In the long run, the total advantage for the Town amounts to more than \$50,000, and the Town will, of course, own the buildings and the excellent property on which they are located.

She is entering Rochester University in September to earn her masters degree in earth sciences.

#### John Manne Wins Athletics Honors in College

John Manne has just completed his third year at Hartwick College, and has compiled a record of versatility hard to match. While at B.C.H.S., John was the undefeated Captain of an undefeated BCHS Tennis Team. As a freshman at Hartwick, he immediately displayed the tennis superiority that won him the #1 Singles spot on the Varsity Team. He was elected Captain in his Sophomore year and awarded the trophy as Outstanding Player. In the Junior year, he repeated

 re-elected Captain and again awarded the trophy as Outstanding Player. John also filled a Halfback position on the Hartwick Soccer Team, which won the N.Y. State Championship.

Added to his athletic achievements, John was elected to Beta Beta Beta, the National Biology Scholastic Honor Society. He also was Photographic Editor of Hilltop, his college paper. AND SUMMERS?? For the past three years he has been water

John Manne

skiing instructor at a boys' camp on Schroon Lake. He holds a N.Y. State license as Junior Pilot and Engineer, qualified to operate 10-ton craft on N.Y. waters, and is a Senior Red Cross Lifesaver.

This September John will attend Fairleigh Dickenson University School of Dentistry, having been accepted after only three years of "Predental." He will now seek to add a successful career in dentistry to his undergraduate achievements.

#### Movies Today

Walt Disney's famous film, BEAVER VALLEY, and PRE-HISTORIC IMAGES: THE FIRST ART OF MAN, a movie about Stone Age cave paintings, will be the third offerings in the New York State Museum's Summer Film Festival. Both films will be shown on Thursday, July 22 at 12 noon and 3 p.m. at the Museum in the Education Building across the street from the Capitol in Albany. There is no charge.

#### NEW COMEDY SERIES WILL BE SPONSORED BY TELCO

"Hank," a weekly, half-hour comedy series about a college "drop-in," will be presented at 8 P.M. Friday, September 17, on NBC-TV.

The Bell System will sponsor the new program every other week.

"Hank" relates the hilarious adventures of enterprising Hank Dearborn, a young man who attends Western State University although he isn't enrolled.

Hank, who is portrayed by Dick Kallman, would like to be a registered, tuition-paying student at Western State, but he lacks a high school diploma.

He was forced to withdraw from high school at the age of 15 when his parents died in an auto accident and he became the sole support of his sister, Tina, Tina is played by eight-year old Katie Sweet, who has graced the television and movie screens for more than five years.

Hank provides for himself and his sister by operating a mobile refreshment, clothing and schoolsupply stand that is something like a general store on wheels. He also operates a laundry service and shoe repair store.

In order to attend classes, he adopts various aliases and disguises, or takes the place of students he knows will be absent.

Hank's college life is complicated by the efforts of Dr. Lewis Royal, the registrar, whose hobby is finding unregistered students. Howard St. John, a veteran of the Broadway stage, plays the

#### Top Soil at its Finest!

Rich, specially prepared, sandy loam or sandy clay loam. J. W. MICHAELS CO., INC. LANDSCAPE CON- pompously efficient Dr. Royal.

Track coach Ossie Weiss, played by Dabbs Greer, also makes Hank's life difficult. When he spies Hank leaping campus hedges because he is "late for class," coach Weiss envisions a champion hurdler and winning season. His attempts to identify the elusive Hank and "draft" him for the track squad provide many comic sequences in the series.

Other continuing characters in the new comedy series are

Hank's girl, Doris - enacted by | Linda Foster, who also happens to be the registrar's daughter: Prof. McKillup, played by one of television's most familiar character actors, Lloyd Corrigan, and Tina's baby sitter, Franny, played by Kelly Jean Peters.

"Hank" is produced by Warner Brothers, in association with NBC-TV. The first half-hour telecast will be in black and white. the remaining 38 programs in color.

The Bell System will also spon-

sor the Bell Telephone Hour. Young People's Concerts and PGA Sports Network Telecasts during 1965-66.

#### Boost for March of Dimes

The Albany County March of Dimes Organization received a boost in the amount of \$33. It represents the proceeds of a neighborhood carnival, held July 2nd in Delmar. Last year the committee realized \$13. The youngsters built their own booth and provided various games such as penny toss, sponge throw and fish pond. It was well patronized by parents in the neighborhood of Kenmare Avenue.

The committee in charge were Miss Ginny Owens, Chairman, Lori and Linda Schiavo, Pat, Liz and Jim Dineen, Pat and Steve Aiken, Sue and Katie Owens and Cindy Gaffney.

#### Teen-Agers' Summer Theater

Charlatans' Summer Theater will open its first season with William Saroyan's Hello, Out There, directed by Lolly Geer, and Lucille Fletcher's Sorry, Wrong Number, directed by Sydney Turner, on July 24 at 8:30 in the Bethlehem Central Senior High auditorium.

The stock company consists of thirty dedicated teenagers under the direction of Mr. Sydney Turner, a drama coach and English teacher at Bethlehem Central. The company works in cooperation with the Bethlehem Summer Recreation Program.

Future plans include two more productions on August seventh. At that time Archy and Mehitabel, directed by Eileen Rasker, and Jean Giroudoux's The Apollo of Bellac, directed by Mr. Turner, will be presented.

The repertoire is purposely varied; "Sorry" is a suspenseful thriller, while "Hello," billed opposite it, is a sentimental drama with the usual Saroyanesque use of pathos. "Archy," taken from the classic poem by Don Marquis, is a "back alley opera," while "Apollo" is a satirical fantasy with a refreshing parody on the male vanity.

Starring in "Hello" are Judy Flandreau and Tim Platt. Eileen Rasker takes the leading role in "Sorry." "The Apollo" features Hank Kuivila and Lolly Geer. Archy will be played by David Skidmore and Mehitabel by Sharon Walworth. Mr. Lars Allanson is technical director.

On July 22, Mr. Katsuhiko Torii, a student of economics at Doshisha University, Kyoto, Japan, will arrive in Bethlehem as an Incoming Ambassador of the Bethlehem Community Ambassador Project. Mr. Torii is a native of Kofu, near Tokyo, where his family lives at present. His father is a dentist and there are also his mother, two older

Ambassador from Japan

brothers, and a sister in the family. His father has visited the United States and one brother has come here as a regular Experimenter. His other brother is doing graduate work at the University of Malaya.

Doshisha University was founded in 1875 by Dr. Neesima, who had attended Amherst College. In memory of Dr. Neesima, Amherst, in 1932, donated "Amherst House," a building in which nineteen young men are housed. A Fellow from Amherst is also in residence and here English conversation is practiced. Mr. Torii has been a resident of this house this past year.

Hospitality for this excellent young ambassador during his two months stay in Bethlehem has been arranged by Mrs. Robert Raymond. The families with whom he will live during his stay include Mr. and Mrs. A. Steber Kerr, Mr. and Mrs. Kent D. Miller, Mr. and Mrs. Fred Muchelot and Dr. and Mrs. Theodore G. Brown, Jr.

Added to the International guest list on July 31 will be six teachers from Italy. These young ladies have been carefully selected by the Italian government, as well as The Experiment, and should prove delightful additions to our community.

Leader of the group is Santina M. Damonte of Genoa, who will be the guest of Mrs. Jessie Rezzemini, chairman of arrangements for the incoming group. Also from Genoa, is Ada LaGola, guest of Dr. and Mrs. Frank Lane, and Carla P. Calvi, guest of Mr. and Mrs. Emil Klushmann. From Turin, come Marie Blandin and Rosalba Copelli, hosted by Mr. and Mrs. Hildreth Bailey and Mr. and Mrs. Sidney Kaplan respectively. Mr. and Mrs. John Cunningham will have as their guest, Carla Buscaglia of Vercelli. (Mrs. Cunningham was Bethlehem Community Ambassador to Turkey in 1963).

To introduce all these young people to the members of the community, a reception will be held Aug. 4, from 8 to 10 P.M. in the Community Room of the Delmar Public Library. Everyone is cordially invited to attend.

This Story Appeared in Print 'Way Back in August 1905

#### Pretty Village Taking on Airs of Modern City — Water and Electricity

Water and Electricity
The pretty little village of Delmar is just now enjoying a boom.
Fine new houses are being built,

the streets are being nicely graded, pure spring water has been piped into the city and a scheme is on foot to supply the village with electric light. When the contemplated improvements are completed the village will be one of the most desirable places of residence in the near vicinity of Albany.

The Suburban Water Company of Slingerlands has piped the town and is already supplying one-half of the inhabitants with pure spring water drawn from the rocks above New Salem. This water has been used in Slingerlands for the past two years and has given entire satisfaction. The new plant was installed at a cost of about \$3,000. Many of the residents have had their homes fitted up with modern plumbing and are now enjoying all the luxuries of a city residence. Among the fine houses erected in the village is one being put up by Dr. Bedell of South Bethlehem. The electric light will, it is hoped be installed before winter.

Operator Betty De Mark tells about her job at New York Telephone.

# "When you need a little extra help placing a call —that's what I'm here for."

"Nowadays, you can dial most calls faster than I can place them for you. But there are times when you might need help—when you make a collect call... or have a question about how to make a call. Or you might need special help in an emergency. These are some of the reasons I'm here. I'm happy when I can help... because I've learned how much a customer appreciates my taking time to understand what he wants, and then doing something about it. Knowing people depend on me for help is what makes my job so satisfying."

At this writing, it's difficult to tell what the outcome will be of the bitter dispute between Saratoga Raceway officials and members of the Northeastern Horsemen's Association, but it threatens to curtail the enjoyment of many local persons who have been making frequent trips to the Raceway this summer.

Chances are a good number of locally-followed horses have been shipped by now to other racing sites.

"I'm in the dark about it all," Mr. Leonard C. Smith, who lives at 548 Kenwood Ave., told me last week. He and his wife own three horses that have been racing at Saratoga this summer. "I really don't know what it's all about," he said, "but I'm investigating the possibilities of sending the horses elsewhere."

There are other racing horse owners in the Tri-Village area, but I was unable to reach any of them for comment last week —

probably because they, too, were busy making arrangements for evacuating their horses from the Saratoga scene.

Mr. and Mrs. Smith have owned their racing horses for the past three years, and have been making the trip to Saratoga to see them in action on an average of four nights a week. The horses are named Christopher D, Wil March, and Summer Storm, and are trained and driven by Henry LeDuc.

The Smith-owned horses have done very well lately at Saratoga — Christopher D won two races in one week — but Mr. Smith is not one to hand out betting advice. "There are so many factors to be considered in every race," he said, "that you can never feel sure about which horse will win." He bets lightly on his own horses as well as on others, but admits that, over the long run, "I've lost my shirt."

Mrs. Smith greatly enjoys the

# Our Sweet Corn is Ready

Walley's Farm, Inc.

924 New Scatland Road Albany, N.Y. 90 2-05

races, but declines to wager. "One gambler in the family is enough," her husband joked.

Mr. Smith, who with his son operates the L.C. Smith Bus Service, Inc. on Delaware Avenue, bought the race horses because: "I grew up on a farm and I've always loved horses."

There are many other horselovers in our local community, and it seems a shame that they may not be able to see their favorites pull away from the starting gate at beautiful Saratoga Raceway anymore this season. I don't know what it's all about, either, but one fact appears obvious: We, the racing fans, are the losers.

Last week's column contained a list of the 1965 graduates of Bethlehem Central High School who are planning to go on to college, and the colleges they'll be attending. It seems appropriate to mention here some of the plans of the other class members.

Of the 375 graduates, 307 will continue their educations. (It might be noted that last year there were 275 graduates, 219 of whom entered college.)

Nineteen of the 68 non-college bound graduates of 1965 plan to enter the service, or have already done so. Most of the other 49 young men and women have launched careers, 17 of them in clerical and office work and 14 of the gals as secretaries.

Other jobs taken by the new graduates are in the fields of sales, mechanics, electronics, construction, radio and TV, art work, and plumbing and heating.

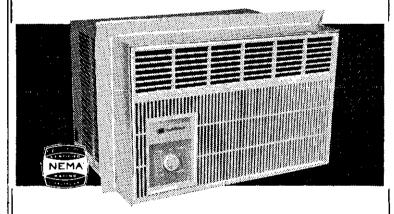

"We're proud of all our graduates," Dr. Harold Bookbinder, director of program development for Bethlehem Central schools, told me, in making these facts available. It should be mentioned

# LETTER

Dear Mr. King,

I would like to write you to express my appreciation to you and the Spotlight for the generosity and thoughtfulness shown music, the arts and me personally during the years of my life in Delmar and the Tri-Village area. I am grateful for my life here and for the opportunity of working with students of Bethlehem Central Schools and with adults of our community. We are rich with\_talent and I will always remember the thrilling, heart-warming and meaningful experiences it has been my privilege to have. Of course I will miss the various facets of my life here.

Although I am leaving for Illinois, Delmar and the Tri-Village area will always have a special place in my heart. I will follow life here, naturally, and the Spotlight will help me to do so.

Thank you again, Mr. King. Our schools and our community will have great years ahead and you will help make them so.

Sincerely yours, Rolland R. Truitt
