Films Available

You do not have to brave winter's winds for an evening's entertainment. If you have a 16mm movie projector you may sit at home and in your own easy chair watch any one of thirty films now available through the Delmar Public Library. The Upper Hudson Valley Library Federation has these films on loan from the New York Library Collection until the end of March. In order to enjoy one or more you make a request at the Library and they in turn will borrow from the Federation for you. However, if you want a film for a special date, do get your request in at least a month in advance.

A list of available films is posted on the Library bulletin board. The one restriction as set forth by the State Library — "these films may not be used for school-room use." In other words any group planning a program, other than for school use, is more than welcome to enjoy this service.

The films cover a variety of subjects; art collecting, Indians, the circus, a tour in Ireland, a jazz program, the sea and too many others to mention.

Do avail yourselves of this opportunity. Many of your children have already joined the fun of attending Saturday morning movies at the Library.

Buttons and Bows

The Buttons and Bows 4-H Club of Elsmere have completed their food projects which were "Breakfast is Ready" and "Fruit Delight."

Linda Herrmann entered a dress in the D.A.R. Dress Contest.

The club members are starting work on three different clothing projects. They are: "Let's Sew Skirts," taught by Mrs. Joseph Doherty; "Let's Sew Blouses," taught by Mrs. Al-tamont Cornwell; and "Sports Wear," taught by Mrs. Harold Geurtze, Jr.

The recreation leader, Cheryl Geurtze, has announced an ice skating party to be held January 30.

Slingerlands

At the last meeting of the Slingerlands Girls 4-H Club it was decided to collect old sheets and pillow cases for the American Cancer Society as our community project. These sheets would be used for dressings by cancer

patients. The club also discussed having a weekend camping trip this summer.

After discussions, Mrs. Jean Kleinke showed an easy method of making a pillow cover as shown in the "Start and Go" project.

At the last meeting of the Albany County 4-H Club Council one of our members, Joan Kleinke, was chosen to be one of the representatives for Albany County at 4-H Capital Day, to be held February 28 and March 1 at Albany.

Water Safety

The Albany Area Chapter of the American Red Cross is sponsoring a water safety instructor course beginning Tuesday, February 1, 1966 at Bethlehem Central Senior High School, at 7:00 P. M., as announced by Carl Gardner, Chairman of Water Safety in the Albany Area Chapter.

In order to qualify for this training each applicant must hold a current senior lifesaving

certificate and be either eighteen years of age or seventeen years old and a high school graduate.

Carl Gardner points out that nearly two out of three persons who drown were not engaged in swimming at the time of the incident - that they "fell" in the water - a boat capsized, etc." Water safety instructors equip people with the water skills necessary to care for themselves. He further stated that more than 100 volunteer Water Safety Instructors are needed for the Albany Area Summer Program that involve nearly 10,000 boys and girls at pools in this area.

All college students are urged to avail themselves of this opportunity to become certified as water safety instructors through this program.

This training qualifies its graduates for summer water-front positions in camps throughout New York State, and, in many instances, is a prerequisite for such a position by camp directors. The program is offered also to all persons interested in securing certification for water-front

positions and this is open to anyone who has lifesaving certification at this time.

The Water Safety Instructor training program will be under the direction of James Carnahan, Director of Health and Safety Services for the Albany Area.

Persons who are interested in enrolling should contact Mr. James Carnahan at the American Red Cross Albany Area Chapter, 140 New Scotland Avenue, Albany, New York.

Dance

The Tri-Village Welcome Wagon Newcomers Club will hold a buffet dinner dance on Saturday, February 12, at the crossroads in Latham. Cocktails will be served at 7 P. M. and dinner will be at 8 P. M. Dancing will follow.

too, if you consider one with the self-cleaning oven. This is the oven that cleans itself electrically and eliminates the meanest chore in the kitchen — scraping for hours to clean a dirty oven.

Did you ever count the cost of cleaning a messy oven by hand whether you use liquids, pastes, fumes or steel wool? The average cost of oven-cleaning materials, proved in test kitchens, for one cleaning job is about 35 cents — 5 times the average the self-cleaning cost.

That's only about 7 cents, based on one company's average rate of 2 cents per KWH. You save about 28 cents per cleaning.

And it's so easy — just close the door, turn two dials and the oven, no matter how dirty, will be sparkling clean in two or three hours.

The blessings are pretty obvious. Besides getting rid of all the drudgery of cleaning an oven by hand you'll save about 20 hours a year — time for extra pleasant hours with your family or to pursue a new hobby.

A number of couples from the Tri-Village attended a get-together last Sunday evening at the home of Dr. and Mrs. William Sands in Menands, which was a fund-raising event for the Albany County chapter of the League of Women Voters.

A quartet of Albany area physicians presented a musicale as the entertainment feature of the party.

Among those who enjoyed the event were Dr. and Mrs. Howard Netter, Dr. and Mrs. Jules Golden, Dr. and Mrs. Robert Friedlander, Mr. and Mrs. James Ackerman, Mr. and Mrs. Edward Rook, Dr. and Mrs. Richard Ball, Mr. and Mrs. Seth Grossman, Mr. and Mrs. Jay Handwerker, and Mr. and Mrs. Walter Rollins.

There's a lot of "mileage" left in your **OLD NECKTIES**

Every gentleman's wardrobe contains a heap of old ties. They were purchased at prices ranging from \$3.00 to \$10.00 apiece. They are lying idle — unused because they are either too wrinkled or too soiled.

What to do about these old "cripples"

Every one of your once-lovely old ties can be completely restored and made as good as new at Killip's Necktie Clinic.

Here each necktie is expertly dry cleaned, steam-shaped and form pressed to look as if you had just purchased it from your haberdasher. Indeed, each tie gets the same meticulous professional treatment which Killip experts expend upon costly suits and dresses.

REAL ECONOMY!

Figure it out for yourself. You can have every one of these "oldies" completely restored to newness at the low cost of only

3 TIES for \$1.05

But that is not all. You don't have to take your valuable time to bring your old ties to the Killip plant. We'll gladly call for them and deliver them right to your home — just as we do with all Killip laundering and dry cleaning. And you'll be delighted to note that each tie will be neatly packaged in a dustproof cellophane wrapper.

Your move, gentlemen!

Larry ruptured a kidney, which was removed during his stay at St. Francis Hospital in Poughkeepsie, and then he contracted a staph infection which delayed his recovery. He was able to go back to school a few days before the Christmas vacation, but is still required to "take it easy" - a rough prescription for an active athlete like Larry to follow.

His participation in sports is limited greatly, and he's not playing on the basketball team this year, which is naturally a disappointment. He has accepted his misfortune well, however, and his mother told me recently the family is proud of how Larry has adjusted to the sit-

**FRONT
WHEEL
DRIVE**

**Just too
good to last
as a SAAB specialty**

Today, you can buy **FRONT WHEEL DRIVE** in a large Detroit sport-sedan, at more than twice the price of a Swedish SAAB. Of course, SAAB has had Front Wheel Drive pulling for it for over sixteen years.

It was inevitable that American car manufacturers would latch on to it sooner or later. **FRONT WHEEL DRIVE** puts the engine weight over the driving wheels, makes for roadability and balance — pulls you through when the road throws you a curve, when the going gets rough . . . or slick. And you get tow-truck traction in snow.
