"The Glass Menagerie"

The Bethlehem Central Senior High School will present its third play this year on Friday and Saturday, May 20 and 21. Tennessee Williams' "The Glass Menagerie" will be presented by the Charlatans, Bethlehem's Dramatics Club, in the school auditorium.

Emphasis is being placed on mood lighting and sound rather than on a complex set, in an attempt to capture the essence of Mr. Williams' "memory play."

Curtain time is 8:15 for both performances.

Scholarship

The Delmar Fire Department is offering a \$100 scholarship to a senior boy or girl living within the Town of Bethlehem whose father is a member of one of the five fire departments or the fire police. Also, any senior boy who is a member of one of the five departments is eligible.

For further information, call Brian Gallagher (439-2859) or Sam Capone (439-1345).

Bottle Drive

Cadette Girl Scout Troop #454 of Delmar is sponsoring a bottle drive through May 28. The money raised will be used to send Kool-Aid to our servicemen in Viet Nam. The bottle drive is in answer to a request from these men to the Red Cross for Kool-Aid because it is a pre-sweetened, easy-to-prepare drink.

The troop would appreciate all donations to the cause. If you have any empty bottles please call 439-3109 for pick-up.

Omission

ART FROM EVERY ANGLE for grades 5 and up was left out of the Helderberg Workshop brochure in error. Library Notes

A charming exhibit is now on display in the Community Room of the Delmar Public Library. Borrowed from the collection of Mrs. Frank Sterrett are thirty beaded hand-bags of the type carried by ladies of fashion at the time of afternoon teas and calling cards.

A bit of nostalgia is sure to be felt by the viewer who remembers a grandmother or great-aunt who might have carried one as a most feminine accessory to her costume.

Included in the collection are bags dating from the early 19th to the turn of this century. They vary in size and color — truly a delight.

Mrs. Sterrett was given a green beaded purse as an engagement gift and so great was her pleasure that friends and family have continued to add to her unique collection.

To Europe

Christine Kebbon, daughter of Mr. and Mrs. Charles L. Keb-

bon of Delmar, will celebrate her sixteenth birthday on July 9th in Montpellier, France. She will be attending the Foreign Language League School along with a group from Maryrose Academy where Chris is a sophomore. The group will be chaperoned by one of the French instructors, Sister Anna of Mary.

Chris' cousin, Mary McLoughlin, from New York City will be traveling to Europe this summer and plans to meet the group in Paris for a quick "hello" before the girls leave for the French Riviera.

A pen pal, Petra Klockner, from Koblenz, Germany, hopes to spend her school holidays in France this summer and Chris is looking forward to meeting her friend in person for the first time, after corresponding with her for almost two years.

SCOUTS

Brownies from troop #106 and troop #396 took part in a council-wide "Brownie Be Discoverer Day" at Camp Is-shoda in East Greenbush on Saturday, May 7.

Three hundred Brownies from all over the council took part in this day long event. Activities of the day included a nature hike which ended at the camp pond where the girls had an opportunity to observe and feed the ducks and geese.

Kite flying, games, songs, bird identification, and making nature notebooks were also on the girls' busy schedule. The day ended with an impressive flag ceremony.

Bloodmobile

The Kiwanis Club of New Scotland and the Albany Area Chapter of the American Red Cross will co-sponsor a Department of Defense Bloodmobile at the Voorheesville Methodist Church from 10:00 A. M. to 3:45 P. M. on Thursday, May 26, according to a recent announcement by Frederick Edmonds, New Scotland Kiwanis Club President and William G. Fraser, Blood Service Committee Chairman for the Albany Area Red Cross Chapter.

Robert T. Mudge, Kiwanis Club Special Events Chairman said that this is the first time a Defense Department Bloodmobile has been arranged by a civic organization in the Albany Area and the idea came about at a recent Club meeting when the topic of Viet Nam and "What can

we do in order to show our support?" was asked. The Bloodmobile idea grew out of the question and plans for the event were subsequently announced and discussed at the Club's weekly meeting on Thursday, May 12. Posters and other hand-out materials were distributed for members to pass out throughout the New Scotland area and a 200 pint goal was established.

Anyone wishing to be a blood donor for the Armed Forces is asked to call Mrs. William Childs at RO 5-2809 for details.

Meeting

On May 16 the Armchair discussion group of American Association of University Women will meet at the home of Mrs. Harmon Clark, 381 Delaware Avenue, Delmar. Mrs. Clark will tell about her trip to Australia.

"Better By A Dam Site" — Acoustically Better, That is . . .

Don't be alarmed this summer if, while waiting for the Philadelphia Orchestra to begin a performance in the new Saratoga Performing Arts Center, you see Geyser Creek, which flows over a waterfall by the amphitheater, suddenly stop flowing right before your eyes. It will not be an act of God, but one of Eugene Ormandy, Musical Director of the Philadelphia Orchestra who, along with his orchestra, will establish residence at Saratoga from August 4 through August 24, 1966.

Maestro Ormandy on one of his first visits to the Center (S.P.A.C.) made a point of investigating the new 5100 seat amphitheater, and stagehouse. He was accompanied by several members of the Center's Board of Directors. One of his first concerns was the acoustical provisions of the new hall. This is no small matter in the construction of any new concert hall, but, in an outdoor, partially enclosed theater of such immense size, particular attention is required.

His tour completed, Ormandy stood on stage at the spot designated for his podium and gathered in the enormity of the yet-to-be finished structure. All seemed to his liking except for a hissing sound which he said emanated from the backstage area. No one present could hear the noise, much less identify its origin. Ormandy, however, insisted that the noise be found and eliminated before he could conduct in the amphitheater. Everyone stood quietly and listened intently but all that could be heard was the sound of Geyser Creek passing not 100 feet away. To anyone accustomed to the peaceful surroundings of the 1500 acre State Park on which the amphitheater is situated, this sound was so normal that no one was conscious of it. But, Ormandy's "keen ear for perfection" told him that something was not as it should be.

As a result of this experience, a dam has been erected which will, for each performance, temporarily divert the flow of water around the waterfall and pipe it back into the creek at a lower level. In technical terms, 10 feet above the waterfall, the creek will be diverted, by means of a dam, through an adjoining sluice gate and chamber. Then, redi-

rected 40 feet by way of a 24 inch reinforced concrete pipe to a 4 foot square "stilling chamber" at a lower elevation, the water will be gradually released back into the creek.

No, you are not seeing things. The creek will resume its busy activity immediately following each performance.

MAY TIPS FOR GARDEN & LAWN

Usually gardening is a pleasure, but at this time of year, cutworms can often spoil the fun. Cutworms, the larvae of night flying moths called Noctuidae, will attack most plants from asparagus to zinnias. The worms feed at night and hide in the soil during the day. The most conspicuous damage is when a plant is cut down by the feeding. However, there are several species of cutworms and the damage inflicted varies with the species.

Plants are injured in four principal ways. The surface cutworms eat off the plants near the soil surface. The climbing cutworms will eat the leaves and fruit. The army cutworms occur in great numbers and will consume nearly all the foliage.

Lastly, the subterranean cutworms feed on the roots.

Since all cutworms spend their days in the soil, one method of control is to place an insecticide in the soil. The insecticides that can be used include chlordane, Methoxychlor and Diazinon. The amounts of the chemi-

cals to use varies with the concentration of the insecticide and the crop. However, these instructions are on the label of the containers.

For best results mix one of the insecticides into the soil prior to setting out plants. For plants that are already growing spray

or dust the soil surface around the plants with one of the insecticides.

Another way to control the above-ground cutworms is to use a bait. This is prepared by adding 2 ounces (6 level tablespoons) of a 40% chlordane wettable powder to 2 1/2 quarts of bran

and mix thoroughly. Then sprinkle with a mixture containing one part of molasses and four parts of water. After you have mixed in a 1/2 pint or more of the water-molasses mixture and stirred well, you will have a crumbly mass that will form a ball when squeezed. Wear rubber

Let's talk a little about slacks with Fortrel...

Cary Middlecoff, CBS-TV's noted
golf commentator

"What makes a great slack? Styling, for one thing. Slim, trim, uncluttered appearance that enhances your form, for another. But most important is comfort. The many built in extras in Cary Middlecoff slacks assure you of that. Take Permahold® . . . absolutely prevents waist-band curl. Or "Hipstripe". It's there to keep your shirt tucked in firmly at all times. Or "Lok-Tab" . . . hidden inside adjuster tabs with pressure-sensitive Velcro® closing. And for golfers, how about the handy, sewn-in towel holder? These slacks are made of a cool, wrinkle-free, automatic wash'n wear blend of 55% Fortrel® polyester/45% Bud-Rel® rayon."

gloves when preparing and using this bait.

Apply the bait in the evening, since it is more attractive when fresh and moist. Rubber gloves should be worn when the bait is scattered by hand.

When using any pesticide, be sure to read the instructions on the label. This will tell you what crops the material can be used on, how much should be used and how it should be applied. Be careful to keep all pesticides off your skin and to avoid inhaling fumes, dusts or mists. Wash your hands and face before eating or smoking.

Open House

All of the weapons that Armed Forces Day visitors will see being manufactured and assembled at Watervliet Arsenal will also be displayed as "finished products" at the installation's May 21st Open House.

All US Army weapon systems mounting guns made at Water-

vliet will be exhibited — ranging from the 60mm mortar to the 175mm self-propelled gun, the Army's largest conventional weapon.

The display of tracked and wheeled armored might will include the main US battle tank, the M60, and the medium M48 tank, armed respectively with 105mm and 90mm guns, both

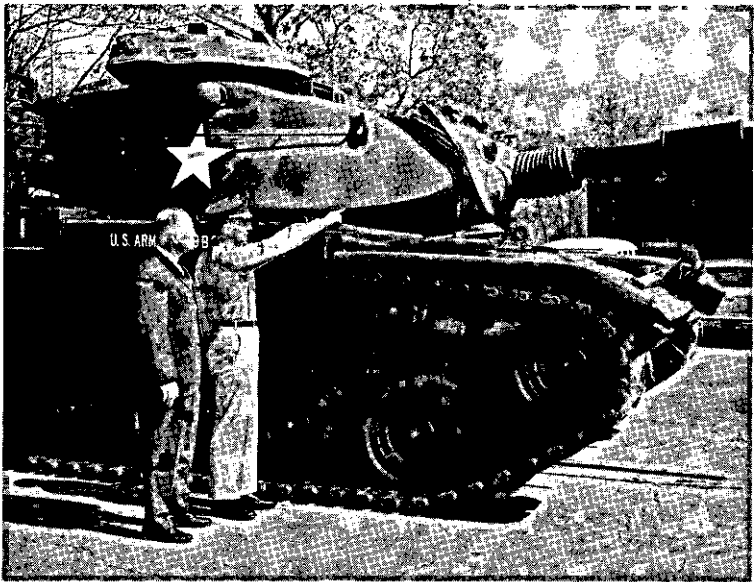

designed and developed at Watervliet.

All the Army howitzers — the huge 8-inch, the 155mm and the 105mm will be in the arsenal's "tank park" during the 10 A. M. to 4 P. M. hours of the Open House.

One of the most unusual exhi-

bits as the annual event will be a vehicle equipped with bulldozer blade and crane, and mounting the arsenal's 165mm "demolition" gun, designed for use by combat engineers to clear the way for assault troops.

Another "first" is the largest vehicle ever to be shown at an

Maj. John G. Watson, chairman of the Watervliet Arsenal Armed Forces Day Open House, points out features of the Arsenal-made 105mm gun which arms this M60 tank. With him is Helmut Haag who is in charge of special exhibits for the Open House. The M60, the Army's main battle tank, will be one of many weapon systems to be on display at the annual observance on May 21.

The Strelows are leaving behind their oldest son, Larry, so he can spend his senior year in high school at Bethlehem Central. You may remember that it was Larry who was injured in a football game last November, playing for the Bethlehem Central team. He lost a kidney as a result of the injury and isn't able to compete in interscholastic sports anymore, but otherwise is leading the normal life of an active teenager.

Larry will live next year with the family of Craig VanDecar, son of Mr. and Mrs. Charles P. VanDecar of 13 Elwood Road in Slingerlands. The other Strelow children, who will continue their schooling in Maryland, are Barbara, 12, Paul, 8, and Lori, 6.

The Strelow family has lived in Elmsmere for almost four years, and are pretty sad about leaving. Mrs. Strelow admitted to me she told her neighbors they wouldn't have to worry about filling the local swimming pool this spring, because her tears would fill it to overflowing.

It is sad to be losing such families — and this must be a prime moving time of year because I keep hearing of people who are busy packing — from our Tri-Village area. But we're glad to

This being "Insurance Women's Week," it seems an appropriate time to turn my figurative spotlight on the Delmar woman who has served as president of the Insurance Women of Albany for the past year. She's Mrs. Carlton Brown — better known as Dot or Dotty — who is vice president of the Butler and Brown Insurance Agency at 230 Delaware Avenue. She and her husband live at 3 Herber Avenue.

Dot Brown has been in the insurance business practically all her life, because the Brown family moved here in 1929 and her dad started in the business shortly thereafter. Her father retired about five years ago, (he bought a home in Florida recently and plans to live there six months of each year) and Dot and her husband, Carl, incorporated the agency 12 years ago. They have a son, Richard, 21, who graduated from Hudson Valley Community College last June and is now working with them.

Besides being president of the 55-member Insurance Women's Group this past year, Dot is treasurer of the Credit Women's Association of Albany County, president of the Bethlehem Central Alumni Association, and a member of the Bethlehem

Business Women's Club.

She puts in six days a week at the office, sews for herself and for daughter, Carol, 19, a student at the State University of Oswego, and belongs to two bridge clubs. Busy as she is, Dot Brown always has time for a pleasant chat and is certainly one of the nicest and most capable businesswomen around.

She suggested I might mention that the Insurance women are pushing a "Lock your car" campaign during this week. "So many people leave their cars unlocked, and even leave the keys in them," she said, "and this is a great temptation for youngsters." She thinks we could cut way down on this aspect of juvenile delinquency if we didn't

make it so easy for cars to be taken. A well-founded notion, I'm sure.

The Bethlehem Tennis Association is now officially organized, and membership cards are currently being mailed to everyone in the town who has shown an interest in promoting

tennis locally. This amounts to more than 300 names, which strikes me as an impressive start for any group.

At the organizational meeting held on May 4, these officers of the association were elected: President, Mr. Thomas S. Stevenson; vice president, Dr. Kimball L. Howes, secretary, Mr. Frederick R. Walsh; treasurer, Mr. Douglas J. Ferguson; and directors, Mrs. John A. Baling, Mr. Donald M. Camp, Mr. Wayne F. Fry, Dr. James E. Siggins, and Mr. Robert H. Taylor.

The tennis group will soon be circulating a list of members and a list of players. The player list will be of great use to people looking for good partners and/or opponents, so if you'd like to have your name on that list and get one yourself, you may call Mr. Ferguson, who lives at 49 Douglas Road in Delmar.

Husbands Don't Understand Wives, Says Noted Jeweler

At an exclusive interview with Frank H. Adams, a well-known jeweler in the area, some revealing insight was gained into the philosophy of "Diamond Giving". "In most cases," says Mr. Adams, "husbands fail to understand this craving for a diamond, considering it an unnecessary extravagance. Yet, these same men will indulge themselves in any number of luxuries . . . expensive hunting and golfing equipment, all manner of fishing paraphernalia, elaborate tool supplies, boats, cars . . . luxuries that are meaningless to wives and often, never used by the men. But wives are expected to 'understand'." Mr. Adams continued, "To a woman, a diamond is not a status symbol rather it is a symbol of her husband's love and respect . . . a 'thank you' for the years of devotion the wife has shown for caring for him, his children and his home." With the wisdom of experience, Mr. Adams went on: "Men give their secretaries a fat bonus for Christmas, just for tending their mail. So, why not give your wife a well-deserved bonus too — a diamond!" With a humorous wink, Mr. Adams concluded the interview prudently recommending that the gentlemen see him before it's too late.
