

A free eye-screening program will be held for all pre-schoolers in the Town of Bethlehem on April 3, 4 and 5th at the First Methodist Church, in Delmar, from 11 A.M. to 1 P.M. The Tri-Village Welcome Wagon Club for Newcomers, in connection with the Albany Association of the Blind, and the National Society for the prevention of Blindness, is sponsoring the program.

A child may have eye trouble that causes him to see a double image instead of one, or images of different sizes or shapes. This is due to the fact that one eye is not functioning properly. When he fails to get the two separate pictures to come together, he tends not to use the delinquent eye and this then becomes a habit. Thus, through non-use of the one eye, vision is gradually lost and cannot be regained. A youngster may have blurred vision or use only one eye to see, and still not complain because he has no way of knowing otherwise.

Undetected vision problems, or crossed eyes can mean permanent loss of sight in the affected eye if not treated in an early age.

The National Society for the Prevention of Blindness points out that amblyopia is almost 100% preventable. It could be conquered if parents would seek the knowledge and services that are available to them such as the literature provided by the Society, the pre-school screening programs to detect signs of amblyopia, which are being conducted all over the country, or by having eye examinations. Since the critical period of development of acute vision is between the

ages of one and seven, a child's eye should be examined before he is four years old, and treated if necessary, the earlier the better.

Children of ages 3, 4, and 5, who are not yet in school will be tested. Those children who live in Delmar, Elsmere and Slingerlands, will be screened at the Delmar Methodist Church. The children from Clarksville, who are three years old, and not included in their school testing program should come to Delmar at this time. Glenmont children will be screened by volunteers at the Glenmont Community Church on April 10, at 9 A.M.

Parents of children who show a vision problem will be notified, so that professional and corrective treatment can be implemented.

## Committee That Cares

For the past eighteen months a dedicated group of individuals have been faithfully attending the meetings of the Committee That Cares. The purpose of the committee is to serve as a morale-booster for the men from the Town of Bethlehem who are on duty with the Armed Forces in the View Nam War zone. The committee functions by sending monthly packages to the men, now twenty, on war duty. It also acts as a starter for other groups and individuals to send letters and packages of cheer to their townsmen in the Viet Nam war.

The committee had its start at Nathaniel Adams Blanchard Post American Legion No. 1040 in Delmar. From a single organization it branched out to include most of the veterans, civic, social and church groups in the Town of Bethlehem. Committee chairman is Alexander J. Woehrle.

Meetings of the group usually take place the first Thursday of the month at the Blanchard Post at seven-thirty p.m. The next session is set for April 6.

"A salute to our men in Viet Nam will be the theme of our April 6 meeting," Mr. Woehrle announced. "For the occasion we invite the parents or closest relatives to these young men who are in the war zone for their Country and us."

Anyone may attend the meeting but especially invited are the heads of the participating organizations and the husbands or wives of those organizational representatives who have been

## Plea Dropped

The St. Regis Agency Inc., center of a zoning change storm involving a vacant house in New Scotland Avenue in Albany near the Hurtsville-Karlsfeld area, has withdrawn its petition seeking to compel the Town of Bethlehem to issue a construction permit.

The surprise development came in Supreme Court where a legal battle was contemplated, arising from the St. Regis application.

The insurance company has a variance to use the former Miller home as an insurance office and apartment dwelling. Resi-

dents in the area, which is still in Bethlehem but which is scheduled for annexation to Albany, are opposed, and have a suit pending against the town which granted the variance.

Frederick R. Edmonds, representing the law firm of Garry and Cahill, informed Supreme Court Justice Louis G. Bruhn that the suit to compel issuance of the permit has been withdrawn. The law firm of Nolan and Heller, represented and proposed to intervene in behalf of the residents in the pending suit opposing the variance. Karl H. Schrade represented the town.

## Tennis Program

A "learn-to-play" tennis program for fifth, sixth, and seventh grade boys and girls, will again be conducted this year by the Bethlehem Recreation Program, in cooperation with the Bethlehem Tennis Association, on six successive Saturdays starting on April 15. Skill tests will be held and awards presented on May 27.

Registration for the program is scheduled on Saturday morning April 1, 9:00 to 12:00 at the Junior High School lobby in Delmar.

An assembly for all registrants, their parents, and others interested in this youth activity will be held at 10:00 A.M., Saturday, April 8, at the Junior High School auditorium. Following discussion of the program and the procedures to be followed, a tennis instruction movie is planned to be shown. Squad assignments will also be made at that time.

Individual and group instruction at both beginner and intermediate levels, will be provided by a staff of experienced players under the direction of Donald M. Camp, Senior High School tennis coach.

The initial program conducted last year was an outstanding success with 200 boys and girls registering for the instruction. William G. Fuller, Recreation Specialist, Bethlehem Recreation Program, assisted by various members of the Bethlehem Tennis Association, will again guide and conduct the program this year.

day evening at 8:15 P.M. on April 1. His talk is entitled, "Freud is Dead? New Methods in the Treatment of Childhood Behavior Disorders." The Public is invited.

Dr. Osmond, Director of the Bureau of Research in Neurology and Psychiatry at Princeton, N.J. will be the featured speaker at the Society's first annual dinner meeting to be held on Sunday evening, April 16, at 6:30 p.m. at the Golden Fox Restaurant in Colonie. Dr. Osmond, along with his colleague, Dr. Abram Hoffer of Saskatchewan, Canada, recently reported dramatic results with schizophrenic patients after the administration of NAD (nicotinamide adenine dinucleotide, a derivative of nicotinic acid, one of the B-complex vitamins). Dr. Osmond and Dr. Hoffer were the founders of the American Schizophrenia Foundation. Persons interested in attending the meeting may make reservations by calling Mrs. Francis Ford, dinner chairman, at ST 5-5151 or Mrs. W. P. Sullivan, President, at RO 5-2777.

Both Dr. Rimland and Dr. Osmond appose the traditionally held view that mental illness is caused by faulty environment in childhood. Dr. Rimland recently commented in a letter to the editor of the New York Times Magazine - "Parents of mentally ill children have anguish enough. To heap guilt, based on disproven, circumstantial evidence on these parents is an act of irresponsible cruelty." He was writing about New York Times Magazine article by Dr. Bruno Bettelheim, an outspoken advocate of the school which holds that it is a noxious mother-infant relationship which is at the root of childhood psychosis. Dr. Bettelheim has said (in May '66 issue of Parents Magazine), "the child's home life is the prime cause of his illness, and, therefore . . . the child must first be freed from the influence of his parents before treatment can be effective."

Early infantile autism is a rare, severe mental disorder in children, characterized by an extreme aloneness, and insistence on the preservation of sameness. The children cannot communicate normally, and manifest bizarre behavior.

# Did You Ever Think of Getting Your Easter Bonnet From A&P?

We don't sell Easter bonnets but...  
we suspect many an Easter hat  
has been paid for with money saved by shopping A&P.

Are we implying that A&P has the lowest prices  
on all items all the time?  
No!

There is no store that can make that claim.

What we are saying is:  
if you're interested in your total food bill,  
if you're looking for the best values  
for your food dollar, A&P is the store for you.

It's a little late for this year's Easter bonnet,  
but start shopping A&P this week, anyway.

It won't be long before  
somebody in the house will need a new pair of shoes.

Is this a good reason for shopping A&P? It's one of many.

## Voorheesville Board Meeting

Voorheesville Central School District teachers have received a \$300 pay increase, making the salary base \$5,700.

The school board also approved a differential between the bachelor's and the master's degree schedules at \$500, a teacher would start with a master's degree at \$6,200.

The Teachers Welfare Committee had asked for a starting salary of \$5,700 but wanted a two year schedule.

The board decided against this on the basis that it did not want to commit itself for two years with the present uncertainty of the state school aid picture.

duced substantial upward pay revisions, according to Supervising Principal William Brayden.

Under the salary schedule adopted, the board set a maximum for the holder of a bachelor's degree at \$9,150 after 13 years.

The previous maximum was \$8,600.

The top of the masters schedule is \$9,650.

The board also approved payment of \$15 per credit hour for teacher's college work with payment after six credit hours. It agreed to a sabbatical leave program for study or advanced degree work in a faculty member's field.

Criteria for the program, which will not start before the 1968-69 school year, will be formulated and approved by the board.

About 72 teachers spread throughout the scale will be affected by the raises.

In other action, the board approved a school calendar which will conform to that of other school systems' within Albany County. It will differ from Bethlehem Central School District's calendar by providing three days instead of a week of vacation in February.

Fibre glass basketball backboards will be installed to replace wooden ones at the high school since the board approved a \$500 expenditure for this installation. The old back-boards will be installed in the elementary school.

Mr. Brayden told the board

most schools have the fibre glass backboard and this puts the Voorheesville team at a disadvantage. Basketball experts contend the fibre glass boards allow more of a spin in set-up shots.

The Helderberg Workshop will receive permission to use the Voorheesville High School for its summer program August 7 to 25, with certain stipulations.

Board member S. Bowen Hawkins gained consensus from other board members that the school district should not be "out of pocket" for expenses of the use. The board delegated the administrative details of such an arrangement to Mr. Brayden.

The Helderberg Workshop personnel had agreed to pay for custodial costs of setting up the rooms and cleaning after the three week program, Mr. Brayden said.

Since about 100 children from the Voorheesville School District attend the workshop and form only about one-sixth of its enrollment, the workshop should consider rotating to other school

district in future summers. board member J. August Berger suggested.

Two new department heads in science and mathematics were named last night by the school board. They are William Savage, mathematics department chairman; and Richard Ahola, science department chairman. Both are doing graduate work in their fields at Union College.

Mr. Brayden said both departments needed coordination and someone to work with teachers on curriculum and choice and ordering of textbooks. Both the departments will have additions in staff in the fall.

Mr. Savage who holds his master's degree in mathematics has been with the district six years after two years of teaching experience in North Colonie School District. Mr. Ahola has been with the district four years and is working on a master's degree in physics and chemistry.

The board approved a request two teachers made for taking about 35 sophomores to the New York Metropolitan Museum for

Dominic Tork, board member, wanted the school district to pay the bus expenses but the rest of the board believed this unnecessary since this is not a field trip.

## Card Party And Meeting

The Women's Organization of Normanside Country Club is planning two important events. First, on Friday evening, March 31, at 8 P.M., a Court Whist pro-

gram has been planned for the couples who have been playing bridge on Friday evenings during the winter. This is an old New England Card game and is purely a "fun" game, with no special skill being involved. Those who participated in this event last year are eagerly anticipating the repeat performance, which is being planned by Mrs. Paul F. Devio and Mrs. Charles M. Loftus, co-chairmen. A buf-

fet will precede the card game and will be served from 6:30 p.m.

The ladies are also planning their annual Spring Luncheon and Business Meeting to be held at the Club house Saturday afternoon, April 8, at 1 P.M. A program is being planned by the committee headed by Mrs. William E. Tinney, assisted by Mesdames Frank J. Noone, Charles M. Loftus, and Negley W. Norton. A feature of the program will be a talk on "Color Coordination in the Home" by Mrs. Fortune McLagan, Interior Decorator for John B. Hauf, Inc.

## Awards

Merle Miller, Business Math teacher at Bethlehem Central Senior High School, announces that Bruce Beza and Eric Brisee have won awards in Bookkeeping I.

These awards were earned by taking a test published in the BUSINESS TEACHER, and completing it satisfactorily.
