

Area Fireworks Display Planned For July 4th

At 10:00 P.M. on July 4th, at the Ravena-Coeymans-Selkirk Junior-Senior High School grounds, the first Annual July 4th Fireworks Display will be sponsored by the Greater Ravena Area Lions Club. Aerial as well as ground pieces will be featured. The Interstate Fireworks Manufacturing Display Company of Springfield, Massachusetts, one of the largest manufacturers of fireworks in this country, will produce the display. It is this company that supplied the fireworks for the World's Fair and for years has presented displays at Coney Island and Palisades Park.

The July 4th program should last from 45 minutes to an hour.

There will be parking facilities at the high school site for approximately 2000 cars. Because of the amount of space available, cars will be able to enter or leave at any time. However, it will not be possible to see the display from cars. Therefore, those attending should plan to bring blankets or folding chairs, if they care to have something on which to sit.

There will be an admission charge of \$2.00 per car. No parking will be permitted on roads adjacent to the school grounds.

Those attending should plan to arrive early.

Refreshments will be on sale.

In the event of rain, the display will be held on the following night, July 5th at the same time.

Any profits realized from the program will be used by the Lions Club in carrying on its work in the field of sight conservation and in awarding scholarships to deserving graduates at RCS.

New Post

Mrs. James McGraw of Delmar, New York has accepted a request by Mrs. Joseph J. Whittlesey, chairman of "Volunteer Tie-Line," to be the co-ordinator for Albany County. Kitty Carlisle Hart, volunteer consultant to Governor Rockefeller's recently organized women's unit, announced the formation of the group which is designed to channel information about state programs on a factual, non-partisan basis.

The name "Volunteer Tie-Line" was selected to signify a quick, two way line of communication between the individual woman and her state government. The Tie-Line office is at 530 Franklin Street, Schenectady.

One of the first-projects planned for the volunteers will be to conduct a check among the women of each county to determine the kinds of information they need for a better understanding of state programs, both as they function on a state level and how they relate to local communities.

As a result, pertinent literature will be distributed by the volunteers to maintain the line of communications.

Road Hearing

Elm Avenue and Jericho Road residents voiced doubt at a public hearing recently that proposed highway reconstruction in the area would alleviate commercial traffic problems.

Daniel Ruddy, district planning engineer for the State Department of Public Works, explained plans and showed maps for the \$1.2 million reconstruction of parts of Route 9W, Elm Avenue and Jericho Road in the Town of Bethlehem.

This improvement will only generate more traffic to already inadequate roads in the Village of Selkirk as trucks travel to the

State Thruway, Garrett Geurtze of Selkirk said.

The closing of a private road at the New York Central Railroad yards has forced truck traffic to take Jericho Road, Elm Avenue, Route 9W to get to the Thruway.

John Riley of Elm Avenue whose farm would be taken for the highway construction, questioned the highway plans, noting the lack of use of the Delmar by-pass and construction on Rt. 32. This is the third time the road has been changed, he said, and maintenance on Jericho Road is inadequate.

Three men with interest in the Jericho Drive-in Theater said they objected to the highway plans because their theater driveway would be on Jericho Road, not Route 9W and their sign must not be seen from Route 9W. Mr. Ruddy promised them his design engineers would inform them whether the sign would be visible from the newly aligned Route 9W.

Others in the audience of about 45 people at the Jericho School testified that the other parts of

Route 9W were more hazardous than the section proposed for reconstruction. In long term plans, all Route 9W in Albany and Greene Counties will be widened. The design department of the DPW is working on plans for road improvement parallel to the New York Central Railroad tracks from the Thruway to Route 32, Mr. Ruddy indicated.

Final plans and recommendation for reconstruction will not be made before October, Mr. Ruddy predicted.

The Town of Bethlehem looks favorably on the proposed road construction. Supervisor Bertram E. Kohinke said DPW studies of traffic pattern of commercial and passenger vehicles show the realignment and construction will relieve some of the roads with heavy use.

"My hope is that the next extension will be from the end of this project at Route 9W so it continues through the undeveloped area to the Selkirk Interchange," Mr. Kohinke said. This would remove heavy commercial and passenger traffic pressure and give relief to Route 396 as it goes through the Village of Selkirk, he added.

Plans show that Route 9W will be rebuilt on a new location for six-tenths of a mile from the Jericho Road intersection north.

Jericho Road will be extended 300 feet east to meet relocated Route 9W. Route 9W will be rebuilt on existing alignment for seven-tenths of a mile, from south of Lasher Road to about 500 feet north of Elm Avenue.

Jericho road will be rebuilt on a new location between Long Lane and Elm Avenue. Elm Avenue would be moved on a new location between Jericho Road and Route 9W for a total length of two miles.

French Cooking in Two Easy Lessons*

- I. Arrange yourself sagely in that combined atmosphere of beauty, comfort and practicality so dear to the French heart. That is to say, in a Mayfair French kitchen, designed exclusively for you. (Alors, one can prepare superb food with equal aplomb in any Mayfair kitchen. Our specialty is having everything where one wants it, in a lovely, tranquil setting that encourages creative cooking.) There is indeed a big difference . . . a decorator, not price. Telephone HO 5-5261 and inquire.
2. Select with decision those Continental utensils which fill one with culinary confidence. (Without them, M. Escoffier—even the redoubtable Julia Child!—would hardly attempt the simplest salad or soufflé.) Step next door, through the decorated passageway, into Mayfair's Gourmet Shop. Regard its appetizing wonders. Here, a garlic press at 3.50; there, a slotted wooden spoon at 2.00. Within this clever wire basket (10.00) one washes salad greens and shakes them crispy-dry. Voici, the mincer of fresh parsley, only 1.50 and the wooden tenderizer of meats, 3.50 . . . voila, the marrow scoop at 11.00 and the whisk at 2.25. And what a wealth of truly French cookware, platters, plates, dishes and toureens!

Art Show

There's a sparkling art show in Delmar.

The Bethlehem Art Association, in its first public showing, at the Methodist Church, Kenwood Ave., has a winner.

With prize-winning artist, William Wilson as judge, the BAA has covered the walls of Fellowship Hall with color, in a wide-ranging display that runs the gamut from kinetic sculpture to academic realism.

The show is an eye-opener in the sense that it exhibits a range of interests rare in a community of this size. In no sense is it a typical suburban show. The artists are good, and they are committed to the development of their own talents in their own

individual styles.

First Prize was awarded to Margaret Foster for her painting titled #1, an intriguingly brushed acrylic, haunting and provocative.

Second Prize went to Marion Bers for her handsome mood piece, Dusk.

Honorable Mentions were given to Jefferson Daniels, Sally Weinstein and Edward Becker.

Don't miss this most satisfying show. It runs until June 30 and it's open every day, 9 to 9.

Drive-in Church

The First Methodist Church of Voorheesville will hold Drive-In Church Services at the Indian Ladder Drive-In Theater, New Scotland Road, Route 85, each Sunday morning at 9:30 beginning July 2 through September 3. This will mark the 11th consecutive year that such services have been held.

Everyone is welcome at these services; just come as you are, in your car.

In addition to the 9:30 Drive-In Service, there will be an 11:00 Worship Service at the church each Sunday throughout the summer.

N. Y. at Expo 67

Over 750,000 persons visited the New York State Pavilion at EXPO 67 in the first month since the opening on April 28, State Commerce Commissioner Ronald B. Peterson reported today.

"Visitors are exceeding by far our expectations," Commissioner Peterson said, "and we are running at or above capacity seven days per week."

The Empire State's exhibition is presented in an offbeat style. Some visitors call it avant-garde, futuristic, impressionistic, some call it too avant-garde, too futuristic, too impressionistic; everyone who sees it agrees it is distinctively different. It is unique, and as a result has attracted considerable comment - and some criticism.

It is purposely designed not to do a hard-sell of New York State. Architect-designer Felix Stephen Gula of New York City

EXPO 67 visitors enter the New York State Pavilion, which attracted more than 750,000 persons during the first month it was open. Total EXPO attendance is running 50 per cent above expectations.

has employed many modern audio-visual techniques to create a subliminal effect on the viewer.

The pavilion miniaturizes the myriad facets of the Empire State - the glitter and glamor of New York City; the quiet, rural life of its agricultural communities; its four-season vacation and recreational advantages; its position as the scientific, cultural, educational, financial, and commercial capital of the world.

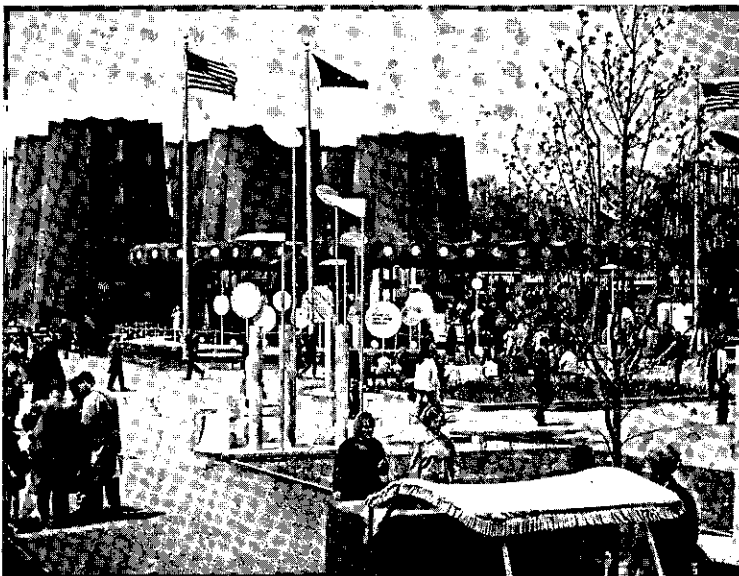

The pavilion, of blue and green canvas, and steel frame with a floating center platform, and a separate, two-story building composed of six conical towers.

First step is a ride on the carousel, which passes exhibits

depicting New York State's natural and other resources. The carousel's floating center offers a representation of urban life, with emphasis on New York City.

Inside the pavilion proper, three theaters flash rapid impressions of the Empire State's development, achievements and opportunities. This quick, kaleidoscopic treatment of sight and sound so stimulates some couples that they start dancing in the theaters.

Chic, bilingual hostesses in orange costumes and wide white hats answer visitors' questions about New York State and distribute travel and other brochures.

FLAGS of New York State and the United States wave above the New York State Pavilion at EXPO 67 in Montreal, Canada. The carousel, in front, leads to the main exhibition area in the six cone-shaped towers.

There's a secret to buying truly delicious bacon, too. Look, of course, for lean slices . . . Look, too, for bright-colored slices . . . that's a good sign of freshness. And that's important, because with bacon, when freshness fades, flavor fades.

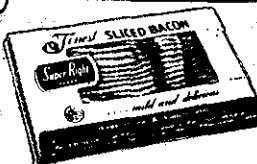

Here's something else you should know. You'll get those perfectly cured, lean, bright, select slices if you buy our Super-Right Bacon.

Super-Right regular or thick-sliced is our finest quality bacon, guaranteed to be the equal of or better than any bacon you can buy. The price? That's lean too! Guaranteed to fatten the savings on your total food bill.

the word bargain has a familiar ring to it.

One of the biggest bargains you'll find anywhere is your telephone. You can do more with it, dial more people, get them faster than ever before. And despite these improvements in service, some telephone costs have actually gone down.

More than 40% of the New York State calls you paid long distance charges on ten years ago are now local calls. And since 1940, there has been an overall decrease in long distance rates.

That's why we say that when the telephone rings, it has the ring of a bargain. A real, lasting bargain. If talk is cheap, blame it on the phone company.

LOOKING FOR A NEW CAR FOR ONLY \$1,639*?

\$1,639 is the suggested retail price at the port of entry for a Volkswagen sedan.

YOU'VE COME TO THE RIGHT AD

That's how little we charge for a Volkswagen. Of course, you don't get certain things with it. Like a drive shaft. (The engine's in the rear.) Or a radiator. (It's air-cooled.)

Also, because a VW gets about 29 MPG, you don't get a whopping bill at the end of every month. Come in and take a look. We think you'll like what you see. And also what you don't see.
