Booster Day

This year the Tri-Village Little League has a new high of 491 boys registered. This Saturday the boys will participate in the annual Booster Drive.

This is the one time in the year that the boys ask everyone's support. Adult volunteers provide most of the labor but it takes money for supplies and maintenance. With each one of the boys playing approximately 18 games, it means the fields and bats and balls will be well used.

Managers and coaches, over ninety in all, will accompany their teams Saturday morning. The boys will be calling to ask for your help so that these eight to twelve year olds will have the chance to play ball in a well maintained park with the proper equipment.

We know you will help.

of the Experiment will be most welcome at the reception,

Wear A Poppy

Town Supervisor, Bertram Kohinke, has proclaimed May 15th as Poppy Day in the Town of Bethlehem. The Auxiliary of the American Legion Blanchard Post 1040 will distribute the Memorial Poppies in various locations of the town.

The Poppy as the Memorial flower for American war dead is a tradition which began in the vears following the first World War. Veterans returning to their homes in this country remembered the wild poppies which lined the devastated battlefields of France and Flanders and the soldiers of all nations came to look upon this flower as a living symbol of their dead comrades' sacrifice. Wearing a Poppy this vear will honor the more than half million Americans that died and nearly one million wounded during both World Wars, the Korean conflict and Vietnam.

The crepe paper Poppy is the ONLY completely veteran-made Poppy in New York State. Making poppies aids the veteran both financially and psychologically. Poppy material is furnished free by State Organization of the American Legion Auxiliary and the State Organization pays the hospitalized veteran for making the poppies. In 1967 veterans of Vietnam, Korean Conflict and the two World Wars earned a total of \$24,332.69.

Poppy making goes on in seven VA and 1 State Hospital in New York State. If your Poppy isn't perfect, remember it may have been made by a blind man, a man with only one hand or a man struggling to regain his place in society. Veterans with any form of communicable disease are not permitted to make poppies.

Sturbridge Bound

78 Fifth graders at Hamagrael School wanted to take an educational trip to Sturbridge Village. They wanted this so much that all their talents and resources were pooled to provide buses and entrance fees for the trip. The result was a gala, spirited musical show "This Land Is My Land" presented on April 30 in two performances (4 P.M. and 8 P.M.).

In an action-packed hour, en-

thusiastic audiences listened folk songs of the wild west, sa small legendary tales enacted b gun-toting cowboys, tough mus cled railroad workers, bearde goldpanners, Eight can-can dar cers entertained both the aud ence and card sharks at Sami Baloon as patrons gulped dow mushroom chow mein or licke orange pop-sickles.

Out on the wide prairie a cir cus troup overtook the wago train. The result, a shared en tertainment with four dancing elephants, four golden tumblers square dancers kicking up thei heels to "Duck for the Oyster and music, music, music. When seventy-eight enthusiastic young people decide to entertain the public, they do just that!

Under the guidance of Mrs Muriel Heicklen, the play was written by David Fallon, David Quinn, Laurie Vigne, Tim Fos ter, Mary Jane O'Malley, Nei Cornwell, Tom Klim, Susan Kin nard, Joyce Anderson, Paul Hernandez, Suzanne Baruch Barbara Moreen, Janice Reis sig, Merry Field, Laurie Pottle and James McGuire.

Mrs. Heicklen directed the actng and the many specialty numbers. Miss Sammie Ives and Rudi Alec worked with students on staging effects. Set designs were by James Harder, David Fallon, Fred Carroll, Janice Reissig and by James Harder, David Fallon, David Cassidy. At one point in the musical, a 20 foot engine and caboose traveled across the stage. Other sets included a wa-gon train and the gay interior of Sam's Baloon.

Roger Mielnik aided by Merry Field handled curtains. David Cassidy and James Harder were the scene changers. Lighting effects came under the direction of David Dutil, Fred Carroll, Jeff Allen and Chris Jacobsen.

With Mr. Joseph at the piano, the soloists Edythe Roberts and Bradley Plummer sang with all the assurance of experienced entertainers while Clay Hendricks accompanied himself on the guitar.

On May 15, 78 fifth graders, 8 parents and 3 teachers will travel to Sturbridge. Nearly 800 people (two audiences) enjoyed themselves while they made this

dream become a reality. "This Land Is My Land" has made it possible for Hamagrael "studentactors" to learn more about their country's story.

LETTER

potlight Delmar, New York

pen Letter to all Volunteer Fire Departments in Bethlchem and Surrounding Areas:

I want to take this moment o comment on the fine job these ire departments in our area are loing for the community.

I am proud to be a member of community whose firemen take an active interest in the people bout them.

I recently attended an Easter egg hunt sponsored by the Slingerlands Fire Department. I was very impressed by the planning and work that went into this venture.

I also would like to mention the Delmar Fire Department's tarnival, The Punkintown Fair, and the Onesquethaw Fire Department's carnival as being an integral part of this community's social life. Every year when I was a young boy I looked forward to going to these events. Now that I have three boys of my own I am glad that they can enjoy these traditional activities also.

With these examples of community spirit in mind, along with the many hours spent toward the fireman's regular duties, I feel we residents should support our fire departments whole-hearted-

I believe the people in this area can indeed boast of having a determined, loyal group of men in their fire department.

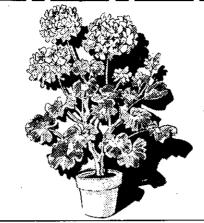

Sincerely, Peter W. Jones, Jr.

Report

It was announced today by Dr. Richard B. Bean, Hospital Director at the Albany V.A. Hospital, that Dr. Joseph J. Adelman, Clinical Psychologist at the hospital, reported on his research study involving psychiatric patients at the Eastern Psychological Association 39th Annual Meeting held in Washington, D.C. last week. Dr. Adelman reported on his findings regarding the influence of the staff on patient attitudes and behavior. He found that patient changes in attitudes toward mental illness paralleled staff changes in attitudes. His study revealed that patients who

At Convention

The Bethlehem Central Senor High School Chapter of Future Business Leaders of America returned from the Annual New York State Convention with the trophy for Best Chapter Exhibit. The two-day convention was held April 26-27 at the Schine Ten Eyck in Albany, Approximately 250 high school and college representatives from the 23 high school FBLA and 9 college Phi Beta Lambda chapters were present to participate in the numerous contests and activities. Bethlehem Central's exhibit, for which the first place trophy was awarded, carried out the theme of the year of Snoopy and his dog house. Gail Potter and Ruth Johnson were the artists who drew Snoopy and constructed his house. They were assisted by Carol Filkins, Ann Veino, Mary Pike, Lorraine Buess, and Valerie Verardi. Pictures and artifacts, covering the year's activities, were arranged to complete the display.

Rita Spinosa, a BCHS junior, was elected State FBLA treasurer in the voting on Saturday morning. Rita was nominated by Laura Leslie during the general session on Friday.

Other awards received by Bethlehem Central Students were: Kristy Pedersen, first in Public Speaking; Susan Totten, first in Spelling and Vocabulary and Miss Future Business Leader; and Melody Stoesser, second as Miss Future Business Leader. The Bethlehem Central team also won the second place in the Parliamentary Procedure contest. The team, headed by Melody Stoesser, consisted of Terry Kinns, Linda Shaw, Bobbie Heilpern, and Debby Vanderbilt.

Mrs. Mary Elliott, FBLA advisor, and Mrs. Gladys V. Hosey, Department Chairman, accompanied the twenty-seven students who attended the meetings, the Friday night banquet, and the Saturday luncheon. At the Sa-

and four stories at rear.

After a 45-minute presentation by Mr. Strong, the board varied from its usual hearing procedure and allowed time for Mr. Strong to entertain questions before asking the audience to speak for or against the proposal.

Questions directed at Mr. Strong were primarily concerned with traffic, drainage and parking.

George Abele, owner of an abandoned schoolhouse across the street from the proposed site asked if any storm water would be drained to his property. Mr. Strong replied in the negative.

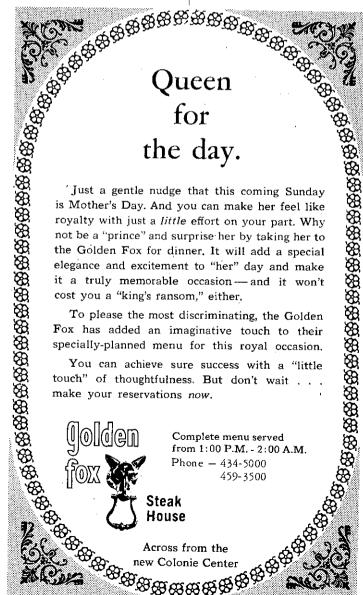

Lawrence Jones of 18 Mason

Road, Elsmere asked about the traffic which would be leaving and entering the apartment grounds. Mr. Strong said no more than 60 per cent of the traffic from the site would exit via Delaware Avenue, explaining that the remaining autos would exit via Grant Street to Delaware Ave.

Actually with the fireplace, large windows and general atmosphere, it is a cozy room well suited for such activities.

New shelving will divide the old community room, putting the staff, who fondly pretend the back of the room is an office, at least behind the scene. This will mean the new book section can be moved in there freeing space badly needed in the old stacks.

If you can't quite picture this, don't worry. You will soon be able to find what you seek more easily and that is the whole idea.

Busy Year

The five volunteer Fire De-

partments in the Town of Bethlehem report a total of 257 fire calls and 6,646 man hours on fires in 1967.

The Fire Department spent a total of 12,246 man hours on training.

The Delmar Ambulance had 419 calls and the Slingeralnds Rescue Squad had 8 emergencies.

Table Talk

The topic for Table Talk this week is "Your Vegetable Garden" to be presented by Mr. Joseph E. Huth, Albany County Extension agriculture agent. Mrs. Eleanor J. Wages, Table Talk hostess, reminds viewers that this program can be seen on Wednesday, May 15, at 7:30 a.m. on WAST, Channel 13 and on Wednesday,

May 22 at 4:30 p.m. on WMHT, Channel 17.

Mr. Huth will discuss the preparation of soil, fertilizer requirements and proper spacing of many garden vegetables. Tips will be given on selecting seeds and plants with special emphasis given to selecting tomato plants considering the various varieties available. Insect and weed control will also be highlighted enabling the home gardener to properly select and use pesticides and herbicides.

A Cornell Extension bulletin entitled "The Home Vegetable Garden" will be made available to viewers.

Table Talk is a weekly television program presented by the Home Economics Division of Cooperative Extension in area counties.

Meeting

The Auxiliary of the Elsmere Fire Co. A., Inc. will meet on Thursday evening (tonight) May 9, at 8 P.M.

You Are Needed!

The Volunteer Bureau of Albany is cooperating with local social service agencies in recruiting high school and college students for volunteer summer jobs. With youth today showing an increasing awareness of their responsibilities to their community both their special skills and their enthusiasm are being utilized in volunteer work.

Experience has shown these young people to be of real service, whether working in groups or individually. Even those as young as fourteen to sixteen years benefit from the work experience and leadership training — at the same time giving concientious service to the community. Generally, students will be needed as camp counselors, office workers, hospital aides and arts and crafts assistants. Time devoted can be as little as half a day a week.

Interested students are invited to stop in at The Volunteer Bur-

Gift

Dr. George D. Messinger, President of the Albany Symphony Orchestra, has today announced that the Symphony has received a gift of \$5000 from a national foundation.

The letter accompanying the gift expressed its purpose as follows: "While this is a "nostrings' gift, intended as an expression of confidence in the future of the Orchestra, it is also given in special recognition of the educational program and the effort to make the Orchestra a truly regional one."

Although Dr. Wessinger was not at liberty to give the name of the foundation, he said that it was regarded as significant as well as gratifying that the Albany Symphony's efforts in these fields were now gaining such recognition outside our immediate area.

Promotion

Conservation Commissioner R. Stewart Kilborne today announced a key promotion in the Department's Division of Fish and Game. William G. Bentley, a 45year old, career employee, becomes Assistant Director of the Division, effectively immediately.

In his new post, Mr. Bentley, succeeds Albert G. Hall. Mr. Hall previously named Director. following Dr. E. L. Cheatum's leaving to head the new insti-

in fisheries research and as an assistant at the Department's Ithaca Game Farm. He served in several regional posts before being appointed Chief of the Bureau of Fish in 1965, a post he held until now.

A native of Jamestown, Mr. Bentley now makes his home in Voorheesville with his wife, Audrev and their three sons. The eldest William, Jr., 20, is an engineering junior at Cornell. Bruce, 18, is a freshman at Cortland and Timothy, 12, attends the Voorheesville School.

The new Assistant Director is also a lieutenant colonel in the Army Reserves. He served in the artillery during World War II, entering the Army as a private and leaving active service as a captain.

Locals Win

Hometown horses and hometown drivers are making frequent trips to the winner's circle these nights at Saratoga as the 1968 harness racing season nears completion of its third week.

Owners from southern Saratoga County visited the circle most often, with those from the northern part of the county next in line. For individual honors. the village of Schagticoke in Rensselaer County tops them

Donna Pence and Old Timer, both owned by Donald H. and Rose A. Weir of Schagticoke, and driven by Mr. Weir, were winners during the first week. and Gold A Plenty, owned in part by R. B. Ward of Schagticoke, also scored a victory.

Southern Saratoga County owners living in Halfmoon, Jonesville, Waterford, and Cohoes saw their horses win, led by Frank Jevons of Cohoes, whose Colonie Prince and Colonie Boy each came home first. Brutus, twice a winner in the hands of Howard Parker, is owned by the Halfmoon Stables of Halfmoon, Runnymede June, driven to victory by Frank Coons, is the property of Frank and Ilah Coons of Waterford, while Wayne R. Dyer of Jonesville owns a half-interest in Herman The Pro, reined to a pair of wins by Jimmy Richards.

Dangers of old Water

The hazards of prolonged imrsion in cold water were stresstoday by the American Red ross, as it warned early spring ers, fishermen, and people aying along the shores of northn waters to exercise extra preutions to avoid "falling in" ac-

In many areas of the country, vers, lakes, and ocean waters Ill not warm up from winter's fects until June, Carl Gardner, nairman of Water Safety for the lbany Area Chapter, American ed Cross, said today.

"More fishermen drown in May an in any other month," he deared, "Probably many of the eaths are due to their inability save themselves because of e cold water. Fatal cooling is ore apt to occur in water than air, because wetting rapidly ecreases the insulating effect clothing. Body heat loss in cold ater occurs at 2 to 4 times the te observed in air at the same mperature:

"Even expert swimmers can rown if they are immersed in eary-icy water long enough to se the capacity to move their rms and legs."

As a general rule, the Red ross advises boatmen to stay ith their capsized craft. But

there are exceptions, and the victim of a boating accident must use his judgement as to whether circumstances - excessively cold water, or priximity to falls or rapids, for example - justify his swimming away from it. Gardner said.

A person who frequently engages in water sports should expect to find himself accidentally in the water on some occasion, Mr. Gardner said, adding that more than 60 per cent of the approximately 7,000 persons who drown in the United States each year had no intention of getting

"If you suddenly find yourself in cold water, do not try to remove your clothing. Everything, including clothing, weighs less under water," he said, "The clothing will help you retain body heat by reducing water flow over the body surface, and can also hold and trap air which will add to your natural bouyancy."

It is imperative, he continued, to get out of cold water as fast as you can even if it means swimming away from your overturned or swamped boat to the nearest point of safety, although this violates the general rule about staying with your craft in case of a

"In cold water," Mr. Gardner explained, "staying with your boat can be fatal, if rescue is delayed. When it is necessary to swim with clothes on, all movement of arms and legs should be under water. Swim with, or at right angles to, the current for the nearest landing.

"When swimming in rapids, it is generally best to go down

The Albany Red Cross Chaptelisted the following precaution which Gardner said were not no cessarily in order of importance since violation of any one might rigger an accident or shorted the survival immersion time:

- 1. Use the proper craft an equipment for existing condition of wind and water.
- 2. Do not overpower or ove load your boat, and keep a weight as low as possible in it.
- 3. Keep the interior of the boa free of water, especially in roug weather. The center of gravit of any water in the bottom of the boat will shift when the boat in heeled and may seriously decrease a boat's stability.
- 4. Small craft should use the buddy system. It is advantage ous to have a second craft nearb to assist you is case of accident.
- 5. Check weather reports be fore using small boats in expose areas.
- 6. Know how to handle you craft. This should include a work ing understanding of everything that affects the stability of the vessel, such as location of it center of gravity and center of bouyancy. Team work is essential in paddling canoes or sailing small boats to prevent dangerous changes in the balance and trin of the craft.
- Know how to take care of yourself in the water. Swimmer are less likely to panic in case of upset.
- Wear a vest type life pre server while boating under ad verse conditions. Weak swimmers

A barn, a hallway or a mansion.

In the hands of a Mayfair interior designer, an exasperating old barn of a house becomes a handsome, comfortable home. A problem hallway becomes a graceful prelude to elegance. A great house casts off its inhibitions and blends the priceless heritage of the past with the excitement of tomorrow. It takes a creative artist, of sound experience and broad horizons, to work such minor miracles for you. Such a person is the Mayfair designer. You can trust him to endow your home - or any part of it with a true expression of your innermost dreams of beauty.

vigorous, bushy plants growing about 2½ feet high. As they grow in your mind's eye, add many strong, sturdy flower stems, each one topped with several buds that open, one after another, into 5 to 6-inchwide, many petalled, cherryrose blooms.

Get the picture? Now just transplant it and see it in your garden this coming summer. You can point out Wild Cherry as a super variety for it has won a silver medal in the All-American Selections trials.

This means it has turned in a fine performance in all of the 35 trial grounds which are strategically placed among the many climates in the United States, Canada, Mexico, Bermuda and Hawaii.

Like all zinnias, Wild Cherry performs best when seeds are sown where plants are to bloom. This should be in a sunny place in your garden.

Sow the seeds sparsely. If some come up too close together, try to transplant those that are crowded, leaving the unmoved seedlings 18 inches apart. Don't waste a single plant for the seeds are in short supply this first year of introduction. For this reason be sure to buy them early.

Green Thumb Tips

Prime occupation of gardeners during the winter months is the perusal of garden catalogs. There are so many possibilities among seeds and plants that a clipboard with paper attached should be alongside the catalogs to help the gardener plan before he buys.

If you didn't plant seeds of spinach last fall, and if your family likes this vegetable, plan to plant as soon as the soil is workable.

There is no need for exten-

sive preparation. Just loosen the top few inches of soil, mark a row and drop in the seeds. When seedlings have several leaves, thin them so those left are 6 inches apart.

The reason for planting spinach early is that when days lengthen to over 13 hours of light the plants form seed stalks as soon as they come up, so there are few leaves to harvest.

Depending on the ambition (and the experience) of the gardener, the color scheme in the flower garden can be simple, with perhaps one color predominating and two others used in varying but smaller amounts, or it can be elaborate, using many colors.

Selling maintenance insurance on electric heat is a tough way to make a living.

Barking dogs and slammed doors are two of the things that make life hard for a salesman. Room-to-room electric heat is another

With electric heat there's just no market for insurance. People don't worry about major breakdowns or major bills. They don't have a bunch of minor repairs. Or service calls. They just have simple baseboard units or heating cable hidden in the ceiling. The only moving part is in the thermostat. And when did you last hear of somebody insuring a thermostat?

With other heating systems you either invest in some sort of service policy or you live with the idea of big, sudden expenses. Cold days without heat. Constant service charges.

Instead of buying headaches like that, buy electric heat.

It does cost a little more. But like most things that cost more, it's worth more.

When you buy electric heat for a new home, old home or added room, you don't buy aggravation and inconvenience. So it figures...

You don't pay for electric heat with headaches.

The hardest color scheme to plan and carry out is one using all pastel shades. This takes an expert to execute.

The earliest corn to mature has been, for the last 25 years, the hybrid variety North Star. Now there's a new, just-as-early and tastier variety to supercede it. Spring Gold is its name. Days to maturity are the same — 67.

Excess moisture in the soil is a common cause of seeds failing to sprout. They rot in the ground instead. For this reason plant where drainage is excellent if you plant early.

Do you know that there is a bi-color corn with some kernels yellow and some white?

One variety is named Butter and Sugar; is of super eating quality. Just think how this corn will confuse your neighbors!

Failures with zinnias, one of the easiest flowers to grow, are almost always due to sowing the seeds too early.

Zinnia seeds rot when soil is cool and damp. Wait until soil is warm, then sow the seeds where the flowers are to bloom, thinning later and transplanting the thinned plants if you wish.

Stuffing children with vitamins is easy — just grow a few plants of the small-fruited tomatoes: Red Cherry, Red Pear, Yellow Pear, Yellow Plum. The youngsters simply cannot resist popping the little fruits in their mouths and down go the vitamins.

Those dome-shaped paper caps or their larger sized counterparts are the perfect covers for seeds of early crops.

A pinch of cabbage seeds scattered over an area small enough to be covered by 1 cap, then covered, will produce transplanting-size seedlings promptly.

Set a cap over each plan after transplanting and hurr the crop along.

If you had a planting of sweet alyssum in your garde last year, gently remove the browned skeletons of last year plants and don't disturb the so underneath.

Chances are excellent that this annual has self-seeded and that soon innumerable seedling will sprout to bloom in the same place.

Cheery Colors

Cheery colors and dainty form make double-flowered California poppies desirable for gardens.

Certainly one of the gayest flowers for any garden is the California poppy. There are both single and double forms and the older limitations of color to yellow and orange have long since been outgrown.

Indeed, such a color mixture as Mission Bells makes one wonder how such diverse colors can have been bred from just two.

Since most gardeners are familiar with the single-flowered form, the double is illustrated. It has the same dainty, fern-like foliage but the many petals make its appearance more imposing

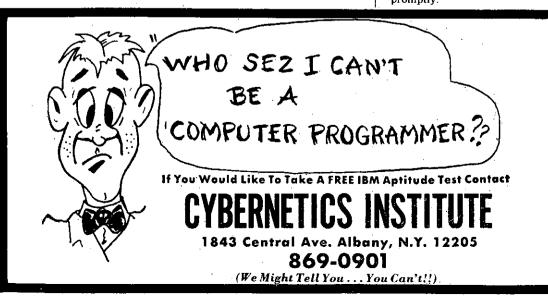

posing.

California poppies grow quickly and easily from seeds sown early in the growing season where they are to bloom. They are really perennials but are treated, in gardens, as hardy annuals.

They will stand considerable cold, sometimes self-sow even in the Northern states, and, if plants are protected in autumn from freezing winter weather, they often will grow again the second spring

second spring.

Seeds are available in mixtures of single-flowered forms, like that called Sunset, in semidouble forms like Monarch or Mission Bells, already mentioned, and also in double form, though almost always a few semi-double flowers will be found in plants grown from a mixture labeled "double".

yoming Mountains e Magnificent

Like to feed an elk ... snap a cture of a rare trumpeter van ... touch a glacier? It's I possible in Grand Teton Nanal Park, in Wyoming.

The magnificent Teton Range ses spectacularly more than he mile straight up from the bor of Jackson Hole, a high ountain valley about 50 iles long, bisected by the viftly flowing Snake River.

No foothills mask the majesof the Grand Teton, Mt. foran, Teewinot and the other eaks that make up the range rst seen by the mountain-men ho trapped for fur in the early 200's

Float trips down the Snake nd pack trips into such areas s Lake Solitude in the Tetons wait the more adventuresome. The town of Jackson, at the puthern entrance to Grand Teon National Park, is a typical estern "cow-town" and still as its board sidewalks.

Near the town, visitors can ctually feed part of the largest ingle elk herd in the world 8,000 to 10,000 head) at the lational Elk Refuge.

On the south side of U.S. 287, wo miles west of Buffalo Fork unction, Shiras moose may be potted near the ponds and meaows. The rare trumpeter swan, and hill crane, sage grouse, anada goose and a great many ther birds inhabit the area.

You'll find 12 glaciers in frand Teton National Park. Ind the Tetons boast one of the reatest varieties of glaciated anyons in the world. They ange from colossal clefts like foran, Leigh, Cascade, and beath Canyons to curious little anging gulches and shallow lacial troughs on the flanks of founts St. John, Teewinot and foran.

PERCHED for picture-taking, this visitor to Wyoming films a portion of Jackson Hole, one of the largest enclosed valleys in the Rocky Mts.

One of the favorite picturesnapping attractions in the area is located at the Jackson Lake Lodge from the end of June through mid-September. The Laubin Ancient Indian Dances are outstanding presentations of the true character and spirit of the American Indian's dances before the arrival of the white man. The dance concerts are held every Friday evening.

A short distance from Jackson is the multi-million dollar vacation ski complex, Teton Village, which is open to visitors in the summer for golf, riding, and a mountain climbing school. A 2½-mile Aerial Tramway takes 63 passengers at a time to the top of 10,446-foot Rendezvous Peak. A breathtaking view of the entire valley spreads out before the picture-taker.

Grand Teton National Park offers something for everyone: look at the scenery, ride or walk through its 200 miles of trails, boat on its placid lakes, fish in its wild streams, climb to its rugged summits, and snap pictures to your heart's delight.

Approximately 47 percent of the total land area in New York State is in forests. Over the past 35 years, forest land area has been steadily increasing.

TO THOSE WHO

THINK FEEL AND CARE

ENOUGH

Having a problem with gift-selection for Mother's Day? A good rule to follow is to pick out something a bit more expensive than Mother would usually buy for herself — but not. of course, too costly for your own means. The next rule is to exercise thoughtfulness in your selection. If

you buy flowers - be sure they are the kind she really likes. Also, be sure there isn't something else she might value more highly.

One suggestion which meets those qualifications is several pairs of modern support hosiery. If you choose the Fling kind - you know, the kind that "nobody knows until the wind blows," you may be picking out a gift just a bit more costly than Mother would buy for herself, and you'll please her enormously.

And — mother will benefit in other ways from support hosiery. If she is on her feet a great deal, as most mothers are, they'll do much to prevent fatigue. Fling hosiery is very sheer, and is extremely comfortable to wear because it is scientifically engineered, under a patented process, to provide even, massaging support to the entire leg.

Most people are not aware of

two basic facts concerning modern support hosiery. They are not designed for therapy of serious circulatory problems. On the other hand, they

are marvelously effective in

warding off that feeling of tiredness which comes from spending too much time on the

Whatever you get for mother this Mother's Day, why not select some sort of gift which:

1. Goes on giving to her. 2. Is a little more expensive than she'd buy.

3. Demonstrates your thoughtfulness of her.

And - whatever you get her. don't send it, or mail it; if at all possible bring it to her yourself. You are the gift she wants most of all.

TECHNICIANS

No Experience Required

Becoming a technician in many businesses is very difficult if you do not have college training or related experience.

General Electric's new Polymer Products operation will give you this chance if you have the aptitude for technical work.

This is an opportunity for technically oriented high school graduates to start a new career as a technician in the rapidly growing plastics industry. Extensive on-job training and college level courses in plant or through fuition refund on campus will prepare you for further advancement.
