Back in the "good old days," the renowned Alexander Woolcott came on the air and told stories every Sunday night. In many families three generations would sit entranced. One of the favorites was "The Country Doctor." He might well have been talking about our own recently deceased Dr. Harold R. Browne.

For nearly fifty years, Dr. Browne ministered to the old and young of our town twenty-four hours a day, seven days a week. Days off were unknown to this man, except that every year, late in August, he would take time off to visit his beloved Maine coast.

He was always on call. No matter what the emergency, when he came in and took off his fedora (carefully placing it right-side up on some handy piece of furniture), you knew that everything would be all right. This careful placing of the hat was almost a tradition, as was the ever-present cigar.

His diagnostic skill was uncanny, as was his ability to take charge of the situation quickly and effectively when minutes might mean the difference between life and death. Many an area resident is alive today due to his skill and prompt action. Horrible hunting accidents, automobile mishaps, hands mutilated in power machines; these he took in stride.

His great interest in plastic surgery came about quite by accident. A local man had his jaw badly smashed by the kick of a horse. From an old football helmet, Dr. Browne made a harness to hold the bones firmly in place until they had time to mend. As his interest in plastic surgery grew, he turned his practice over to young Dr. Jack Weaver for a period of six months while he studied in New York City with Dr. Clarence Stratts at Grasslands Hospital.

When he returned to the Tri-Village area, he had to make one of the biggest and most important decisions of his life: Should he now specialize in plastic surgery or should he return to his general practice and the many patients who depended upon him from day to day? He wisely decided to do both. He returned to his general practice but reserved a small part of each day for his second love: surgery.

His well-appointed office became a gathering place for many different kinds of people. There were the young doctors who came to observe and learn his skills for he was an excellent teacher. During this time he developed a practice machine which was later used all over the world in the lifting of healthy skin from the body and grafting it to an injured part. In his spare time, he loved to make doll houses, pipe racks, luggage

stands and other items and give them to friends and patients. Many a Christmas morning was brightened by one of these lovely gifts.

Dr. Browne was an extremely gentle man until he discovered someone who sought him out from self pity or an imagined illness. Then he turned both gruff and tough, "There's nothing the matter with you except from the neck up!!" His anonymous gifts to help young men through college or financial aid to a worthy cause were legion.

Finally, we can say of Dr. Harold R. Browne: HE RENDERED GREAT AND GOOD SERVICE TO THREE GENERATIONS; HE IS SORELY MISSED BUT WILL LONG BE REMEMBERED.

Some of these students live in your area and the school is hoping it can help them find work.

Open Letter

Recently more than 50 individuals in this community have expressed strong opposition in writing to the use of Bethlehem Central High School facilities for an informational program on the Black Panther Party planned by the Club, a student organization at the school. Numerous other residents have telephoned their objections to several school officials who have relayed them to me.

It is my opinion that much of this opposition is due to a misunderstanding by the public of the Club's reason for presenting their proposed program. As I understand it, their purpose is to provide educational information about the Black Panthers on the basis of which anyone attending the program is free to draw his own conclusions about that organization. There is no intention on the part of the Club to take a stand either for or against the Black Panthers or their tactics.

The fact remains that a large segment of the public has expressed the belief that a tax-supported institution is not the place for presenting a program about an organization many of whose members have advocated violence as a means of achieving their ends.

For this reason, as Principal of the High School, I have denied permission to the Club to hold their program at the High School. They are free to seek another location if they wish to do so.

Dear Sir:

I would like to take this means of congratulating those instrumental in developing The Delmar Clinical Laboratory which provides a wide variety of tests and diagnostic services. If they are not equipped for a specific test, a special messenger takes it to Albany Medical Center.

The technicians and secretaries are all efficient, courteous and exceptionally kind, even making a house call during bad weather. The convenience of easy parking and very prompt service is another great asset.

As the annual show at the Coliseum has been cancelled this year, the alternate trip to the Gramercy Park exhibition was planned instead.

The bus will leave from the Thompson Lake Church Hall. which is located about two miles beyond Thacher Park on Route 157, early in the morning and return the same evening.

Price is a very reasonable seven dollars, round trip.

WITH THE GIRL SCOUTS

Taking international diplomacy into their own hands, members of Junior Girl Scout Troop #273 of Elsmere have a personal emissary stationed in Sweden this Spring. Elizabeth (Libby) Johnson, accompanying her parents, Dr. and Mrs. Mauritz Johnson and her fifteen-year-old sister. Linnea, left in February for a five-month stay abroad. In her luggage were tucked 22 packets of "Peanuts" stickers - tokens of friendship from her troopmates to Swedish youngsters whom Libby will encounter during her visit. Troop #273 chose the stickers as being something "typically American," fun to use, and easy to pack. The Scouts presented them to Libby at her pre-departure meeting with the troop, and instructed her to report back this summer when her diplomatic mission is completed.

Mrs. Johnson who has been As-

sistant Leader of Troop #273 since its inception, was presented with a gold pin in appreciation of her work with the troop. Dr. Johnson, a professor in the Education Department at SUNY, will spend a major portion of the five months abroad in study and research at the University of Goteberg Pedagogical Institute. Libby and Linnea are attending Swedish schools until the end of the term in May. The family will also visit relatives in Sweden, and hope to visit Denmark and Italy before returning to Elsmere.

Members of Troop #273 include Cathy Scinto, Kim Lewis, Tracy Risko, Penny Ellis, Barbara Howell, Beth O'Leary, Margaret Miller, Susan Young, Cindy Cohn, Jennifer Soper, Joanne Fiato, Lisa Davis, Karen Farwell, Joanne Zator, Lisa Schnurr, Shelly Stroud, Beth Bullock, Eileen Poh-Isander, Helene Mann, Lori Mitchell, Nancy Root and Cathy Schrea. Mrs. Edward Howell is Troop Leader.

"Take Mother out of the kitchen," Elsmere Junior Girl Scout Troop #260 arranged a delicious spaghetti dinner for mothers at the Delmar Reformed Church on March 3. Honored guests were greeted at the door by hostesses Suzanne Reed, Teresa Ravita, Maureen Fitzsimmons, Cindy Brown and Susan Matterson. When the excitement of seeing old friends quieted down, Susan Waugh, Carolyn Strasser, Marianne Sciartelli, and Jennifer Wensley presented the opening Flag Ceremony.

After Troop Leader Mrs. George Zautner welcomed the gathering, Heather Leslie sang an especially lovely grace, and the Church Senior Youth Group served spaghetti cooked to perfection to a hungry crowd. As an entertainment treat after dinner. Susan Friedman presented members of Sister Troop #273 in two plays, "Queen With a Broken Heart," and "Book Magic."

A special feature of the evening was the Candle Lighting Ceremony, after which every member of the troop received her troop crest, "Star of Bethlehem," along with other badges she had earned. The candles were held by Lisa O'Keefe, Susan Hungerford, Donna Warren, Monika Strauss, Mary Crowder, Debbie Zautner, Lori Webster, Tracie Lewis, Beth Burkhard and Mary Burke.

Mrs. Bertie Reed, Assistant Leader, formed the closing circle and led the girls in "Taps."

It may be that you can write the kind of interesting story you think Spotlight readers would enjoy. If so, send your manuscript to: The Spotlight, 154 Delaware Ave., Delmar. Be sure to enclose a stamped, self-addressed envelope if you want it returned to you if it is not used. ers is expected to jump from 3.9 million in 1968 to 6.35 million in 1980. Demand will be spurred by increasing coverage under health insurance plans, by the rising scope of medical services, and by population increases, particularly among elderly persons and other groups requiring the most medical care.

"Despite burgeoning needs for manpower," the article reports, "the acute shortage of health specialists is likely to moderate during the 1970's. Already there is some improvement in the situation at least in hospitals."

Two movies will be shown dealing with the open classroom. The open classroom is one of the most discussed and fascinating ideas in education today. Practiced with apparent success in onethird of the "infant schools" in Great Britain, it has been the subject of vigorous experimentation in independent schools and has now gained nationwide attention in public schools as well, with the largest venture currently underway in the schools of North Dakota. Public school interest has probably nowhere except North Dakota, been more forcefully expressed than in New York State by Commissioner Ewald B. Nyquist, President of the University of the state of New York and Commissioner of Education.

QUESTION: In regard to the decision of the board to have Good Friday used as a make-up school date, are we going beyond the state requirement for number of school days per year? Is it really necessary for all schools in the district to make up one day?

ANSWER: There seems to be a lot of confusion on this subject, so we hope to explain it clearly here:

The state requires 180 days of school per year. Our Calendar Committee scheduled 183 days for this school year, but one of those days was planned and used for the Teachers' Workshop last fall. This left two extra days on the schedule, beyond the 180-day requirement.

All Bethlehem schools were closed, however, on three separate dates — due to bad weather. This is why all our schools need to make up at least one day to reach the 180 total.

The make-up date has not been scheduled for any other reasons than weather cancellations. Instruction time has been lost for other reasons, such as the teachers' strike day in September and the recent bomb threat incidents at the High School. We have met the legal requirements for state aid on these days, however, because attendance was taken and classes were in session for the equivalent of one period.

If we didn't schedule a make-up date and remained at the 179-day total, we would stand to lose about \$16,000 in state aid.

The Board of Education feels that making up one day is the very least our school district should do, in terms of actual instruction time lost. Plans are now being developed for scheduling extra class time for High School pupils, who have missed so much instruction lately. Principal Helen Hobbie will make an announcement about this at a later time.

QUESTION: Isn't Bethlehem Central High School accredited by the Middle States Accrediting Association? I would think this would

be a very important rating factor in terms of our reputation among colleges selecting our pupils for admission.

ANSWER: No, Bethlehem Central is not and never has been accredited, because we have never engaged the Middle States Accrediting Association for an evaluation. This is not significant in terms of our reputation, however, because the main value of the accreditation procedure is for self-evaluation purposes. Our reputation for high educational standards is excellent and widespread.

The Board of Education did recently propose to the High School faculty that the Middle States Accrediting Association be engaged, so that we could perhaps benefit from the evaluation procedure. The High School faculty voted against instituting formal accreditation proceedings at this time, because it already has committees studying and evaluating various aspects of the High School program and the faculty believed these proceedings would duplicate and interfere with much of the study already in progress.

Big Increase

The Bank increased mortgage loans by \$8.5 million during 1970. This volume was the second largest in National Commercial's history and showed a pattern of continuing growth. The Bank has the largest commercial bank loan portfolio, in dollars, in the Capital District.

"Of prime interest in the portfolio," John J. McCormick, Jr., vice president in charge of mortgages said recently, "is that growth was maintained during a year when many banks were cutting down on mortgage loans."

"At year end over 47% of The Bank's assets was devoted to loans," the bank official said. "Almost one third of this is in mortgages alone. In terms of support of residential housing, we are doing better than ever before. To devote such a substantial percentage of our total assets to loans adds up to a positive interest in the public."

The dollar volume in loans during 1970 averaged \$371 million, he said. At year end, this volume was considerably higher

Among the 600 attending the statewide function were Gov. Nelson Rockefeller, Lt. Gov. Malcolm Wilson and Attorney General Louis Lefkowitz, Members of the Bethlehem Women's Republican Club who accompanied Mrs. VanCott were: Mrs. Elmer Moray, who served as a hostess for the affair, Mrs. William Crannell, Mrs. Ruth Jamieson, Mrs. Harry Roach, Mrs. Otto de Heus, Mrs. Merwyn Atwood, Mrs. John Williamson, Mrs. Walter Eck, Mrs. Cynthia Wilson, Mrs. J. R. Denny, Mrs. David Degener and Mrs. Arthur Young.

than that average, indicating a continuing increase in the fu-

Since The Bank's marketing area stretches up to the Canadian border and down to the Hudson and Oneonta areas, these mortgages are for residences in a widespread section of New York A. 14 State.

McCormick explained that the remainder of The Bank's loan portfolio is in instalment loans, commercial loans, personal loans, etc. The Bank has a large number of contracts with car dealers and recently introduced a charge card plan, Master Charge. Instalment loan investment to individuals alone runs about \$30 million.

Then McCormick commented, "Through periods of tight money in the national economy The Bank has continued to invest a substantial amount of money in people. Over 15% of its assets are loaned out to help families build or buy homes."

He felt this demonstrated how much The Bank is concerned with the human need for housing. It adds up to The Bank's devotion to people.

More About **Poisons**

More than one-eighth of all Americans who died last year by swallowing poison - 325 out of 2,500 - were small children too young to read labels and of an age when they put anything into their mouths, the American Red Cross said recently.

It urged parents to protect their children by keeping poisonous substances out of their reach, because "they are too young to identify a poisonous substance," Raymond Albertini, Albany area chairman of First Aid Programs, said recently.

The Red Cross is one of 22 member organizations of the National Planning Council for Poison Prevention Week, which has been proclaimed by President Nixon for the week beginning Sunday, March 21.

Dangerous substances in the home include many products kept there for useful purposes, Mr. Albertini said. They fall into four categories: household products, such as ammonia, silver polish, toilet cleanser, lighter fluid, and detergents; medicines, such as aspirin, laxatives, tranquilizers, antihistamines, and lotions; workshop solvents, such

Recently while doing a job over in the Roweland Ave. section that is what one of our local contractors called me. Actually he was particially right.

Tri-City Contracting Co. is only a little over 2 years old. However the principal, that's me Dick Sanderson, has been performing the same work under the name Tri-City Apartments since 1965.

By this time you may be asking yourself just what we do. Our big specialty is Roofing and remodeling. We also throw in a few other services to include: Additions, painting, sheetrocking, and general repairs. Soon to be added to our organization will be complete plumbing and heating service. We are absorbing a licomplete plumbing and heating service. We are absorbing a li-censed plumbing and heating business that has been in operation for 10 years. The "parent company", Tri-City Apartments rounds out the services that are rendered by offering such things as: Rental Management; Building Management Consultation; and Apartment House Management. The "new kid on the block" kind of gave me a chuckle. You see I've been in this area since 1939. I went thru the school system, and I have spent all my adult life in Delmar (with the exception of 2 years with the U.S. Army). We live on Kenwood Ave. and our 5

The danger from poison to a baby begins as soon as he can crawl and reach a floor level cabinet where poisonous household products are stored. Mr. Albertini said. Four major awards wil be presented including the Award for Excellence, the Edward J. Riley Memorial Award, and the special New York State agency awards the Murray R. Nathan Memorial Awards and the Joseph H. Murphy Awards.
