## COVER STORY

### LITTLE LEAGUE BOOSTER DRIVE

"He gave at the office." Bethlehem Town Supervisor Bert Kohinke is shown in his office making his annual donation to the Tri-Village Little League. Allen Warner, 11, the young ball player is the son of Mr. and Mrs. Arthur Warner of Merrifield Place, Delmar. The contribution opened the Little League's yearly Booster Drive, which will be held this Saturday, May 8. When the Little Leaguers call at your home, won't you please give generously? By the way, Mr. Kohinke is the only one who can claim 'he gave at the office.'

• • •

The Tri-Village Little League needs your help on Saturday, May 8, and on many other Saturdays throughout the season. This Saturday is the date of the annual Tri-Village Little League Booster Drive.

To be a booster in this organization for boys, it isn't necessary that you be willing to give dollars, but it is necessary that you be willing to give.

In addition to the fund drive, it is important to the boys that the citizens of the Tri-Village area give of their time to attend the games and help maintain the grounds. The park on Kenwood Avenue, at the inter-

section of the by-pass, forms the hub of Tri-Village Little League activities throughout the playing season.

Supported completely by voluntary help and contributions from men and women in the Tri-Village area, the Little League conducts a major one-day fund drive once each year.

Boosters will receive schedules of the games to be played, and are invited to watch the boys play on a

THE INFIELD begins to take shape after a winter of inactivity. The dugouts, (in background), parking lots, buildings, grounds and fences are all being readied for the season opening May 15.

regular basis. More than 500 boys have signed up to play in the leagues which are broken down by age and ability. Boys from 8 to 12 play in Klersey, Intermediate and Major Leagues, and each boy plays at least half of each game.

So when the boys come to your home on Saturday, May 8, to see you, tell them you'll help. Your donation of dollars will be greatly appreciated, but your time will be appreciated even more. Come to the field and help on Saturday mornings, and come out and watch the boys play ball.

After all, that's what Little League is all about.

GROUNDSKEEPERS ARE all volunteers and Saturday mornings finds them bending their backs to the task of preparing the fields and grounds for the new season. Fathers of Little-Leaguers, friends and neighbors are all helping out, but more help is needed.

THIS IS WHAT it is all about. More than 500 boys in the Tri-Village Area have signed up to participate in the 1971 Little League season. Here coaches and managers look over the boys during one of the try-out sessions. All boys who enroll are given the chance to play in one of the leagues. The elms in the background are dead, and must be removed before the season begins.

COACHES AND MANAGERS watch try-out sessions with interest, and get ready to make their selections. The fund drive which will provide the money to make the league a reality will take place this year on Saturday, May 8. With your help, proper equipment and facilities will be provided.

## Number 235, Where Are You?

At the recent try-outs for the Tri-Village Little League, Manager Briand Parenteau and Coach Lew Lovelace of Gallaghers Intermediate were impressed with number A-235. The boy looked good, and they selected him to play with the Gallaghers team.

Sunday evening, April 25th, they called the boys selected to tell them they would enjoy having them play with the Gallagher team. Mr. Parenteau called boy number A-235, but the boy he called said he was not at any of the try-outs, and had decided not to participate in Little League. That was alright, but where was number A-235?

Little League officials were called, and all were as mystified as the coach and the manager. At the first practice of the team, all the players were asked if they knew number A-235. No one did.

The staff of the Gallagher Intermediate team is still trying to locate the boy who wore number A-235. They would like him to round out the squad, and bring the number of boys up to the full team level.

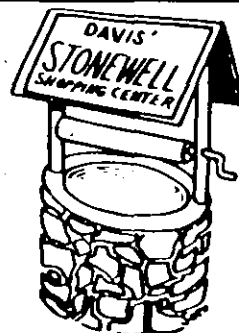

If anyone knows the name of the boy who wore number A-235 in the try-outs, will they please call either Manager Briand Parenteau at 439-5550 or Coach Lew Lovelace at 439-6341.

begun to realize how educationally-deprived was my childhood and how woefully inadequate my academic background.

At the tender age of nine or ten in elementary school — I think that it was called grammar school at that time — I never had the wonderful opportunity of research and writing that our youngsters enjoy, culminating in the creation of a thesis of twenty or so pages. My childish efforts were wasted on such questionable exercises as "writing in two hundred words why you love your pet."

Nor later at the age of eleven or twelve did I know the thrill of being in a top group in a school located in an affluent neighborhood, an experience that would have permitted me to spend from three to four hours nightly doing my homework. At this age, I frittered away my leisure hours in such invaluable pursuits as reading for enjoyment, playing ball with my friends who were as unenlightened as I, listening to the radio, doing chores around the house and just being part of the family.

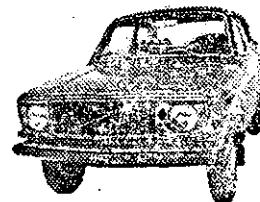

Of course, because I was deprived of the above glorious and profitable educational experiences, I had to forego the accompanying delights of academic encouragement (some cynics might be so callous as to use the term "pressure") syndrome brought on by the zeal of our kids' teachers — aggressive and hostile behavior at home together with depression, migraine headaches and ulcers. Simply to emphasize my unfortunate state of ignorance, I confess to you that my relations with my parents and siblings were basically healthy and happy ones and that my only illnesses were frightfully mundane — chicken pox, measles and mumps. Obviously, since my teachers were not sufficiently interested in my educational welfare to provide me with the necessary and stimulating encouragement which is so prevalent and commonplace today among the superior elementary teachers in our school district, and because my parents were much more interested in my development as a child rather than as a future college student, I was cheated out of using the services of a school psychologist, the hallmark of any elementary school that is worth its salt.

I shudder when I recollect my elementary school years with the distorted values of my teachers and principal, who insisted among other bits of nonsense, that kids should have time to relax and just be kids, without being concerned about the truly important accomplishments, becoming proficient in long division by the end of the third grade and mastering the intricacies of punctuation by the end of grade six. I curse them when I remember their insistence on treating students with equality; they were so naive that they made sure that field trips were made available to all classes, not just to those who were fortunate enough to have a teacher who enjoyed going on such trips. After all, what better way than allowing only selected students such privileges to demonstrate to children at an early age that in life, things don't always operate in a democratic fashion and that some of us have to be losers?

Even in high school were my teachers plagued by this bourgeois concept of trying to provide equal opportunities for kids in school activities so that it was impossible for students from a more affluent background than the one from which I sprang to have school-related experiences, which most of our parents couldn't pay for, such as an extended Easter vacation in Spain, sponsored and chaperoned by school personnel. Certainly, I could present in vivid detail a great deal more material relative to all the injustices perpetrated on me by unthinking and unsophisticated teachers, but simply recalling their unreasonable behavior as I have thus far done, has made me so angry and put me in such an emotional state that even now I am afraid that I will displace my feelings of hostility and aggression toward my wife and children.

To add to my frustration, now that I am at the end of this essay, for several reasons, I can't acknowledge the fact that I am its author. Upon being informed of my inadequate grammar school background, my employer would probably dismiss me; my wife and children to whom I have never admitted my ignorance would be ashamed of me, and most disastrous, my children's teachers, now realizing how

lacking is their father's background, might well stop providing them with all the academic advantages and experiences for which I am so thankful. The inevitable result of such action on the part of the teachers would be so catastrophic to the academic development of my offspring that like mine, their sad fate would be utter academic deprivation.

## Senior Citizens Month, 1971 A Proclamation

By the President of the United States of America

From its beginnings, the American Nation has been dedicated to the constant pursuit of better tomorrows. Yet, for many of our 20 million older Americans the "tomorrows" that arrive with their later years have not been better. Rather than days of reward, happiness, and opportunity they have too often been days of disappointment, loneliness and anxiety. It is imperative that this situation be changed.

Some of the problems of older Americans have their roots in economic causes. For example, the incidence of poverty is more than twice as great among older Americans as among those under 65. This is especially tragic because many of these people did not become poor until they reached their later years. Moreover, the economic gap between the age groups has been accompanied in recent years by a growing sense of social and psychological separation, so that too often our older citizens are regarded as an unwanted generation.

The generation of Americans over 65 have lived through a particularly challenging time in world history. The fact that our country has come through the

first two-thirds of the twentieth century as a strong and growing Nation is the direct result of their devotion and their resourcefulness. We owe them a great deal - not only for what they have done in the past but also for what they are continuing to do today. Perhaps the greatest error which younger Americans make in dealing with the elderly is to underestimate the energy and skill which they can still contribute to their country.

During the last year, several hundred thousand older people wrote to officials of the Federal Government and told us in their own words - some sad, some hopeful - about what they need and what they desire. We learned once again that what they seek most of all is a continuing role in shaping the destiny of their society. We must find new ways for helping them play such a role - an undertaking which will require a basic change in the attitudes of many Americans who are not yet elderly.

As a part of our effort to achieve such changes, our Nation each year observes the month of May as Senior Citizens Month. This is a time when we make a special effort to thank our older citizens for all they have contributed to America's progress. It is also a time for asking with special force whether they are now sharing in that progress as fully as they deserve and desire and for renewing our efforts to help them live proud and fulfilling lives.

Senior Citizens Month, 1971, will be a particularly important time for such endeavors, for this is the year of the White House Conference on Aging. The Governor of every State has issued a call for a State Conference on Aging to be held during May. From these State conferences will come policy recommendations which will be submitted to the White House Conference in Washington next November.

I know that the work of these State conferences during Senior Citizens Month - like the work of the White House Conference next autumn - will be undertaken with a high sense of discipline, commitment, and imagination. The Nation owes no less

to those who have given so much to its development.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate May, 1971, as Senior Citizens Month. The theme for this month will be Toward a National Policy on Aging.

I am deeply grateful to the Governors for this concern and participation in this observance, I urge officials of government at all levels - national, State, and local - and of voluntary organizations and private groups to give special attention to the problems of older Americans during this period.

I also call upon individual citizens of all ages to take full advantage of this opportunity to share in designing a better future - for those who are now numbered among our older citizens and for all who will be among that number someday.

IN WITNESS WHEREOF, I have hereunto set my hand this twentieth day of April, in the year of our Lord nineteen hundred seventy-one, and of the Independence of the United States of America the one hundred ninety-fifth.

Guests of members are always welcome.

## New Members Welcome

The regular monthly meeting of the Ladies' Auxiliary of Selkirk Fire Co. #2 will be held in

the Glenmont Firehall on Tuesday, May 11 at 8 P.M. Refreshments will be served by Mrs. Edward Nowak and Mrs. Jonathan Van Derpoel.

The newly elected officers would like to extend an invitation to anyone interested in joining this Auxiliary to attend this or any succeeding meeting. There are no residency requirements for membership. Dues and volunteer work requested of members is always minimal. For further information contact Mrs. Richard Hummel at 462-6852.

## Open Letter

Governor Rockefeller:

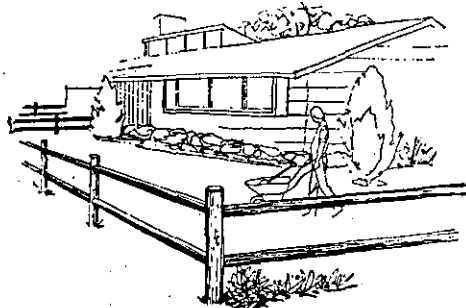

Your recent press release concerning the distress caused you by the termination of many State employees has been received and read. As an Assemblyman representing several thousand State employees affected by these employment terminations, I wish to respectfully suggest to your Excellency the following alternatives to the dismissal of employees who have served the State and the people of the State so long and so well:

1. An immediate halt to all outside consulting work by the State of New York which work can be handled by present State employees and which outside consultant work costs the taxpayers of this State millions of dollars yearly.
2. An immediate freeze on the creation of new jobs in State employment so that those who are presently employed can have the greatest opportunity to further their employment skills before any new job openings are created.
3. Immediate implementation of the voluntary offer of help by New York State businessmen on April 17th of this year as an additional method to save the State the cost of outside consultant work.

There are many other ways to save costs including elimination of costly installation ceremonies and a reduction in the public relations expenditures in all State offices.

## New Color TV from Sony

Sony makes your favorite programs look better. Far brighter. And the picture is sharper.

To make better color TV, Sony developed a better system. Trinitron® is Sony's system.

Sony's system has one big color gun that shoots all the colors. And there's a lens more than twice as big as everyone else's. With a large lens, you get a sharper, brighter picture. Vivid colors aren't washed out in bright room lighting.

Turn on this solid state set and watch the Trinitron system with a 12" diagonal screen bring better color into view. Beautiful walnut cabinet styling.

### Excerpts

From "The Guidance Newsletter" of Bethlehem Central Senior High School

#### EARLY CHECKING OF ADMISSIONS REQUIREMENTS ADVISABLE:

By the tenth year the student should have a tentative list of colleges to which he may want to apply. His choice of colleges should be based on his school record and his standardized test scores so that the colleges he is considering are realistic choices, judging from the college potential he has thus far demonstrated. He should check on what high school courses are required and recommended for admission. These are stated in the college bulletins.

Although his goals may change as he progresses through high school, he must be sure that the courses he is taking will meet the entrance requirements of the colleges to which he may want to apply. For example, engineering and architecture candidates are expected to include in their program from three to four units of college-preparatory mathematics and science, but a foreign language may not be required. Students planning on entering liberal arts colleges or junior colleges with a transfer program should have sufficient credits in college-preparatory English, social studies, languages, and mathematics.

as specified by the individual colleges.

Students who find out that they do not have the necessary college-preparatory units for the colleges to which they wish to apply should consult their guidance counselors about the advisability of program changes and summer work. However, making up missing courses is often very difficult or even impossible. Careful and realistic planning at the beginning of the high school course helps to avoid such problems.

**PRINCIPLES OF STUDY AND LEARNING:**

Answers to last week's quiz are as follows: Questions 1-4 are a plus, 5 is a minus, 6 & 7 are pluses.

**Public Hearing**

The Planning Board of the Town of Bethlehem has scheduled a public hearing to be held on the request of Bethlehem Terrace Associates, the present owners of a tract of land located within the boundaries of Planned Residential District No. 1 situated along Blessing Road, R.D. #1, in Slingerlands. This hearing will be at 7:30 P.M. on Tuesday, May 11, 1971, in the hearing room at Town Hall, 393 Delaware Avenue, Delmar.

A proposed building project for essentially the same area was previously approved for the former owner. However, changes have been made by the new owner in the building project and in the land area which it is proposed to occupy. All of this section of the Meadowbrook development to be considered at the May 11th hearing is now located east of Blessing Road. The structures containing the 192 apartment units to be constructed will be of the same architectural style as those in the adjoining completed section known as Section No. 1. Also included in the request for approval is a recreational area to contain a tennis court, swimming pool and bathhouse, this area to be on the strip of land added to the section on the east side of Meadowbrook Drive East. Town of Bethlehem locations is as follows: Newspaper, 13,620 pounds; Clothing, 5,670 pounds; Books, 3,390 pounds; Bric-a-Brac, 605 pounds; Cotton, 100 pounds; and Cardboard, 20 pounds; for a Grand Total of 23,405 pounds, and 28 pieces of furniture.

A rough estimate of the number of people bringing paper, etc., to the trucks is: Town Parking Lot, Delmar, 116; American Gas Station (unoccupied), Delmar, 111; across from Maple Avenue Fire Station, Selkirk, 51; and Keller's Mobil Station, Bethlehem Center, 43, for a total of 321 people. This estimate is probably low since at times people arrived in groups and probably not everyone was counted. However, at least 321 THANK YOU'S are in order.

Bethlehem Environmental Improvement Association thanks the Girl Scout Cadets of Troop 412 who made the eye-catching posters announcing the Salvation Army collection and the can recycling centers. Thanks too to the area merchants who displayed these signs in their windows.

On Saturday, May 22, Salvation Army trucks will be parked at the same four locations. BEIA is pleased to announce that starting May 22, facilities will be available at the four locations to collect cans and glass bottles for recycling. Dr. Edward H. Sargent of Delmar and the Town of Bethlehem officials are working on the arrangements. As soon as all the details are available, they will appear in The Spotlight. For

**Clean-up Days**

The 1971 Spring Clean-Up Days for the Town of Bethlehem ended April 30, 1971, and no trash will be collected after that late. The Highway Department picked up and disposed of 1,056 loads of trash for the residents of the Town during the month of April.

The weekly program of collecting grass clippings, leaves, pine needles and brush starts May 3, 1971. Clippings, leaves and pine needles must be in bags or disposable cartons and brush tied in bundles so that one man can handle.

## Shutterbug News

Maxine White, Chief of the  
Medical Illustration Service at  
Albany V.A. Hospital will be the  
guest speaker at the May 11  
meeting of Delmar Camera Club  
to be held at 8 P.M. at St. Ste-  
phen's Episcopal Church. "Photo-  
graphy In Science and Industry"  
will be the subject of the talk  
which will be illustrated with  
color slides and black and white  
prints. For many years, Miss  
White was a commercial and

Navy photographer and comes to us well qualified to discuss this interesting topic.

The last competition of the Delmar Club, with the assigned subject "Raindrops Are Falling" brought honors in the color slide division to Howard Gallaher for "Sunrise Through Raindrops;" Monica Bishop for "Raindrops Keep Falling On My Head;" Elizabeth Christian for "Rain on Windshield;" and Harry Bagley for "Cross Walk." The black and white print winner in this category was Florence Becker for "A Soft Spring Rain."

The general competition found Alice Porter in first place for black and white prints with "Buddies." Color slide winners were Ben French for "Bethlehem in April;" Monica Bishop for "Blood Root;" Howard Gallaher for "Mt. Gibbs;" Harry Bagley for "New

Shoes" and Renee Zindwer for "Bringing in the Fish."

Commentator for the evening was Carl Gordon who is a member of Albany Camera Club and an accomplished photographer — particularly in the field of nature and birds. He is a popular and welcome visitor at Delmar Camera Club and his constructive criticism was helpful and to the point.

## Lecture

"DO WE THINK OR JUST THINK-WE THINK?" is the title of a Christian Science lecture by John Wyndham to be given Tuesday, May 11, at 8:00 P.M. in the Delmar Presbyterian Church, 585 Delaware Avenue, Delmar.

Mr. Wyndham will discuss the importance of individual thinking in shaping one's life. In his hour long talk he will explain

how your thoughts actually determine the kind of life you lead and the kind of person you are. Relating his own experiences as prisoner-of-war, the lecturer illustrates how a clear understanding of God as Divine Mind, the true source of intelligent thoughts, made it possible for him to survive months of solitary confinement and brainwashing.

A native of Holland, Mr. Wyndham was educated in that country as well as in England and Australia. His extensive career in the field of communications includes producing documentary films in Africa, Australia, and Greece and an assignment with the United Nations as Director of Public Information for UNICEF in Europe.

A Los Angeles resident, Mr. Wyndham is presently on a nationwide tour as a member of the Christian Science Board of Lectureship. He entered the healing ministry of Christian Science as a full time practitioner in 1958.

Sorry Muthas, a group of five fantastic musicians from Minneapolis will bring their foot stomping music to the area for the first time. They will also appear at the Caffe Lena in Saratoga Friday through Sunday.

On Saturday night Bill Spence and Jack Hume will sing at the Coffee House beginning at 9 P.M. Spence and Hume have combined talents during the last four years to present some of the best country-flavor music heard in this area. Among the instruments

they play are two rather unusual ones, the hammered dulcimer which Spence builds and is rather rare in this country, and the do-bro guitar, forerunner of the Hawaiian guitar which Hume plays with increasing skill. Spence is on the Communication staff at the State University of Albany, and Hume is an assistant editor at the Schenectady Gazette.

The Coffee House is located at 125 Adams, Delmar. Admission for the Sorry Muthas is \$1.25. Admission for Saturday night is

Olmi. The New York Times described this story of an Italian youth starting his first job in a gigantic company like this, "Remarkably simple, yet complex, ingenious yet profound. Olmi is an artist as skillful as Vittorio de Sica". "Il Posto" charts the process by which this youth becomes just another cog in an anonymous machine. This film is in the tradition of the Italian neo-realists.

**MAY 15**

The messiest kitchen clean-up job has always been removing crusted-on foods from pots, pans and casseroles. And sometimes from dishes.

Until now.

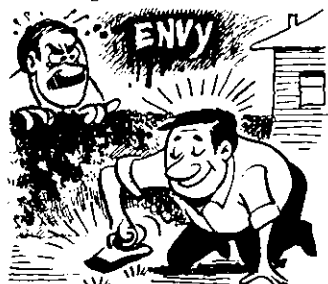

Now, the KitchenAid Superba model has a new exclusive Soak Cycle that automatically soaks and loosens encrusted foods. Then it washes, rinses and dries everything.

clipping job using ordinary grass shears. Or perhaps you're not getting the neat, manicured appearance that you want around walks, flower beds, building foundations and trees.

The Disston Cordless Electric Grass Shear can help. It cuts trimming time in half and has

enough power on one charge to trim the edges of an entire football field. With three blades cutting simultaneously, the shear makes 6,000 cuts a minute.

Disston also offers an upright model of the cordless electric grass shear, with a long handle and rubber-tire wheels. It also cuts about 900 feet of grass on a single charge, and recharges overnight.

Tired of trimming your hedges or shrubbery the old-fashioned way with manual shears? Or maybe you've got an electric shear, but don't like lugging a battery pack around or coping with an extension cord. Disston also has developed a cordless hedge trimmer with double edged blade. The Disston family of cordless electric products is available at leading hardware and department stores, garden supply shops and building supply outlets.

Enjoy your Audi® in Europe.

Before you enjoy it here.

See Europe on your own timetable. At your own pace. In your own Audi.

Here's how. Come in and look at the Audi. Test drive a few models. Let us know which one you want, what color and how you want it equipped.

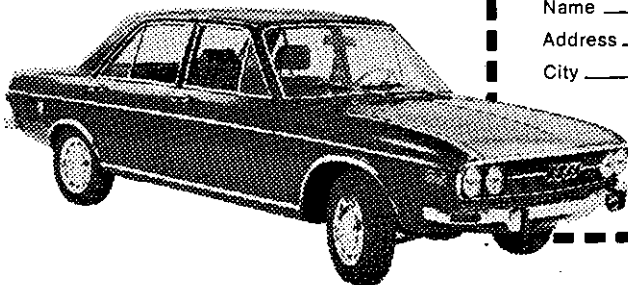

Then tell us where you'd like to pick it up in Europe. And where you want it shipped back to in America. It's that simple.

I'm planning a trip to Europe in \_\_\_\_\_ and would like information on the Audi Tourist Delivery Program.
