LIBRARIAN RETIRES

Mrs. Flossie Smith, who is retiring this year after 41 years with the Bethlehem Central School District, was the guest of honor at a recent luncheon held at the Normanside Country Club by faculty members of the Hamagrael School.

Mrs. Smith was presented with a tape recorder, complete with messages of grateful appreciation and best wishes from all present Hamagrael faculty members and many former ones. She was also given a scrapbook by past and present Hamagrael pupils, with pictures and letters covering events at the school since it opened in 1954.

In presenting the gifts, John Falvey, Hamagrael principal, commented: "No one--child, parent or teacher--has ever had an unkind word to say of Mrs. Smith."

Mrs. Smith began her career with the school district in 1930, teaching grades 4,5 and 6 at the old Bethlehem Center School. In 1937, she moved to the Delmar Elementary School to teach grade 6, and while there she gave help and encouragement to a new teacher John Falvey.

In 1954, Mrs. Smith was named librarian of the Hamagrael School, the position she has held until now.

The retiring librarian received both her bachelor's and master's degrees at the State University of New York at Albany.

R-E-C-Y-C-L-I-N-G: SUCCESS!

An overwhelming public response brought the Bethlehem Recycling Project of June 26 more than just a huge volume of glass, cans, and paper. The support by Bethlehem residents brought the evidence that the public is willing to recycle.

The operation of the drive brought the close attention of Town of Bethlehem officials, of the Albany County representatives, and especially of the Albany County Environmental Advisory Council. Dr. Ed Sargent, Council member and a coordinator of the recycling project, believes that Bethlehem's program is the only recycling drive on a regular, large-scale basis in the Capitol District.

The efficient handling of the recyclables at the four collection sites brought all our thanks to Marty Cross, Town of Bethlehem Supervisor of Highways, and to the men of his Highway Department who manned the collection sites.

The Recycling Program brought its share of problems as any pilot project does. A few of the do's and don't's suggested by workers at the sites:

DO CLEAN THE BOTTLES.

DO take off the metal neck rings from bottles which had twist caps. An ordinary can opener will twist and break the

DONALD SEABURG AND EDDIE WELLS of the Bethlehem Highway Department tackle the job of crushing glass bottles and loading cans as part of the Bethlehem Recycling Program.

ring. Or a nail clipper does the job smoothly.

If the bottles aren't clean or if the metal neck bands are still present, the glass must be discarded, becoming landfill, the very thing the recycling program is trying to overcome.

DO everything possible at your home to reduce the bulk of your recyclables and to cut down on the handling at the collection centers.

DO crush cans (including beer and soda cans, if you can).

DO separate the glass by color (amber, green, clear).

DO bundle the newspapers securely to keep them from getting loose and becoming litter.

DO NOT leave recyclable materials outside of the established hours.

DO NOT leave junk. Unfortunately not everything is recyclable and these are not trash centers.

All tallied, you, the public, did a great job. Keep those **crushed** cans and **clean** bottles coming in.

EVEN YOUNGSTERS get into the act. Ford and Valerie Clark of Paddock Place, Delmar, bring some bottles and cans to a Town of Bethlehem truck.

Look what we found! IN THE MAILBAG

Dear Editor:

I should like to express appreciation, first of all, to the many people who came to donate blood at the Tri-Village Bloodmobile visit on June 29. 142 pints of blood were drawn and are presently filling vital needs.

Our thanks go also to Heath's Dairy and to Stewart's Ice Cream Store for their donation of orange juice; to the nearly 200 people who recruited donors, baked cookies, prepared a meal for staff and volunteers; and to the volunteer workers at the Methodist Church during the visit. All this willing help insured a successful day.

I'm sure, also, that the fine publicity given us in the **Spotlight** contributed greatly to the campaign for donors.

Sincerely, Mrs. John F. McColl Chairman Tri-Village Blood Program

OVER THE DECADES, the Catskills have been known as New York City's vacation playground. This mountain range in southern New York State is filled with hotels of every ethnic background. Most of the hotels are very old. Some have renovated, many have not.

In the last 10 years there have been few, if any, totally new resort hotels built in the Catskills. The big story on the resort scene this year is that there is a totally new resort in the Catskills.

The Friar Tuck Inn on Rt. 32 in Catskill started four

years ago as a dream in the minds of four of New York's most successful restaurantuers. That dream has grown into a spectacular hotel that opened July 3rd with Duke Ellington headlining in its nightclub.

The four Caridi brothers, who also own La Magenette, P. J. O'Hara's and the Friar Tuck in New York City, have built a hotel that offers a vacationer most every facility imaginable. Excellent cuisine, in great continental style; swimming, indoor and out; health clubs, cocktail lounges — all in grand style. Golf, horseback riding, and skiing are available, also.

The physical plant, itself, makes the Friar Tuck Inn memorable. High ceilings, hand hewn beams, plush furnishings, an air of oppulence. The Friar Tuck creates a feel-

CONGRESSMAN Samuel S. Stratton has sharply criticized the Veterans' Administration for omitting the Albany VA Hospital from the list of those 27 VA Hospitals around the country where new drug treatment centers will be established in July and October of this year.

At the same time, in a letter to VA Administrator Donald Johnson, Stratton requested an immediate meeting between Johnson and all four of the Members of Congress representing the areas served by the Albany Hospital — Con-

In his letter to Johnson, Stratton pointed out that he had urged establishment of such a center at Albany last fall in view of "an increasing drug addiction problem with our veterans returning from Viet Nam," and told Johnson that "Now that you have announced a decision to carry out my recommendation to increase the VA drug treatment program, I am amazed and astounded that the Albany VA Hospital has been omitted."

'DON'T GIVE US A BREAK' -- That's New York Telephone's plea to call the company's Repair Service before excavating, because a dig in the wrong place can disrupt a community's vital lines of communications. These photos of a mock dig-up show how a backhole meeting a buried cable with 2,400 wires (left) can completely sever it (right). Last year, more than, 2,000 New York Telephone cables were dug up in Upstate New York, interrupting service to many thousands of telephone customers, including emergency agencies such as police and fire departments

Craig Hankenson, S.P.A.C. general manager, said today.

Hankenson said that S.P.A.C. management had arrived at the decision reluctantly but that repeated violations, particularly by young people at Special Event rock attractions, had made it a practical necessity.

Those caught trying to "sneak in" to the Center are to be charged with criminal trespass, third degree, a Class B misdemeanor. If convicted, they would be subject to a maximum of a \$500 fine and three months in jail and would have a permanent criminal record.

Hankenson noted, in making the announcement, that while trespass has been a manageable problem at the Center in previous years, this year it has grown to proportions which demanded that a new effort be made to stop

The general manager added: "We value our teenage and college audience and, of course, want to continue programming for their patronage. Up till now we have not patrolled every inch of fence

THERE WILL BE an opportunity for representatives of local organizations or individual contributors to appear on camera during the mammoth Labor Day weekend telethon, which famous comedian Jerry Lewis is doing for the benefit of Muscular Dystrophy Associations of America. The starstudded 20-hour spectacular — emanating "live" and in color from the Americana Hotel in New York City — will

be seen here over WRGB-TV, Channel 6.

According to Mr. Paul O'Keefe, president of the Capital District Area Chapter of the national voluntary health agency, the station plans to cut away periodically from the big show to enable representatives of contributing groups to make their gifts "on camera" in its studios. Such local segments, Mr. O'Keefe said, will also feature celebrities, civic leaders and individuals directly concerned with the fight against dystrophy and related disorders.

Robert L. St John has a message for you: "Please call your local Repair Service number before you dig."

"That way," he explained, "vou won't jeopardize vital lines of communication by digging up a telephone cable."

Mr. St John noted that disruption of communications because of buried cable dig-ups increased nearly 24 per cent in Upstate New York last year.

"We had some 2.130 of these cable breaks in 1970, compared with 1,720 the year before, when the damage was estimated at over \$1 million. They continue at a high level, with 284 dig-ups occurring in the first four months this year.

He said the local telephone Repair Service number is listed in the front of the telephone directory. A call will bring a telephone man out to mark the location of any buried cable in the area of digging operations.

THE POPULARITY of the riding lawn mower is increasing rapidly, but the machine can become a killer unless it is operated with utmost care.

This warning comes from a Cornell University safety specialist at the N.Y. State College of Agriculture.

Prof. Edward W. Foss urges operators not to use a riding lawn mower on a slope greater than a 15-degree angle.

Citing a case study of 102 mishaps involving riding lawn mowers, prof. Foss said that 28 of the accidents studied were "tip-over" cases resulting from operating the mower on too steep slopes or across ditches.

In two of these tip-over cases, a 10-year-old boy and a four-year-old child were crushed when the machine landed on them, he pointed

"Perhaps the most pathetic was a fatality in which a mother operating the mower backed into her own threeyear-old child," he said.

A significant number of accidents was caused by contacting moving belts or chains with fingers, so replace all

covers or guards after adjusting or replacing belts or chains.

The study, made at Iowa State University, also reported 46 amputation cases involving fingers and toes due to what was described as "unsafe acts" on the part of the operators.

Foss also pointed out that the cutting blade rotates at high speeds, so small stones, croquet wickets, or sticks can become lethal projectiles.

"Before mowing, make sure to pick up stones, tree limbs, wire coat hangers, and other potentially dangerous jects," he stressed.

The Cornell safety specialist offers these safety pointers:

- 1. Read the instruction manual before operating a new mower.
- 2. Insist that all members of the family who use the machine know its limits.
- Keep young children well away from a lawn mower operation.
- 4. When grading a new lawn, make sure slopes are less than 15 degrees.

WITNESS FOR CHRIST

Kings in sumptuous royal robes of office on resplendent thrones, righteous prophets in martyrdom, soldiers in gleaming armor rallying to fight for liberty, the Lord's destruction of an entire city for the wickedness of its inhabitants, visions of historic events in the Holy Land such as the Nativity, the ministry of Christ. His death and crucifixion — these are some of the highlights of the Pageant's portrayal of the 1000-year long vanished American civilization.

Coming as the climax to this kaleidoscopic sequence of turbulence and tranquility, triumph and tragedy, is the appearance of Christ to His followers in the New World after His death and crucifixion in Ierusalem. From the portrayal of this Mormon belief the Pageant takes its formal name, "America's Witness for Christ."

SEATING, PARKING FREE

More than 100,000 viewers are expected for this year's Pageant. As has been the cus-

tom since the inception of the Pageant 35 years ago, there will be no charge for seating or parking, no commercialism of any kind.

In its early years, the Pageant was limited to one performance. As the fame of its powerful dramatic scenes, produced with amazing professional theatrical wizardry, of its unimaginable, effulgent lighting effects with variegated hues playing on shimmering curtains of water, and

GOOD KINGS AND EVIL KINGS come to the throne in the rise and fall of the ancient American civilization depicted by the Hill Cumorah Pageant near Palmyra, New York. Shown here is the righteous Prophet Abinadi being burned at the stake at the behest of the wicked King Noah. Two of the king's henchmen mock him. This is one of the many scenes from the Book of Mormon and from the Bible dramatized in the Pageant. This year's Pageant — the 34th anniversary production - will be presented each night Monday through Saturday, July 26-31. Seating and parking are free.

ISRAELITES FLEE **IERUSALEM**

The story of the Pageant begins with a flight of a band of Israelites to escape the destruction of Jerusalem about 600 B.C. By direction of the Lord, they sail to the Western Hemisphere and found a civilization which builds flourishing cities with temples and palaces. When they heed the words of righteous leaders and live according to the word of God, they enjoy peace and prosperity. When evil rules who mock the faith in the Lord come to power, the people suffer.

In 1823, he was visited by the Angel Moroni who told him of a set of golden plates he had buried on Hill Cumorah in AD 421. These recorded the history of an ancient American civilization. He led Joseph to the hiding place of the plates and in 1827, he permitted him to remove them and translate them into the Book of Mormon. On the basis of this record and other revelations. Ioseph organized The Church of Jesus Christ of Latter-day Saints, popularly known as the Mormon Church, in 1830.

3.000.000 MEMBERS

Joseph Smith led the Church first to Ohio, then to Missouri, then to Illinois where the Mormons founded the City of Nauvoo. Persecution culminated in the assassination of Joseph and his brother, Hyrum, in 1844. Following this, Brigham Young became president of the Church and led his followers on their historic covered wagon treks

PAY OWN EXPENSES

The director of the Pageant since its inception has been Dr. Harold I. Hansen of Brigham Young University, Provo, Utah. The cast consists of 200 missionaries, mostly from the West, 200 Mormon girls, mostly from Western colleges, and the rest members of Mormon congregations in New York State.

All the members of the cast and the technical crew pay their own expenses to participate in the Pageant, some of them saving money for several years to be able to do so. They regard this experience as a highlight of their life.

You can get a full range of coverages, including liability, collision, fire, theft and comprehensive, medical payments, bail bond and emergency road service. Liability limits are available up to \$500,000.

Auto-Rite brings you something else. We mean Ætna's countrywide claim service, and its reputation for fast action and fair play. And we'll back that up with our agency's personal service and attention.
