# Should your meter reader be in pictures?

## He is.

Our meter readers all carry badges with their names and photographs on them. These badges are displayed on their shirts or jackets. They also carry identification cards in their pockets.

These badges and cards, together with their company uniforms, are for your protection. No one likes to let a stranger in his house. So we want to make sure that you can tell our meter readers really are our meter readers. Incidentally, if someone who does not wear a Niagara Mohawk

uniform should claim to be a meter reader, don't let him in, and please let us know at once.

The meter reader has an important job. If, for some reason, he can't get in to take a reading, then we estimate your use and send you a bill based on that estimate. An estimated bill can be slightly higher or lower than your actual use for that period, but the difference will be adjusted at your next meter reading.

For your convenience, and in order to obtain an actual reading, we

show your next scheduled meter reading date on your service bill. This date lets you know when he's coming. If you're not at home during the day, or for any other reason want to make special arrangements for having your meter read, please call your nearest Niagara Mohawk office.

She is the daughter of Mr. and Mrs. Raymond Dechene, 54 Brockley Drive, Delmar.

**ROBERT A. PIERSON**, Coordinator of Distributive Education at Bethlehem Central High School, attended the opening meeting of the Sales and Marketing Executives of Eastern New York, Inc. Mr. Pierson serves on the group's Education Committee.

The group met at the Crossroads Restaurant for dinner at 7 p.m. Don Tuttle, formerly Farm Editor of WGY, and now in that position at WTIC in Hartford, Conn., was the speaker of the evening. Mr. Tuttle's topic was "The Friendly Art of Misinforming."

Also at the meeting Alfred J. Worsdell was presented as the new Executive Secretary of the group and several new members were welcomed.

**COVER STORY****"Addie" Retires After 32 Years**

**MRS. ADELE VAN AMERONGEN** retired last Thursday as secretary to the superintendent of schools of the Bethlehem Central School District.

"Addie" has served in this position since 1939, when her boss was Hamilton H. Bookhout and the superintendent's office was located at what is presently the Middle School. In 1939, the school district had a total pupil enrollment of 1,459 and a total of 63 teachers. Now Bethlehem has about 5,000 pupils and 300 teachers.

When Mr. Bookhout retired from the Bethlehem superintendency in 1964, "Addie" served as secretary to his successor, Dr. Richard Moomaw, until he left in 1970. Last year her interim boss was Mr. Delmer Everett, who served as superintendent of schools until Dr. Lawrence A. Zinn arrived to assume the post in July.

"Addie" grew up in Delmar, attended Bethlehem schools, and was graduated from Albany Business College. Widowed for two years, she remarried this summer and is living now in Rensselaer.

A retirement party in "Addie's" honor was held last week at Tall Timers, and among those attending were school office staff associates, school principals, and Board of Education members. Also present to pay tribute to her were Mr. Bookhout and Mrs. Lillian Skillman, who was district clerk when "Addie" first started working here.

**SPECIAL**  
**Year Long Centennial at Grand Union**

At 99, The Grand Union Company is vigorous and growing. It looks forward to an all-out, year-long celebration of its 100th anniversary in 1972.

That was the gist of news from Grand Union executives at a press briefing here today presided over by Ralph D. Lytle, Corporate Vice President of the Eastern food chain and General Manager of its 137-store division headquartered in Waterford.

Founded by Cyrus Jones in Scranton, Pennsylvania, in 1872, Grand Union has grown from a one-man, one-store enterprise to the 10th largest food chain in the United States with annual sales in excess of \$1-billion.

Now operating more than 580 stores in 11 Eastern states, Puerto Rico and the U.S. Virgin Islands, the company employs more than 26,000 people.

Today Grand Union is becoming increasingly diversified. In addition to supermarkets, it operates Grand Way discount general merchandise stores, Grand RX drug stores, Grand Patio res-

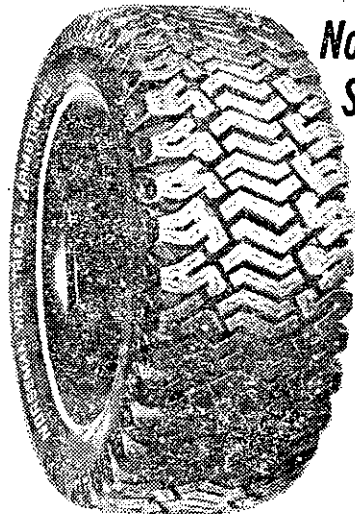

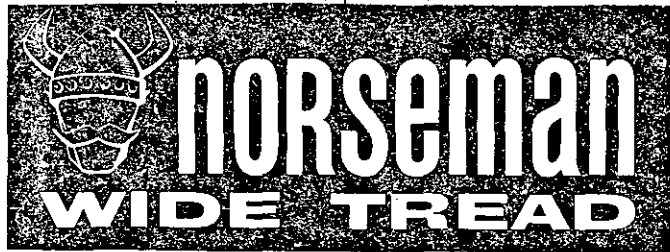

taurants, E-Z Shop convenience food stores, the Triple-S Blue Trading Stamp Company and No. American Equipment Corp., which manufactures materials handling equipment.

Charles G. Rodman, the New York State-born (Owego) President of Grand Union, said recently in a special message to employees on the significance of the coming Centennial:

"Whatever field we are in, our principal aim is always the same: Complete customer satisfaction."

Plans for celebrating the company's 100th Anniversary in 1972, as outlined here today by Floyd D. Rodgers, the company's Director of Public Relations, and Harry F. Kronevitz, newly-appointed Project Director for the Centennial, will focus on projecting the company as it is today and expects to be tomorrow. Slogan for the observance will be: "People Pleasers — Since 1872."

"Grand Union is a company on the move," Mr. Rodgers said. "We are making progress because we know the importance of customer

satisfaction. Today, more than ever, we know the importance of being "People Pleasers'."

Mr. Rodgers noted that while executives of the company had been thinking seriously about the Centennial celebration for some years, had had an Anniversary Committee in being since 1968 and a detailed outline of suggested projects under review since 1970, it was in March of this year that the project really began to move.

Advertising and promotion executives from all the company's divisions were invited to company headquarters in East Paterson, New Jersey, for a day-long brain-storming session. Subsequently, a group of these executives and two others representing merchandising and operations were appointed to a committee that was assigned to draw up a detailed, comprehensive set of plans for the 1972 Centennial.

"Headed by Mr. Kronewitz, then Advertising Manager of the Florida Division, and with strong support from Zane D. LeVan, Advertising

Manager of the Empire Division, the Committee created a 95-page Master Plan and supporting graphics for a year-long 100th Anniversary celebration within four months," said Mr. Rodgers. "Now approved by top management, which also named Harry Kronewitz as Project Director for the Centennial, this elaborately detailed guide has us well on the way to what we feel will be one of the most successful corporate anniversary celebrations ever held."

After describing some of the advertising and promotion plans for the Centennial, "an event so big it will take an entire year to celebrate", Mr. Kronewitz added:

"Because the press, radio and television are essential to the success of our company's 100th Anniversary, we wanted you to have a preview of it well in advance. You will be hearing from us frequently between now and 1973. We hope to hear from you, too, with ideas and suggestions on how to make the Centennial even better than we planned it to be!"

# The Spotlight POLITICAL ARENA

(The following is the text of a speech given by George Harder, Democratic candidate for Bethlehem Supervisor, at a meeting of the Democratic Committee at Center Inn on October 1.)

To solve Bethlehem's problems, I should announce my candidacy for Governor of New York State. At the moment it's too early or I would. Bethlehem, like many other towns, needs immediate tax relief to save it from financial strangulation, but our incumbent town board apparently does not recognize this fact. School tax in particular seems to grow in geometric propor-

George Harder

tions, and our present supervisor believes this is not a town problem. In his opinion, there is no connection between the School board and the Town board. Perhaps this is a major cause of the ever-increasing school tax because it indicates to me that no one in Town government sees the direct relationship between school tax and assessment of real property. At present, our local tax is substantially based on real property

— which in Bethlehem is your home. As Bethlehem is composed primarily of one family homes, there is no effective industrial base to share our ever-increasing tax burden. During the years I have lived in Bethlehem I have not seen an aggressive effort by the Town board to attract new industry to occupy our many vacant acres of commercial zoned land. In the absence of such a program or in view of industries disinterest in our community, it is now time to find some meaningful relief from tax problems which can only worsen in the years ahead if we fail to find immediate alternatives.

The key to our current dilemma is a broadened tax base. Either we expand our industrial base in Bethlehem or we extend our school tax district over a much larger geographic area. To do the latter requires the enactment of new laws by our State legislature. That's why I must consider running for Governor. Our incumbent

governor apparently has not given serious consideration to the need for such larger districts, but as Supervisor of Bethlehem (when I get there) I pledge every effort to move the Governor, the State legislature and the Association of Towns in the direction of expanded school tax districts.

As one possible solution, I envision the day when the State of New York assumes the responsibility of paying the salaries of all school teachers. In this way the local community can be relieved of the largest single item in any school budget. At the same time our teachers could be paid salaries that are fair, adequate and consistent with the inflationary economy of our day. It might also equalize salaries between the so-called rich and poor districts. If the State was divided into quadrants, the taxpayer could achieve the broadened tax base which is necessary to generate the dollars needed to support a good school system without

burying the individual home owner. There are other alternatives. I mention this approach to stress my point that there are ways to meet most of our problems — provided elected public officials have the imagination, desire and time to solve them.

**NO TAX INCREASE in '72** — Based upon the preliminary budget, the Bethlehem Town Board has voted no increase in general town taxes for 1972, according to an announcement made today by Supervisor Bertram E. Kohinke.

Bertram Kohinke

"In these days when everything seems to cost a little more each year, this should be very welcome news for every homeowner," Mr. Kohinke said.

The Supervisor also pointed out that about 35% of the total town tax is paid for by industry located in the Town.

A second announcement had a thrilled and proud Mr. Kohinke beaming as he released the announcement that the Pan American Development Corporation has made a final decision to locate the Southgate Mall in the Town of Bethlehem. One reason for the Supervisor's hearty approval is that when Southgate is completed it will considerably broaden the Town tax base.

The letter confirming the corporation decision to locate the huge shopping complex in Bethlehem follows:

September 30, 1971

Mr. Bertram E. Kohinke,  
Supervisor  
Town of Bethlehem  
393 Delaware Avenue  
Delmar, New York 12054

Dear Mr. Kohinke:

You will be delighted to know that Montgomery Ward has agreed to locate in the Southgate Mall. Their store will be in excess of 100,000 sq. ft., plus a satellite store

for the sale of tires, batteries and accessories. Wards will be one of the three major department stores providing the nucleus for this new commercial development.

In addition to the three major department stores there will be approximately 70 smaller stores supplying the full range of shoppers' needs. Along with these stores will be a Drive-In Bank and a "Twin Theatre". The entire group of stores, including the department stores, will front on a completely enclosed, climate controlled natural landscaped Mall Promenade, parking for over 3,000 cars.

The detailed plans and specifications for the foregoing development are presently in the Schematic Phase of development by our Architects, Evantash, Friedman of Philadelphia and our Engineers, C. T. Male Associates, of Schenectady.

Within a few months we expect to begin work on the Design phase of all our plans, and hopefully we expect to break ground, with the commencement of excavation, by next spring. Our "Grand Opening" is scheduled for Easter 1973, at which time we expect your Sanitary Sewers to be available for our use.

We look forward to becoming a responsible member of your community. As you know, we selected your area because of the tremendous growth potential, the strategic location of your highway and the availability of a quality educational system which continues to attract people to your area.

We are pursuing this development in cooperation with the Southgate Co., and be assured that we shall keep you informed of our progress.

Very truly yours,

Also released today: the announcement that Governor

Rockefeller has appointed Geoffrey E. Maclay, 413 Wellington Road, Delmar, to the New York State Committee for the 1971 White House Conference on Aging.

As a member of this committee, Mr. Maclay will accept an invitation from President Nixon to attend the Conference to be held in Washington, D.C., from November 28 to December 2.

...

Town and County Republican candidates will participate in a "Meet the Candidates Night" to be held at the North Bethlehem Fire House tonight (Thursday) beginning at 8 P.M. There'll be a lot of fun plus questions and answers and plenty of cider and donuts for all those who attend.

One week later (October 14), a similar get-together will be held at the Fire House in Selkirk. Again town and county Republican candidates will project a record of past performance and also plans for the future.

**WILLIAM JOHNSTON, JR.**, one of two Republicans running for seats on the Bethlehem Town Board, is seeking his first full term as Councilman. Before Bill's appointment as a member of the Town Board, he served as Chairman of the Board of Appeals. He has been a resident of our Town all his life. He is a graduate of our Bethlehem Schools, a five-year veteran of World War II and has served as Chairman of the Parks Committee. He is very active in community and civic affairs. Bill is Office Manager for Armory Garage. He and his wife, Alice, reside at 73 Darroch Road, Delmar.

## The "NINETY-NINERS BIRTHDAY SALE"!

WE'RE NOT JUST GETTING OLDER - WE'RE GETTING BETTER

**IT PAYS TO READ LABELS!**

What can the label tell you about a food product? A great deal, if we read and use the information. Amazingly enough, despite the fact that many of us are requesting much additional label information, in many cases we are not reading and using the information presently on labels.

If we are smart, whether in terms of nutrition or economy, we will read labels. For instance, did you know -

All processed products must carry a list of their ingredients on the label, except products with a standard of identity. Products which do list the ingredients, must list the ingredient first which is present in the largest amount. For example, canned beef stew which lists the ingredients - "beef, potatoes, broth and carrots", will have more beef than the stew which lists the ingredients - "broth, carrots, potatoes, beef".

What do the letters MDR mean on a label? They stand for the words "Minimum Daily Requirements" of the specified nutrients. Legal minimum for 6 vitamins and 4 minerals have been established by the government. These are minimum levels below which one can be deficient.

"I've seen the letters 'RDA' on some packages. What do they mean?" They mean "Recommended Daily Allowances". These are higher levels of the specified nutrients that allow for the nutrient losses that occur in the marketing system and in our homes in storage and cooking.

The terms "Enriched" and "Fortified" sometimes confuse people. An "Enriched" product has had 3 B vitamins (thiamin, riboflavin and niacin) and one mineral (iron) added in strictly prescribed amount. For example, flour, bread, and roly cereal and pasta products, and rice can be "Enriched". Be sure to look for and use whole grain or "Enriched" products for good nutrition.

that has added vitamins and minerals which make the product richer in the nutrient than the ingredients from which the food was made. For example, milk with Vitamin D, salt with iodine, fruit juices with Vitamin C, are 'Fortified' foods.

Be sure to read and use label information. All of these kinds of nutrition information are presently on our food labels.

AN AMERICAN Red Cross

Mr. and Mrs. Calvin Southwick, Jr., of Clearwater, Florida, and Delmar, were honored at an Open House, August 24, on the occasion of their 50th Wedding Anniversary. The celebration was given by their son and daughters and was held at the home of their daughter, Mrs. J. Wesley Thurlow, Jr., of Slingerlands. Many friends and relatives were on hand for the celebration, including out-of-town guests from Glens Falls and Ilion. Mr. and Mrs. Southwick were married in the First Presbyterian Church, Lake George, New York, August 24, 1921. Mr. Southwick is a native of Slingerlands and Mrs. Southwick, of Albany. After their marriage, they moved to Glens Falls, where Mr. Southwick was employed by the Glens Falls Insurance Company for 47 years, until his retirement in 1960. They now reside in Clearwater part of the year and summer in the area.

Senior Life Saving course, co sponsored by the Bethlehem Recreation department and the Northeastern Division of American Red Cross chapters, will open with a classroom session Thursday evening at 7:00 P.M. at the Bethlehem Central high school.

The course, open to men and women 15 years of age and older who are good swimmers, will be held for eight Thursday evenings from 7 until 9 P.M.

James Bolger, former Brockport swimmer, and James H. Carnahan, director of health and safety for the American Red Cross, will be the instructors.

This course will be followed by a water safety course for those who want to teach swimming and life saving.

**THE OWNERS OF 144,000** snowmobiles in New York State are going to face the matter of renewing the registration of their machines this winter, but actually they'll have no problems in the procedure.

"It is just as simple as renewing the registration of the family car," said Jim O'Brien, Director of Marine and Recreational Vehicles. "The form was deliberately made similar to the car registration form. The major concern of the snowmobile owner should be to send in the renewal stub from his present license."

The renewal stub, which must be returned with the application, is the left hand portion of the present license. It is identified by the word "renewal" printed in the upper left hand corner and by "Part I" in the lower right hand corner.

**AN INTERESTED** and appreciative group viewed the prints and slides at the annual Open House of the Delmar Camera Club which was held Sept. 28. Members gave explanations of their work, describing locations of the pictures, and giving information about the travelogues.

**THE 1972 UNITED FUND-Red Cross Joint Appeal** fund campaign officially opened today at 8:00 A. M. with a "kickoff breakfast" at Valle's Restaurant.

Arthur J. Leonard, campaign chairman, told a spirited gathering of Division Chairman and workers that the Joint Appeal drive to raise a total of \$2,299,066 for 33 voluntary agencies was off and running.

Leonard was pleased to report that advanced returns totaled \$687,373 or 29.9% of the overall goal. Leonard stressed that although this was a fine start, an all out effort on the part of everyone was essential during the next 4 weeks if the Joint Appeal is to be a success. He added, "Every member of our community must pledge his or her Fair Share contribution if we are to succeed."

Mayor Corning was among the first to give his Fair Share contribution to the Joint Appeal effort.

At the "kickoff breakfast" representing the United Fund was Prentice J. Rodgers, president of the board of directors and representing the American Red Cross was J. Spencer Standish, chapter chairman.

Reports on the progress of the campaign will be made to the public on October 5, October 13, October 21. The campaign will close on October 29.

RESIDENTS of the Town of Bethlehem will have a first-

hand opportunity to learn how their water supply is drawn from its source, treated and distributed when Water District #1 opens its doors to the public it serves on October 16 and 17, 10:00 A.M. to 4:00 P.M. for tours, it was announced by Supervisor Bertram E. Kohinke.

The tours, according to Mr. Kohinke, are part of the Water District's participation in "Town of Bethlehem Water Week," a special period set aside this year from Oct. 11-17, to focus attention on the completion of the new additions to the water purification facilities on New Salem South Road, New Salem, New York. For your inspection will be the new addition with its up-to-date sophisticated equipment and electronic devices that will help double our present production to keep well ahead of the population growth in Bethlehem. Our progress has put the Town of Bethlehem in an enviable position and is a sure indication of putting the tax dollar to work.

Mr. Kohinke said, "We feel it is important to let the public see what is being done now, and what is being planned to insure that our water supply remains at its present quality, but improves."

The FAST System went into full operational use on September 1. Initial development was undertaken last winter under the terms of a contract awarded to Ocean Data Systems, Inc., headquartered in Washington, D.C., with major offices in Albany. Originally formed to provide specialized computer information, and management services to the ocean community, the scope of ODSI activities has since been significantly extended through the formation of wholly-owned subsidiaries and the

addition of an interdisciplinary professional staff. ODSI, under the leadership of De. Jerome Morenoff, is now providing advanced management and information services to meet human and social needs in fields ranging from ecological analysis and environmental planning to drug abuse control and the development of financial management and cost accounting systems.

Enhancements to the FAST System will be incorporated over the months ahead by a joint team of First Albany-ODSI personnel. Meanwhile, daily operations are performed

### Look what we found! IN THE MAILBAG

Dear Sir:

For months now, many of the people who signed the petition for a traffic light on the corner of Kenwood and Elsmere Avenues have been asking what has happened.

Today, I received the reply from the Department of Transportation, and as many said it would, the answer in brief says no traffic light and gives the reasons. Rather than quote from it, I have enclosed the letter itself.

I am curious to know how the more than 500 people who signed the petitions feel about it.

Sincerely,  
Joseph A. Constantino

Mr. Joseph A. Constantino  
46 Harrison Avenue  
Delmar, N.Y. 12054

RE: Albany County  
Town of Bethlehem  
Rt. 335, Elsmere Ave.  
& Kenwood Ave.

Dear Mr. Constantino:

We have completed an exhaustive study of subject intersection as promised in Commissioner Parker's letter of March 2, 1971 to you.

Our traffic volume counts do not show sufficient traffic to warrant a signal. We recognize your dissatisfaction with the fact that the counts were not taken during days when school was in session. We also recognize and have data from a previous study showing the effect of school traffic on the traffic volumes. The school traffic does have a noticeable

effect on the volumes, however only for approximately two hours per day. Signal warrants are based on eight hours per day.

A review of the accident record shows three accidents for each of the last two years. Accident warrants mandate that five accidents per year of the type susceptible to correction by a signal (right angle) are required; this for the reason that a signal will generally cause an increase in accidents. Of the six accidents in two years, five involved cars southbound on Elsmere Avenue and at least four of these five involved westbound vehicles on Kenwood Avenue. This accident record is contrary to what might be expected since it involves the corner where sight distance is maximum and, therefore, indicates driver violation problem not a physical highway problem.

In conclusion, we do not find any way of justifying a signal at this location. Although initially the sight distance restrictions appear to be a problem, the accident record does not support this. We regret we cannot comply with your request, but we must be governed by the warrants which have been established through years of experience in traffic engineering throughout the nation.

The Division of State Police concur with our conclusion.

Very truly yours,  
FRANK J. FULLER

Transportation

# WHO DEFENDS THE VICTIM?

If you are accused of a crime, the court may appoint an attorney for you, or you can hire your own lawyer to defend you. If you have the money, you can retain the best lawyer in the country. But if you are the victim of a crime, who will defend your side?

The District Attorney.

When the District Attorney is ineffective, the criminal has the advantage. Where does the victim stand then?

This situation exists in Albany County.

This is one reason why I am running for District Attorney. I have been an effective lawyer, and I will be an effective District Attorney.

Let's give the victims of crime an equal chance.

Sincerely,

# 2 PROCLAMATIONS AND A RESOLUTION

## PROCLAMATION #1

WHEREAS — October 3rd to October 9th has been designated as Fire Prevention Week, and

WHEREAS — the Town of Bethlehem Fire Department Officers Association, and the five Volunteer Fire Departments in the Town, will have a display of firemanic equipment — at the Delaware Shopping Plaza Friday evening, October 8th, from 6:30 to 9:30 P.M., and

WHEREAS — the residents of the Town of Bethlehem are very proud of our wonderful fire departments and of their members, and are grateful to them for the protection they give us, now

THEREFORE, I, Bertram E. Kohinke, Supervisor of the Town of Bethlehem, hereby requests and urges all residents of the Town to visit the display on Friday evening, so that they may see for themselves the fine equipment owned by our fire departments.

I do further publicly express my appreciation, and that of all of the residents of the Town of Bethlehem, for the unselfish and expert services performed so ably by the members of our Volunteer Fire Departments.

Bertram E. Kohinke,  
Supervisor

## PROCLAMATION #2

WHEREAS, the residents of the Town of Bethlehem are do

pendent for their health, comfort, and standard of living upon an abundant supply of safe, high quality water; and

WHEREAS, the future economic and social growth of this community is directly related to maintaining and improving our water supply facilities, and

WHEREAS, the Town of Bethlehem — Water District No. 1, has designated the week of October 11-17 as a period during which special attention should be focused on the vital role played by community water utilities; and

WHEREAS, the goal of water utilities is to provide better water for everyone — all the water people need when and where they need it:

NOW, THEREFORE, I, Bertram E. Kohinke, Supervisor of Town of Bethlehem do hereby proclaim the week of October 11, 1971, as

**TOWN OF BETHLEHEM  
WATER WEEK**

and sincerely urge all citizens

to join with me in seeking a wider understanding of the contributions, the services, and the future needs of the Town of Bethlehem Water District No. 1 and in lending our aid toward achievement of its goals. You are invited to an open house at the Water Purification Plant on New Salem South Road, New Salem, N.Y., between hours of 10:00 A.M. and 4:00 P.M. on October 16 and October 17.

## Resolution relating to What's Right With America Week.

Introduced by: Mr. Segur

Whereas The United States of America is, by the grace of God, in the 196th year of Freedom and Independence, and

Whereas The United States of America has for 195 years lifted her lamp beside a golden door for the tired, the poor, the huddled masses, the vigorous, the wealthy and the toiling labor of field and factory, and

Whereas The United States of America, and All her Peoples, have enjoyed the more perfect union, justice, domestic tranquility, security, general welfare and blessings of Liberty ordained and established by the Constitution of the United States of America, Now Therefore, be it hereby

Resolved:

Section 1: That the week of October 10 through October 16, in the 196th year of our Independence, is and shall hereinafter and forever more be known as What's Right With America Week.

Section 2: That the officials and people of the Town of Bethlehem shall, during What's Right With America Week, consider and decide among themselves and recall to mind and memory the many things that are right with America.

Seconded by: Mr. Williams

Ayes: Messrs. Kohinke, Williams, Corrigan, Segur

Nays: None

Abstentions: None

Absent: Mr. Johnston  
TOWN BOARD, TOWN OF BETHLEHEM

ONCE A YEAR the firemen throughout the area go all-out to make everyone a little extra-conscious of fire and its prevention. This is Fire Prevention Week and as a part of the many scheduled activities, there will be a display of firemanic equipment at Delaware Plaza tomorrow night (Friday) from 6:30 to 9:30. Instrumental in this year's plans are, left to right, Jesse F. Turner, Jr., 1st Assistant Chief of the Delmar Volunteer Fire Department and Chairman for Fire Prevention in the Town of Bethlehem; Bethlehem Supervisor Bertram E. Kohinke who issued the Proclamation; and Norman Kellerman, Assistant Chief, North Bethlehem Volunteer Fire Department and President of the Town of Bethlehem Fire Officers Association.

# AETNA'S SAFE DRIVER MEDAL.

If you have a safe driving record, we'll reward you with savings on your auto insurance.

Having a good driving record should be worth more to you than simply a warm glow of self-satisfaction.

Now it is. Because Aetna has recently introduced the Auto-Rite policy in this area—a policy especially designed for safe drivers. If you have a good driving record you're eligible for our lowest rate.

Auto-Rite saves you money. But it's not a trimmed-down, minimum-coverage policy. Far from it. You can get a full range of coverages, including liability, collision, fire,

theft and comprehensive, medical payments, bail bond and emergency road service. Liability limits are available up to \$500,000.

Auto-Rite brings you something else. We mean Aetna's countrywide claim service, and its reputation for fast action and fair play. And we'll back that up with our agency's personal service and attention.

Come in and tell us about your good driving record. You'll like what we tell you about Aetna's Auto-Rite policy for safe drivers.

# CLEAR, COOL WATER

## The Story of the Water Supply of the Town of Bethlehem

by Allison P. Bennett, Town Historian

In these days when the demands for water have caused serious concern here, and indeed around the world, we are most fortunate in Bethlehem to be in possession of an adequate water system. This good fortune did not just happen by chance, but is due to the inventiveness and foresight of many of our local citizens and our town government.

In 1902, William Henry Slingerland, a civil engineer and surveyor in the Town of Bethlehem, organized the Suburban Water Company, and supplied water to the village of Slingerlands. He lived in the big white Victorian house directly behind Sanders' gas station at the junction of Kenwood Avenue and New Scotland Road. At this time almost every home in the village of Slingerlands was occupied by a Slingerland family or their immediate relatives. John I. Slingerland, a prominent State Legislator, had lived in the house where the Zimmerman's now reside at 1575 New Scotland Road. Cornelius H. Slingerland's home was at the end of Mullens Road, and he was the owner of the Slingerlands Printing Co. The brick house now owned by the Ouderkirks near the railroad overpass was a hotel and residence, owned at one time by a Slingerland, and Leah Slingerland Haswell and her father, Albert I. Slingerland, built the five Victorian style homes along Kenwood Avenue, across from the D and H railroad tracks, near New Scotland Road. Albert I. Slingerland was also responsible for the building of the Slingerlands Community Church. Dr. Guest's home, as well as Dr. Kiley's home on New Scotland Road were also Slingerland properties. The Dudley Mattice homestead was at 1580 New Scotland Road. Two Mattice sisters married two Slingerland cousins. Mrs. Dudley Mattice of Slingerlands has given me

much information and pictures to use in the preparation of this article and we are much indebted to her for her assistance. William Henry certainly had a ready made market for the water which he provided for his "Family."

This water came from a spring in the Helderbergs above New Salem and from the Martin Spring Farm at New Salem. The water from the spring in the Helderbergs flowed by gravity to the Martin Spring Farm, where a pump had been installed. The water was pumped from there to a reservoir which had been constructed above New Scotland. From there the water again flowed by gravity to Slingerlands. At this time there was no chlorination and only five fire hydrants on the system. These hydrants were located, one in New Salem, New Scotland, and Font Grove and two in Slingerlands. A great deal of the time there was not pressure enough to get water upstairs at the time when many were using it. In some cases, individual pumps had to be installed to get the water from the main, particularly if the house stood on a hill. Originally, the water line went only to Slingerlands, but after a few years, small pipes were

laid along the main streets of Delmar and Elsmere, and a hydrant installed in Delmar.

As time went on, George Slingerland, son of William Henry, took over the management of the Water Company from his father. He had two children, William and Grace. At the death of her father, Grace assumed charge of the company. She was a graduate of the School of Architecture at Cornell University, Class of 1899, and although she never married, she desired a home of her own and accordingly designed and had built for her own use the home at 1592 New Scotland Road. By this time the Tri-Village area was growing and developing and the small pipes and short lines were proving to be inadequate to service the people who wanted to be included on the water line. Therefore, in 1927, Water District #1, Town of Bethlehem, was formed and the Suburban Water Company was purchased from the Slingerland estate. Also, the Martin Spring Farm, which had previously been rented, was purchased from the owner. Following is a list of the original stockholders of the Suburban Water Company:

Also, Leslie Allen, Est., Frederick R. Green, Mary A. S. Mullens, Marshall Latcher, Elizabeth Latcher, Florence Slingerland, Harold B. Slingerland, William P. Slingerland, Edw. J. and Elsie S. Slingerland, Nathan M. Medwin.

At the formation of Water District #1, a Superintendent was appointed, and in 1928 a contract was let for the purpose of laying new pipe lines and installing hydrants for adequate fire protection. Twenty-eight miles of new pipe was laid and a water standpipe was erected in Elsmere to maintain an adequate supply regardless of the number of people drawing water.

In the spring of 1929 the Martin Spring was developed with a new spring and infiltration basin. A new pump-house was built and a few years later, two new pumps were installed, as well as two chlorinators — one at the Suburban Spring and one at the Martin Spring. A resident Superintendent was then employed to live at the Martin Farm and take care of the pumps, chlorinators, and the maintenance of the lines in the District. Under the Suburban Water Company, the system had been partially metered, but with no degree of regularity. When the Water District was formed, a completely metered system was maintained with a flat rate based on the amount of water used. It was the job of the Superintendent to read these meters quarterly.

# Wandering & Wondering . . .

**ALTHOUGH IT MAY REQUIRE** pictures and tape recordings to convince the "establishment" — we smile (a little grimly, mayhap) at all the talk about pollution and its cures. It seems to us that most of the time we're feeding the horse internal medicine when all he needs is the stone removed from his shoe to cure his lameness.

Most of us drive cars: our number one polluter, according to many. Most of us have followed diesel trucks and buses and know that whenever the driver pushes down on the accelerator, great clouds of black smoke pour out. In 30 seconds one of these behemoths can put pollution into our air equal to 15 or 20 conventional cars. No columnists seem to take umbrage with those who are yelling the loudest about pollution or even bother to mention these facts.

These same monsters are guilty of another crime. The majority of them have exhaust and muffler systems that allow their noise to outdistance the hot rodder who has modified his system to make it noisier. Yet the "law" only seems to look for the teen-ager with a sports car, long hair and a beard. This combination seems to make him eligible for that ever-present "routine check."

It's quite possible that these over-noisy trucks are within the law as it is written. But we'll wager a week's income that a "routine check" would reveal overloading, faulty brakes, inoperative signal or stop lights or any of a dozen other infractions of existing laws.

We've heard the story (absolutely **NO** confirmation of its veracity!) that one operator of a fleet of dump trucks orders the drivers and loaders to overload them every trip, every day. A ticket from the "law" will cost \$25 in court; the extra revenue from the overload is many times \$25 in a single day!

We heard a young writer appearing on the David Frost Show recently say: "There is no justice in our courts." F. Lee Bailey, the famous defense attorney, appearing on the same program, agreed with him 100%.

Why?

We've always believed that money and "clout" are two of the principal ways to sway court procedure. Money for a good attorney or knowing the "right" people seem to be able to change the definition of the word justice.

We will not discuss the events at Attica with anyone. There are too many unknown factors that may be buried inside those walls forever! One glaring fact did come to light: Of the "hardened" criminals confined there, 85% (yes: eighty-five per cent!) were either black or Puerto Rican. Nobody, but nobody, can tell us that 85% of the so-called "hardened" criminals in the State of New York are black or Puerto Rican! Or are we whites allowed to go free for the same crimes that "harden" those with darker skin?

Somehow, we got far afield from pollution and noise. We had intended to tell you that there are other pollution sources that also seem to go unnoticed. For instance; the

manufacturing plant that belches immense quantities of coal-black smoke just before daylight and then appears to be only a "slight" polluter all during the daylight hours. We know that no one (in the establishment, anyway) will believe this. It may take infra-red film to record what we see with the naked eye — but we'll prove our point sooner or later.

Every week the **Spotlight** receives a number of releases from local, state and federal agencies on ecology, re-cycling and pollution with never a mention of those recorded here.

Every day trucks, buses and industrial plants continue to pollute without the publicity that might force them to clean up.

Why?

Have we suddenly come upon a herd of sacred cows?

## About Marion Camp:

Note: What is written here has absolutely nothing to do with the current political campaign or the November 2 election!

We know she's efficient, does her job and even goes out of her way to accommodate those who have business with her office. But there's much, much more to Bethlehem's Town Clerk. We've known Marion for some 25 years — but what we didn't realize was her ability to bring the same love and understanding to public office that has made her so outstanding prior to her taking her present job.

Marion Camp

You can visit a dozen area townships and nowhere will you come across another Marion Camp.

Over the past 40 years (as far back as we can remember), Bethlehem has always been fortunate in the people who ran this office — but, we still say, there's only one Marion.

This column is beginning to get the reader response we so earnestly hoped it would. From Paul D. Nelson, who sports a white-haired CREW CUT hairstyle: "Your recent observation of the long-er hair and sideburns on the 1971 political candidates (influenced, no doubt, by our youth), brings to mind something I read a few years ago:
