# The Light Touch

We always think the other man's job is easier than our own. And the better he does it, the easier it looks.

Most of us don't know *exactly* what we want, but we're darned certain we don't have it.

It seems a little ridiculous now, but this country was originally founded as a protest against taxation.

The man who can, but doesn't, must give way to the man who can't but tries.

Horse sense is what keeps horses from betting on what people will do.

DON'T MISS THIS

# Here's an electrical safety quiz for kids that most parents can't pass.

Many electrical accidents involving children could be prevented by teaching them to recognize and avoid dangerous electrical hazards.

So we designed this little quiz to test your children's knowledge of electrical safety and to teach them to avoid some of the more dangerous electrical hazards.

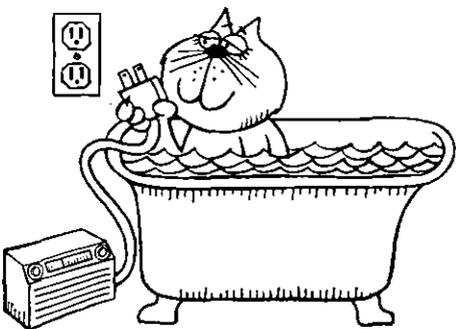

Before having your children take this quiz, try it yourself. It's not as easy as it looks. (Answer "True" or "False" to all questions.)

**Q. Never fly a kite near electric power lines because it's against the law?**

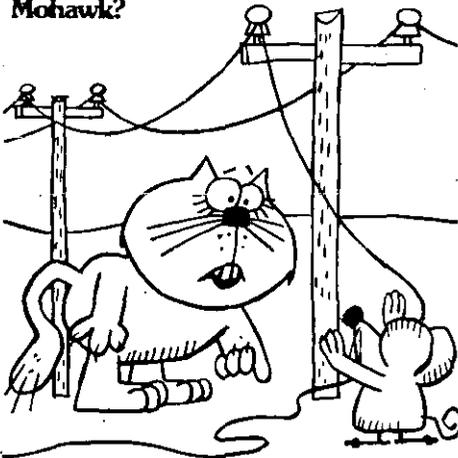

A. False. Although it's not against the law, flying a kite near electric power lines is extremely dangerous. If the kite gets snagged on a line, and if the string is wet, or it's a damp, wet day, you may get a nasty shock. A good safety rule to remember: Always fly kites in open fields away from electric wires.

**Q. When you're in the tub or shower, you can plug in a radio as long as the radio is turned to the "off" button?**

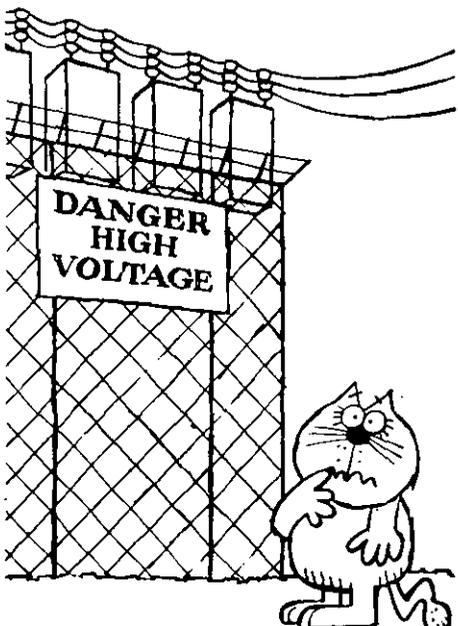

A. False. Always avoid touching electrical appliances when your hands are wet, or when you're standing on a wet floor. Remember to keep electrical appliances well out of reach when you're in the tub or shower.

**Q. If you spot a downed power line, the first thing you should do is poke it with a stick to see if it's "live," then call the nearest office of Niagara Mohawk?**

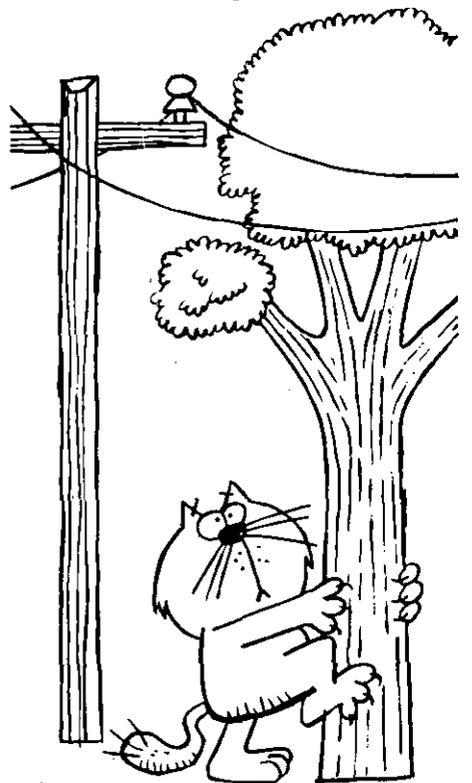

A. False. Never under any circumstances touch a downed power line. The first thing you should do is call Niagara Mohawk and give the location of the fallen line. Then, stand by until help arrives, warning others away.

**Q. The sign "Danger—High Voltage" on Niagara Mohawk substation fences means the fence is electrified?**

A. False. The warning signs and the high fences are there for just one reason. To keep everyone away from the high-voltage equipment on the other side of the fence. It's not even necessary to touch the wires on a high-voltage line or equipment in a substation to be injured; just getting close can cause an arc—a blinding flash—which may inflict severe burns. When this happens high on a pole or tower, the flash can cause a fall which in itself may cause death or serious injury.

**Q. Since wood is a poor conductor of electricity, it's not dangerous to climb trees near electric power lines?**

A. False. While it's true that wood is a poor conductor of electricity, people aren't. Occasionally, power lines run through the tops of trees, and you can easily mistake a wire for a branch.

A passing score is having all answers correct. If your children missed some of the answers, go over the quiz with them again. Remember, having your children know and recognize all these hazards could one day prevent a needless accident.

# The Spotlight CALENDAR

## ABOUT THE CALENDAR

The information printed in this column is a FREE service to **Spotlight** readers. We neither charge nor receive any fee for publicizing these events. It is for this reason that we ask those who send in information to make sure that it is complete; we **cannot** (repeat: CANNOT) make weekly changes in running announcements.

Because the Calendar condenses the coming event in capsule form, it has become one of the most widely-read weekly **Spotlight** features. It was so designed to allow for more space for additional features. Therefore, organizations should **not** expect to find a duplication of facts in another place. If we were to run all of the events **twice**, we'd be cutting down on our available space and thereby defeat the whole concept.

**Tri-Village FISH** — Call 439-3578 for voluntary service — 24 hours a day the year 'round — offered by residents of Delmar, Elsmere and Milderlands to their neighbors in need of help in any emergency.

**GIVE & TAKE SHOP** — Staffed and stocked by the parishioners of St. Thomas' Church. Clothing for all seasons, all ages, all sizes, available to everyone. St. Thomas' Rectory basement (entrance between Church and Rectory), Mondays 9:30-11:30 A.M., Tuesdays 1-3 P.M., Thursdays 7-9 P.M., Saturdays 10-12 Noon.

**LIBRARY IS OPEN!**

You are all invited to come and see it!

The Bethlehem Public Library is now at 451 Delaware Avenue across from Verstandig's Florist. There is an entrance facing Delaware Avenue for those who are on foot or on bicycles and for those arriving in automobiles, there is a large parking lot in the rear of the building. You can enter the parking lot from Borth-

wick Avenue and then enter the building through the glass-doored back entrance.

As you enter the building, from either direction, you will find the corridor walls hung with a collection of photographs done by Florence Becker. The photographs provide a lovely introduction to the building; they are of places and people—wonderful places and fascinating people.

Mrs. Becker, the recipient of many photographic awards, is a graduate of New York University where she took the M.A. She has worked in the fields of publishing and advertising in New York City and Los Angeles and has travelled extensively. She has had exhibits on the West Coast and locally at the Albany Institute of History and Art and for former 327 Gallery. In the area of commercial photography, many of her prints are found in the publications of government and private industry. At present she is the President of the Delmar Camera Club, while also continuing her work in photography.

The Library is honored to have her photographs gracing its walls.

Please do stop in — to see Mrs. Becker's photographs — and to see the Library. You are all welcome!

Dear Sir,

On Tuesday, May 9, at approximately 1 P.M., I went to the State Capitol Building to listen to the Assembly members debate the abortion bill. I went to the large visitors' gallery located on the 4th floor and was told by the doorman that the gallery was filled to capacity. He then instructed me to go to the other side of the Assembly Hall where there are two smaller galleries and assured me I would be seated. Upon arriving at this destination I was told by the doorman that this gallery was also filled to capacity. I pled with the doorman to please let me in and I would stay only a few minutes and I would not mind standing. This I was allowed to do. To my great surprise upon entering the gallery, I found many empty seats in all galleries. In fact, in the large gallery where I was turned away in the first place, there were no

more than 10 to 15 people seated. I am sure this gallery holds at least 75 people. I sat there for 1 1/2 hours and during that time people were not allowed to enter and were left waiting in the hall like so many insignificant objects. They were told that the gallery was filled. This was not true. There were plenty of seats at the time.

My question, although it may be a naive one is: DOES ANYONE HAVE THE RIGHT OR AUTHORITY TO KEEP RESPONSIBLE-CITIZENS FROM ATTENDING THESE PUBLIC DEBATES IN A PUBLIC BUILDING IN A PUBLIC GALLERY TO LISTEN TO PUBLICLY ELECTED ASSEMBLYMEN

DEBATE PUBLIC BUSINESS??

Thank you,  
Ralph Piazza

Dear Sir:

Now that the baseball season is underway, I'd like to impress on the officers of the Tri-Village Little League that the people who live in the ball park area welcome the ball players. Right now, the Park looks great! — but in a week's time we will have papers all over our

place — and not only little people but big people as well will drop them. "Help Keep America Clean."

Two more things I'd like to point out: Our mail is delivered by Rural Carrier and every year, on Opening Day, cars will not only block our mail boxes but by parking on both sides, our streets are nearly blocked — and — this year, would you please turn down the excessive volume of the PA systems?

A PROPOSED school budget

for 1972-73 — which will not require school tax increases — has been adopted by the Bethlehem Central Board of Education. (Town of New Scotland school district residents will have slight tax increases because the equalization rate there has been lowered.)

A Budget Information Committee, composed of representatives from the community, has reviewed the budget and submitted a report to the Board of Education. The Committee endorses the budget and urges all district residents to vote for it on June 14.

Many communications methods are being employed to acquaint all school district residents with budget information. In addition to the Annual Meeting on June 13, a special meeting for discussion and interpretation

GLENMONT Elementary School pupils had the opportunity last

week to meet and talk with a real-live author of a children's book. Their guest was Mrs. Shirley Morgan Kiepper of Slingerlands, author of the recently-published "Rain, Rain, Don't Go Away," illustrated by Edward Ardizzone and published by E.P. Dutton and Company.

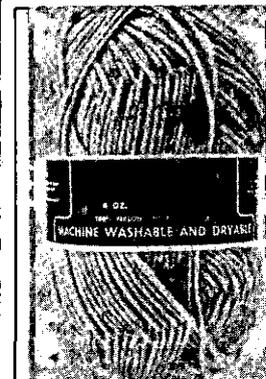

It is an annual custom at the Glenmont School to invite an author of children's books to visit pupils, to discuss his or her writing and all aspects of the work of an author.

Mrs. Kiepper, who uses the pen name Shirley Morgan, is a native of England. She is a graduate of the University of New Hampshire and earned a master's degree from the State University of New York at Albany. Among her ancestors are Anna Sewell, author of "Black Beauty," and Samuel Sewell, who kept a diary of colonial America.

COVER STORY

THIS ONCE-MIGHTY OAK has become a landmark only since it succumbed to the violence of Mother Nature. Years ago, it was a mighty tree in a meadow on the Van Derpoll farm, Route 9-W, almost across the road from the WROW transmitter. In

its prime, the tree was struck by lightning and the years subsequently eroded the dead wood until this is all that's left. Thousands of commuters pass the tree on the way to and from work, it remains silhouetted against the sky.

AN OVERFLOW audience of 224 people took part in the monthly Gourmet Cooking Class at the Golden Fox Restaurant in Albany, Thursday, April 13. Originated by the owners of the restaurant, the event was de-

signed not only to introduce the Golden Fox to homemakers in the Capital District, but also to provide a change of pace; fine food, interesting conversation, and something new in an elegant atmosphere, and at an economical price.

The afternoon began with a sampling of Isabel Rose, a Portuguese wine and a description of wines and their proper use, provided by Charles Morgenstern and Co., Inc., of Long Island. Next, as dinner was served, the chefs and bakers who prepared the various dishes explained step-by-step exactly how each item was prepared.

**Maybe the trouble with your heating system is it isn't a system.**

If your heating oil, your burner, and your furnace do not match, you don't have a system. This can be inefficient. And expensive.

That's why we perfected our own heating system. It starts with clean Mobil heating oil. Perfectly matched to the Mobil Thermo Jet burner that burns clean. Both matched to your furnace that's matched to the heating requirements of your home.

That's a real system. That's efficiency. That's inexpensive.

Auto insurance may never be the same around here again. Because we have something special to offer you: Auto-Rite, the policy for safe drivers. If you have a good driving record, we think you should get something out of it... such as a lower rate for your insurance. It's not only what you pay that'll come as a happy surprise. The real surprise is in how much

you get. Because Auto-Rite is not the trimmed-down, minimum coverage policy you might expect for the price. It's the opposite. It's quality insurance that can give you a full range of coverages. Liability — up to \$500,000. Collision. Fire. Theft and comprehensive. Medical payments. You can even have emergency road service.

You get another advantage: Aetna's country wide claim service. Take our word for it, it lives up to its reputation for speed and fair play. And naturally, our agency is always here to give you personal service and attention. Find out if you qualify for Auto-Rite. Let us quote you the facts and figures. # Wandering & Wondering . . .

**NOT TOO MANY PEOPLE** seemed to miss the mental lapses that usually fill these pages. To those who did: all winter we escaped the virus that landed all around — but not last week — somebody saved the strongest and meanest of them all — and then proceeded to put our name on it! While we may have been wondering, we did very little wandering, we can tell you!

. . .

**WE WERE SURPRISED** and very pleased to have been included on the list of friends Don DiBello called last week. Our big regret was that this area has to lose this man. His was a good-bye call as he prepared to move his family to the Seneca Lake section of NYS so that he can take over the duties of a new job with Farm Family Insurance. Good luck, Don!

. . .

**DISGUSTING, DEGRADING, JUVENILE!** Those words aptly describe some of the abortion discussion last week. That coat hanger demonstration was about the lowest form of debate we've

ever seen. Then, after the legislature had voted the repeal, there were those who condemned the Catholic Church because the Church pressured for an end to this legalized murder. Senator Manfred Ohrenstein and Assemblywoman Krupsak both publicly damned the Catholic Church for taking a stand. Maybe the Senator and the Assemblywoman are the ones who place the aborted fetus that lives up for adoption. What other reason is there to become disturbed when they are pressured to vote for morality as opposed to murder?

We didn't agree when our Governor was accused of lack of humanity in his refusal to appear at Attica. We thought the charge that he was indirectly responsible for the Attica slaughter was unfounded. Now we don't know what to think. That he supports abortion-murder is a known fact as he keeps repeating this fact over and over. His vow to veto the abortion repeal bill, thereby giving his approval to the slaughter of thousands of unborn babies, is grim witness of the callousness of this man who maintains a stand as an humanitarian.

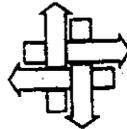

There must be a solution here. But first, it must be established when a fetus becomes a human being. Certainly, the 24-week pregnancy limit is **not** the answer. Instead of vetoing the only measure the legislature came up with, why don't the Governor and his Republican-controlled legislature get together on a bill that is acceptable to those who still retain a moral standard and what is medically correct? It seems to us that if our politicians fought just 10% as hard on the moral and legal issues as they do to appropriate millions of dollars, we'd have a much better run State of New York.

Time will tell whether progress has been made or . . .  
In the meantime, automobile insurance still climbs; the in-

insurance companies gather in the millions; our courts continue to be glutted with accident suits; the legislators turned their backs on any real solution. John Q. Public pays and pays and pays . . . We are not advocating the passage of a no-fault bill — but we are sure that there's a solution somewhere to this, one of the craziest situations in our society.

Thus, the Capitol Hill Clowns ready their return to the boondocks to spend the money they were paid to put on a sorry performance; the Ring Master is probably packing for a getaway to that ranch in South America. All will be forgiven and we'll vote to return the same cast of characters for future sorry performances.

**WE HAVE ONE MORE LETTER** on the abortion question and then we'll let it rest:

Dear Mr. Fuller,

In reply to Ann Eberle's thoughts on liberal abortion, May 4 Spotlight, Ann claimed the editorial was emotional and unrealistic. I wish to point out that her comments are lacking logic. I can agree with her idealistic goal of no unwanted children in the world. What a wonderful world in which to live. However, if being unwanted is license to kill another, what then of the unwanted husbands, wives, aging parents, handicapped, Jews, Catholics, Blacks, Whites, Protestants? Each of us can fit into one or more of those unwanted, unloved categories. The unwanted shall always be with us. Can we kill every unwanted human being? Better we should care for, and learn to live with them.

Regarding her population concern. The 1970 census clearly shows a decline. In 1968 we had the lowest birthrate recorded in American History. Wall St. Journal 1970 said: population projections for the 1970s show decline in growth rate. If we are to fulfill our duty to future generations we must stop **Now** legislation which permits taking the life of another. We all recall the story of Hitler. I honestly believe there are unwanted pregnancies, never unwanted babies. Adoption Agencies can attest to this fact.

While it is true, adoptive parents may never realize the mental anguish the mother endured, they remain in her gratitude for her gift to them. Moreover, that mother can live in peace with herself, recalling, even though she was unwillingly pregnant, she nevertheless gave her baby life and a loving family (adoption). It's twisted logic to kill an innocent babe for the crime of it's father.

One very important fact she failed to mention is that our government guarantees all of us the right to life, liberty and the pursuit of happiness. Liberal abortion clearly violates these three basic principles on which this country was founded.

Sincerely,  
Mrs. G. Matthews

...

**SOME FORTY YEARS AGO**, we had the distinct honor and pleasure of being allowed (infrequently) to play in the same dance orchestra with one of the finest musicians ever in the Capitol District; Dick Hartigan. We discovered that Dick's son, his wife and family are very much a part of the Tri-Villages. And from Mrs. Hartigan we learned that Dick (now in his 70s) is still active in music at the Veterans Administration Hospital in Albany.

...

**WE ALSO DISCOVERED** who wrote that unsigned letter we were talking about. The young writer had some second thoughts and decided that no good cause would be served if we published it. Whether we agree or not, we will abide by his wishes.

**A NOTE TO LUCY VERARDI:** recently we sent flowers to a very good friend who was confined to a hospital. We simply gave you the order, wrote the card and forgot it. Here is a part of the note we received from the recipient: "**Many thanks for the MOST BEAUTIFUL floral arrangement I have ever seen!**" You and your staff should be very proud, Lucy, of the happiness you bring with the tender loving care you put into your work. Thanks, from all of us, Lucy!

...

**YOU'LL FIND THE DETAILS IN THIS ISSUE:** Our congratulations to Walter J. Marvin of Delmar, on his appointment as assistant vice president of the Albany office of Merrill, Lynch, Pierce, Fenner and Smith, Inc. Walter is financial analyst for WRGB-TV, WGY and WHRL-FM radio — and Merrill Lynch is bullish on America! You'll find Walt's picture and story in this issue. Then there's L. J. Male who comes to this area from Chicago. He'll be at the Selkirk GE Plant with responsibility for the plant's air and water emissions which have been discussed in previous columns.
