The Spotlight CALENDAR

ABOUT THE CALENDAR

The information printed in this column is a FREE service to **Spotlight** readers. We neither charge nor receive any fee for publicizing these events. It is for this reason that we ask those who send in information to make sure that it is complete; we **cannot** (repeat: CANNOT) make weekly changes in running announcements.

Because the Calendar con-

denses the coming event in capsule form, it has become one of the most widely-read weekly **Spotlight** features. It was so designed to allow for more space for additional features. Therefore, organizations should **not** expect to find a duplication of facts in another place. If we were to run all of the events **twice**, we'd be cutting down on our available space and thereby defeat the whole concept.

You haven't been to Niagara Mohawk's Progress Center even once?

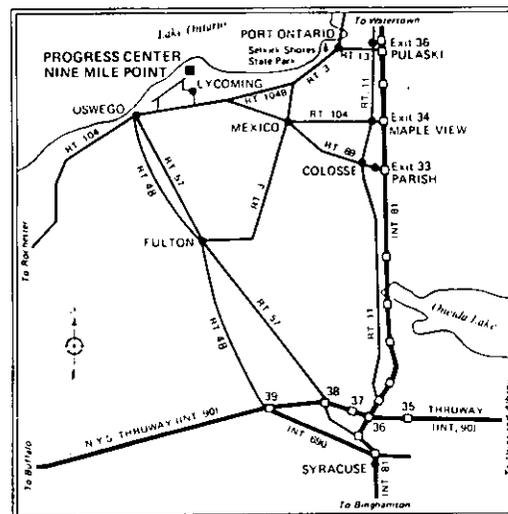

There are many people who have visited Niagara Mohawk's Progress Center on Lake Ontario, six miles northeast of Oswego. And then, they have returned again, usually bringing their friends and neighbors to enjoy this exciting, unique tour.

The handsome Progress Center building, with exterior walls made of 400-million-year-old stone, houses the largest, exact-scale replica of a nuclear-electric station ever built in the United States. Eight feet high and nearly forty feet long, this model comes to life with lights and sound effects, showing how the actual counterpart produces electricity. Then there's the Center's eerie Fission Chamber. Visitors feel like they're floating in outer space as a lifelike chain reaction is unleashed. The Progress Center tour also includes a thrilling show that tells the story of electricity from the first waterwheel generator to the generator powered by the atom.

There's lots more to see, and it's all free at the Progress Center. Visiting school and college classes and other groups are welcome to reserve and use a fully equipped classroom as part of their tour program.

The Center is open from 10 a.m. to 5 p.m., Tuesday through Saturday; noon until 6 p.m., Sunday; and is closed on Monday.

You'll learn a lot you never knew about electricity and atomic power.

ter at Vermont College, Montpelier, Vermont.

Lynda is a senior at the college, and she attained an academic average of more than 85 with no mark below 75.

TWO BETHLEHEM Central graduates have recently distinguished themselves in the field of music. David Langlitz, a 1971 music major at Bethlehem Central, has been selected to play trombone in the orchestra for the "Opera Festival of the Two Worlds," under the direction of Thomas Schippers, a conductor for the Metropolitan Opera House in New York City and New York Philharmonic.

The "Opera Festival of the Two Worlds" will take place in Spilletto, Italy, with Gian Carlo Menotti as the organizer, and the Westminster Choir of England will provide the choral assistance.

Langlitz has just completed his first year of study at the Juilliard School of Music, and is the second Bethlehem student to have received this distinction and honor. The first was Nancy Steltman, daughter of Mr. and Mrs. Charles

Steltman, 17 Ridge Road, Delmar, who is currently a junior at Juilliard.

Peter Harvey, another 1971 Bethlehem Central music major, has been selected to play with the "American Wind Symphony," under the direction of Austin Boudreaux. This is a select group of college musicians who will tour the Eastern seaboard states performing concerts and providing music clinics for college level and beginning instrumental students. Harvey has just completed his first year of study at the New England Conservatory as a trombone major.

MRS. BARBARA Scott Taylor of Delmar received the Bachelor of Arts degree from Keuka College in commencement ceremonies June 11. Mrs. Taylor is the daughter of Mr. & Mrs. Philip Scott, One Center Lane.

THE FOLLOWING is a statement from the Bethlehem Central Board of Education:

"We would like to express our appreciation and gratitude to residents of the Bethlehem Cen-

tral School District, for endorsing the proposed school budget for 1972-73 last week. Since this is the first time in recent years that district voters have approved a proposed school budget in one election, we sincerely hope this reflects a renewed confidence in our efforts to operate a school district of high educational quality without overburdening district taxpayers.

"Our thanks to all members of the community who showed their interest and concern for the education of our young people by voting in the annual election."

KENNETH B. SEGEL, son of Mr. & Mrs. Raymond Segel, was graduated on June 4 from Alfred University with a Bachelor of Arts degree in Political Science.

He is a member of the Blue Key National Honor Fraternity and Pi Gamma Mu the National Social Science Honor Fraternity. He spent his junior year abroad as a student of the Overseas Study Program at Tel Aviv University, Israel.

In September he will enter the Chase Law School, Cincinnati,

Ohio.

VOTERS IN THE Bethlehem Central School District approved a proposed \$8.9 million budget by about a 4 to 1 margin in the annual school district election held last Wednesday.

The vote total on the school budget was 2,016 yes votes and 527 no votes.

Mr. Bernard E. Harvith was elected to the Bethlehem Central Board of Education, defeating 15-year incumbent Mr. Ralph A. Holmgren. Harvith garnered 1,674 votes to Holmgren's 1,083.

This is the first time in four years that a school budget adopted by the Board of Education has been endorsed by the residents in the regular annual election. The school district has been operating on a contingency budget during the past two years. (A contingency budget contains only items designated as mandatory by the State Education Department and does not require voter approval.) While district residents rejected the proposed budgets of the past two years, they did approve optional budget items

such as transportation and inter-scholastic athletics in later votes.

School officials attribute the passage of the 1972-73 budget mainly to the fact that it will not increase school tax rates for residents of the Town of Bethlehem. The rate will remain at \$106.43 per \$1,000 of assessed valuation.

Because the equalization rate has been lowered from 17 to 16 per cent in the Town of New Scotland, school district residents there will pay school taxes at the rate of \$152.99 per \$1,000 of assessed valuation. This represents an increase of about \$9 per \$1,000 over the 1971-72 school year.

The 1972-73 school budget totals \$8,910,322, which is about a 4.7 per cent increase over the 1971-72 contingency budget. Most of that increase, however, will be offset by increased revenues. Some administrative reorganization and minor staff cuts helped make possible the no-tax-rate-increase budget.

DAVID A. ENGEL, son of Mr. & Mrs. H. M. Engel, Slingerlands, was graduated Cum Laude from Union College on June 10. Mr. Engel, who completed his degree requirements in three years, is a graduate of Bethlehem Central High School. He has been accepted at Albany Law School for the Fall term of this year.

KATHY O'TOOLE, daughter of Mr. and Mrs. Daniel F. O'Toole, 89 Kenaware Avenue, Delmar, has completed her Junior year at SUNY at Oswego, New York.

A 1969 graduate of BCHS, Kathy was on the Dean's list for academic achievement for her entire Junior year.

Patti O'Toole, daughter of Mr. and Mrs. Daniel F. O'Toole, 89 Kenaware Avenue, Delmar, a 1971 graduate of BCHS was voted Miss Freshman of Morris Harvey College, Charleston, West Virginia.

HELEN LYNQ WHITE, Senior Research Pharmacologist at the British-American Company of Burroughs-Wellcome at Research Triangle Park, North Carolina, has been honored with the Doris L. Crockett Award for Distinguished Alumnae at the annual

luncheon of the Alumnae Association held graduation weekend at the college in Troy.

With a B.A. degree Cum Laude, and with highest honors in Chemistry, she earned her M.S. from the University of Delaware and a Ph.D. in Biochemistry, with full membership in Sigma Xi, from the University of North Carolina in 1967.

Dr. White's contributions include two patents in the field of textile fibers from the Pioneering Research Division of E. I. du Pont de Nemours & Co. Her more recent work on the action of anti-tumor compounds, enzyme mechanisms, and enzyme inhibitors may become clinically useful in the treatment of various illnesses.

Author of numerous papers and a speaker at national meetings and collegiate seminars, Dr. White has been cited by her Alma Mater for "her versatility, and her contributions toward progress in the alleviation of human suffering."

The Crockett Award was instituted in 1959 in honor of former Russell Sage College Dean Doris L. Crockett.

Helen Lyng White is the wife of Dr. James R. White, and the mother of two children. The White's reside in Chapel Hill, North Carolina.

The Carnahans have twenty-six years of experience guiding wilderness canoe trips throughout the Northeast, Midwest and Canada.

The summer will be concluded by a seven-day wilderness trip down the Allagash River in Maine over the Labor Day weekend. This trip will be for experienced trippers only and will be limited to twenty people.

THE ALBANY Jewish Community Center's Camp Shalom, the Center Day Camp, will feature a variety of project themes as part of its eight week program, the highlight being "Israel." Children in the camp will have an opportunity to engage in fun filled activities which will enable them to find out about the history, culture, religion, political structure and much more about this fascinating bastion of democracy in the Middle East. The project will conclude with an all Junior camp presentation by the children. They will engage in Israeli sports, dancing, songs, crafts, dramatics cook-outs, demographic and ecological programs and see an authentic Israeli song and dance troupe while working towards this final project.

Another theme will be "Hawaii," our 49th state, where the culminating program will be a luau. Again, songs, dances, sports, crafts and games representing the culture and history of this island state will be emphasized. In addition, the Junior campers will engage in sports tournaments with other day and overnight camps in the area. Daily swimming lessons are part of the camp program and there will be regular and special trips to enhance the themes.

The 6th and 7th graders will participate in a Sports Camp. Emphasis will be given to learning skills and participating in

FUNNY ABOUT BARGAINS. THEY USUALLY TURN OUT NOT TO BE SUCH BARGAINS, AFTER ALL.

Like bargain air conditioners, for instance. For a little more, you can get so much more—Kelvinator's best. It'll set you free. From summer and from the serviceman.

- Fine-tuning automatic thermostat. You set the temperature precisely where you want it.
- Finger-Tip filter removal. Drop-down front makes filter removal easy. You get cleaner, cooler air and more efficient operation.
- Bonus coil for incredibly efficient cooling.

Some turn one on. At your Kelvinator dealer's. You'll see, when you spend your money on Kelvinator's best, you get your money's worth. And after all, isn't that what really makes a bargain?

COVER STORY

FIVE RIVERS IS DEDICATED

A GOOD START: Deputy Environmental Conservation Commissioner Leighton Hope (left) welcomes Bethlehem Town Supervisor Bertram Kohinke to Flag Day dedication ceremonies at the amphitheatre of the Five Rivers Environmental Education Center. The amphitheatre is the first structure to be completed at the center and will be the scene of a summer program for area residents this year.

What Tri-City residents have known for 38 years as the Delmar Game Farm now has a new look, a new operating concept and a new name — the Five Rivers Environmental Education Center.

The 243-acre area, which has served conservationists in various capacities since 1933, takes its new name from the principle rivers that drain the Albany region — the Sacandaga, Schoharie, Hoosick, Mohawk and Hudson.

While the center stands on the site of what used to be a game farm, officials of the State Environmental Conservation Department emphasize that all ties with the past end there. A unique and broad concept — the study of man in relation to his total environment — governs Five Rivers.

When completed in about three years, the educational facility will feature a modern interpretation building with lecture rooms and an environmental library, an extensive nature trail system, forest and stream study areas, outside teaching pavilions, exhibits and picnic facilities.

Some 150 visitors to the Five Rivers Center during Flag Day dedication ceremonies on June 14 were the first to occupy the outdoor amphitheatre on the grounds, which was recently constructed by personnel from the Environmental Conservation Department.

Holt Bodinson, Director of Educational Services for the department, said that the amphitheatre will be the scene this summer of environmental education programs geared to both children and adults.

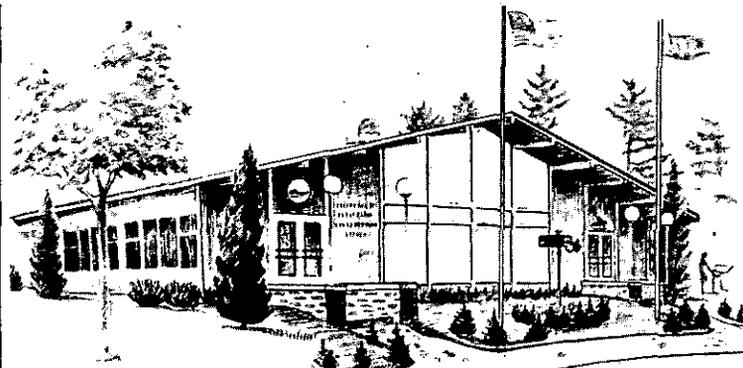

"The summer program is being scheduled in cooperation with Five Rivers Limited, a citizens not-for-profit corporation which is assisting in the development of the center. We expect to have a film and lecture program and possibly folk concerts with an environmental theme," he said.

Mr. Bodinson added that the Environmental Conservation Department is actively seeking suggestions from citizens on how the new facilities could be used to their best advantage. The Department is also encouraging area schools to use the center as part of their regular educational activities.

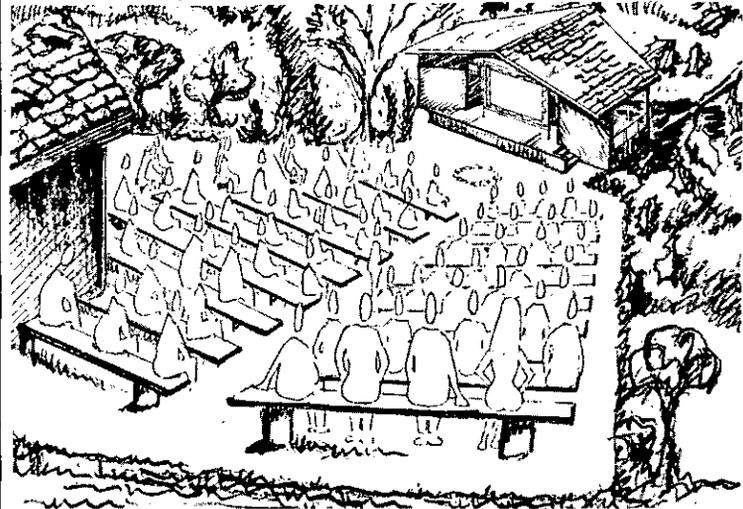

Five Rivers, with its extensive woods and many fields, ponds and streams, furnishes an abundance of different environments for study and demonstration. It is designed for use by persons of all ages as a means of learning both the basic and advanced concepts of ecology as they apply in the natural world.

Additional emphasis will be placed on subjects such as the community of man, the influence of nature and technology on the environment, and the future prospects of improving the quality of life.

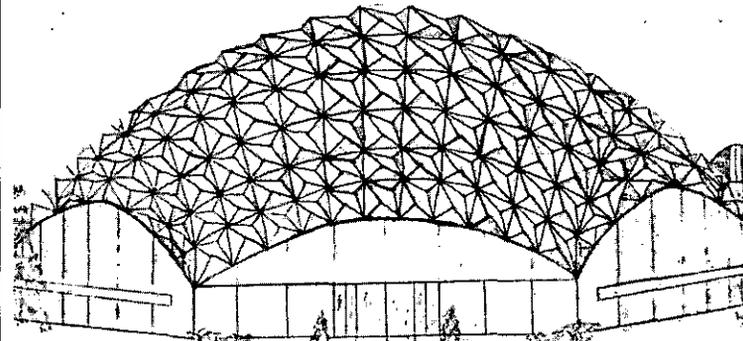

Environmental Conservation Department plans for the future also include the construction of a system of self-guiding nature trails. Hikers on the trails would use a printed guide to environmental phenomena that they would see at numbered stations along the way.

Proposed Planetarium and Classroom Building

A large marsh study area will be formed on the property by uniting three separate ponds, and nature study blinds will be constructed at strategic points so visitors may observe the wildlife that is natural to the Five Rivers Center.

"We will make extensive use of techniques to encourage the presence of wildlife here. Many species of birds and animals are commonly sighted on the grounds, and we will manage the property to increase their presence and visibility," Mr. Bodinson said.

The department and Five Rivers Limited is also considering the possibility of constructing a full-scale planetarium and observatory at the site.

Participants in the Flag Day dedication ceremonies at Five Rivers included Bethlehem Town Supervisor Bertram E. Kohinke, State Senator Walter B. Langley, and Deputy Commissioner Leighton A. Hope of the Environmental Conservation Department.

Also, Reverend Paul H. Gassman, Pastor, Bethlehem Lutheran Church, and Mr. Saul M. Caro, Board Chairman of Five Rivers Limited.

Wandering & Wondering . . .

PERHAPS THESE COMMENTS should have gone in our School column — but we thought they might better be included here. In that election held in the R-C-S School District on June 14, Jack Neeley was the winner with 313 votes — or approximately 28-1/2% of those who voted. Mr. Neeley could be in for a rather rough term of office since only a little more than 1 in 4 people agreed on his qualifications. It seems to us that there should have been a runoff in order to find out the will of the taxpayers. A school board member has a rough time even after receiving a majority of the votes. 28-1/2% is far from any kind of voter mandate.

The results of that election: there were 1422 voters registered; 1090 actually cast ballots. On the budget, 680 voted "yes," 376 "no," with 34 void ballots. William Powers, running unopposed, received a majority with 534. When a candidate runs unopposed, it's an easy thing to skip the single name on the voting machine — so, actually, Bill did very well! The other Board vacancy had a choice of five candidates, with these results: Jack Neeley 313; Mrs. Willa Jackson 261; Tim Stalker 252; Joseph DiPerna 161; James Mantor 81. This 5-way race was handicapped by lethargy on the part of the candidates. They made no effort (outside Ravena) to let the voters know where they stood; there was no personal contact; no media coverage of the district. It was simply a popularity contest with the voter almost completely in the dark. Less than 50 people unrelated to the district administration were present at the annual meeting. Between the lethargy of the candidate and the voter indecision, the months ahead may be interesting.

THERE'S A COMMUNITY CORNER COMING! We hope that all **eligible** organizations will take advantage of its service and use it extensively. The frequency of its appearance and its popularity with our readers will determine its future. Once more with feeling: we hope that our **eligible** organizations will watch for it and use it! How's that for being confusing? That's about all we can say until the official release is sent to us.

WE MOURN THE PASSING of one of our elementary school chums, Dorothy Birchenough Dearstyne. At the time we were classmates, Pine Hills was supposed to be the address in Albany and P.S. 16 was one of the best elementary schools. About the only permanent part of that Class of '25 is the old school. One by one, we are dropping by the wayside, but the old school seems to go on forever.

MISS SOFTBALL AMERICA . . . the new sports program for girls 9-15 . . . is underway. Last weekend 119 girls "signed up" during official registration. All girls who registered will be contacted by their team coach or manager

shortly with details. There are still a few openings on the team so contact Nan Richter 439-9490 before Friday if you'd like to play.

The new league is looking for Team Sponsors. Here's a real opportunity to get in on the ground floor while the league is being organized. For full details on "sponsoring" a team or being a "Booster" call Jean Frattura 462-1256. It's a smart new way for business-

men and women in Bethlehem to show local modern misses and their parents that you think they're great.

If you're a parent and interested in helping the new Miss Softball America program and you didn't sign up during registration, please contact Sally Abele 439-9121 to volunteer.

The league officers have already begun to obtain the playing equipment and to locate facilities for games and practice sessions. Look for an announcement of the date and location of Opening Day Ceremonies when you will hear the call "Play Ball."
