A good supervisor is someone who can understand those not very good at explaining and explain things to those who are not very good at understanding.

...

Overheard: "I'm so discouraged, sometimes I wish Noah had built the Titanic."

...

A schoolteacher's description of her first grade class: "It's like trying to keep 35 corks underwater at once."

## Rake with your lawn-mower

converts your rotary lawn-mower in minutes to a power rake and thatcher.

- Remove mower blade. Bolt precision-balanced RAKE-O-MATIC in its place
- Removes dead grass, lets lawn "breathe"
- Mulches leaves—saves back-breaking labor
- Eliminates costly power rake rentals

# WHY YOU SHOULD BUY A 1973

Right now everybody's telling you to buy a '72 — because it's year end clearance time. Not Orange Motors. Orange Motors says: Buy a 1973 now — and be way ahead of the game. Here's why:

There's been no price increase in the '73's yet.

Your '73 will be a year newer at trade-in time — and worth a lot more money to you — approximately 500 to \$1500 dollars more, depending on model. A '72 is almost a model year old when you drive it out of the lot.

Also, when you buy a '73 Ford at Orange Motors now, you can have your choice of colors, options, and model. You don't have to settle for . . . a leftover. Don't buy any 1972 until you get the Big "O's" price on a 1973. You'll be glad you did.

So go in to Orange now . . . look over the '73's . . . get your appraisal . . . and answer that one famous question:

*"What Color Orange Ford Do You Want?"*

# The Spotlight CALENDAR

## ABOUT THE CALENDAR

The information printed in this column is a FREE service to **Spotlight** readers. We neither charge nor receive any fee for publicizing these events. It is for this reason that we ask those who send in information to make sure that it is complete; we **cannot** (repeat: CANNOT) make weekly changes in running announcements.

Because the Calendar con-

denses the coming event in capsule form, it has become one of the most widely-read weekly **Spotlight** features. It was so designed to allow for more space for additional features. Therefore, organizations should **not** expect to find a duplication of facts in another place. If we were to run all of the events **twice**, we'd be cutting down on our available space and thereby defeat the whole concept.

**Tri-Village FISH** — Call 439-3578 for voluntary service — 24 hours a day the year 'round — offered by residents of Delmar, Elsmere and Slingerlands to their neighbors in need of help in any emergency.

**GIVE & TAKE SHOP** — Staffed and stocked by the parishioners of St. Thomas' Church. Clothing for all seasons, all ages, all sizes, available to everyone. St. Thomas' Rectory basement (entrance between Church and Rectory), Mondays 9:30-11:30 A.M., Tuesdays 1-3 P.M., Thursdays 7-9 P.M., Saturdays 10-12 Noon.

**Nathaniel Adams** Blanchard Post #1040, American Legion Auxiliary, meets third Tuesday of month except July & Aug., 8 P.M., Post rooms.

**Welcome Wagon** — Newcomers and mothers of new babies call 785-9640. Mon. thru Sat., 8:30 A.M.-6:00 P.M. so you may have a Welcome Wagon call.

**Bethlehem Memorial** Auxiliary to Post #3185, Veterans of Foreign Wars, meets the third Monday of every month, at the Post Rooms 404 Delaware Ave., Delmar.

**6:30 P.M.** every Wednesday: Community bike ride, about 1 hour; meet and start from **old** library.

**Bethlehem Historical Assoc.**, Rt. 144, Cedar Hill — Open every Sunday 2-5 P.M. Free.

**Trap Shooting** Nassau Sportsmen's Club, Boyce Rd., Nassau, every Wed., 7-11 P.M. Non-members welcome. Information: 766-2680 or 472-5178.

# MOORE'S TRADING POST

Bob Moore (l) explains the Remington 742 to customer Ed Tompkins of Athens, N.Y.

Proprietor Bob Moore checks the largest gun inventory in the East.

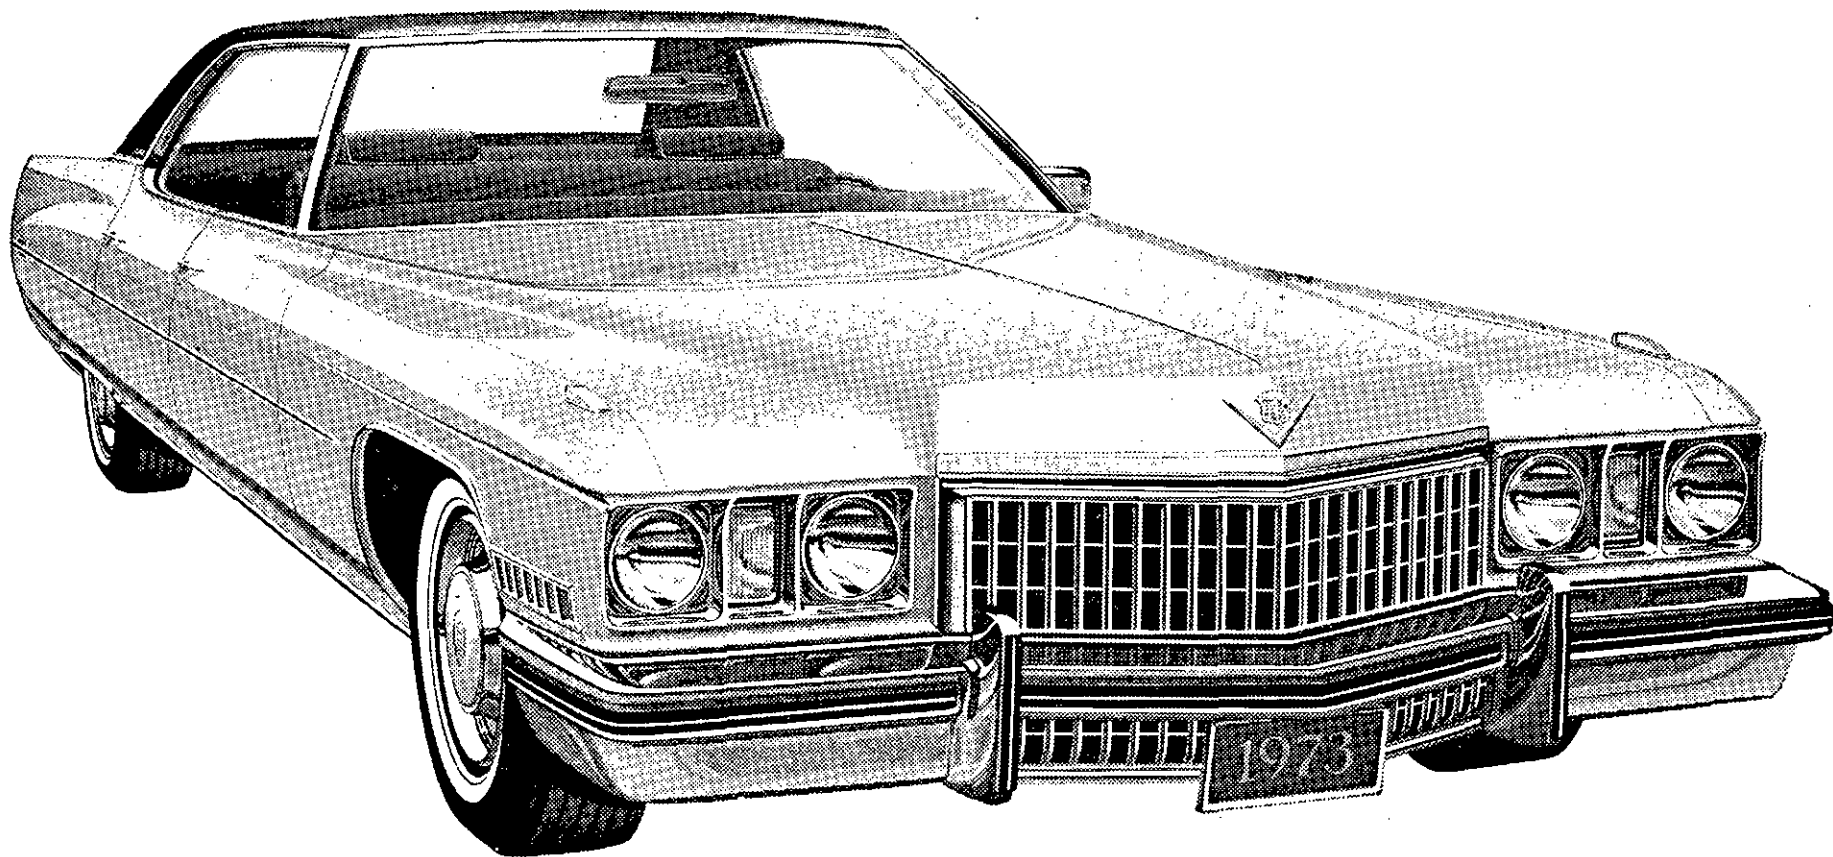

On this mezzanine, leather clothing and other leather goods are a specialty.

## COVER STORY

THE BIGGEST IN OUR AREA!

**THIS WEEK BOB MOORE** is opening his Trading Post in a new location — the new store is located just south of Ravena on Route 9-W, left hand side going south, next to the Hudson River Concrete plant and yard. One big reason you'll want to meet Bob and visit his new store is because he has by far the largest stock of sportsmen's needs in this area. Our cover picture and those on this page were taken by Louis Spelich.

# Cadillac presents the class of '73

The class. The style. And the grace.

Clearly, these are the most magnificent Cadillacs ever built. Not only for what you can see—the bold new exteriors and the plush new interiors—but as much for what you can't see.

You see here the sparkling new Sedan deVille,

than all other U.S. luxury cars have combined).

You see here the striking new styling outside—simpler, bolder, even more elegant for '73. You don't see the hundreds of innovations and refinements inside. To add new comfort and convenience. To make that great Cadillac ride

may add. Like a lighted vanity mirror. An outside thermometer. A lap robe and pillow. As well as a theft-deterrent system and steel-belted radial tires. And in the Fleetwood Brougham, crushed velour interiors in any of four colors.

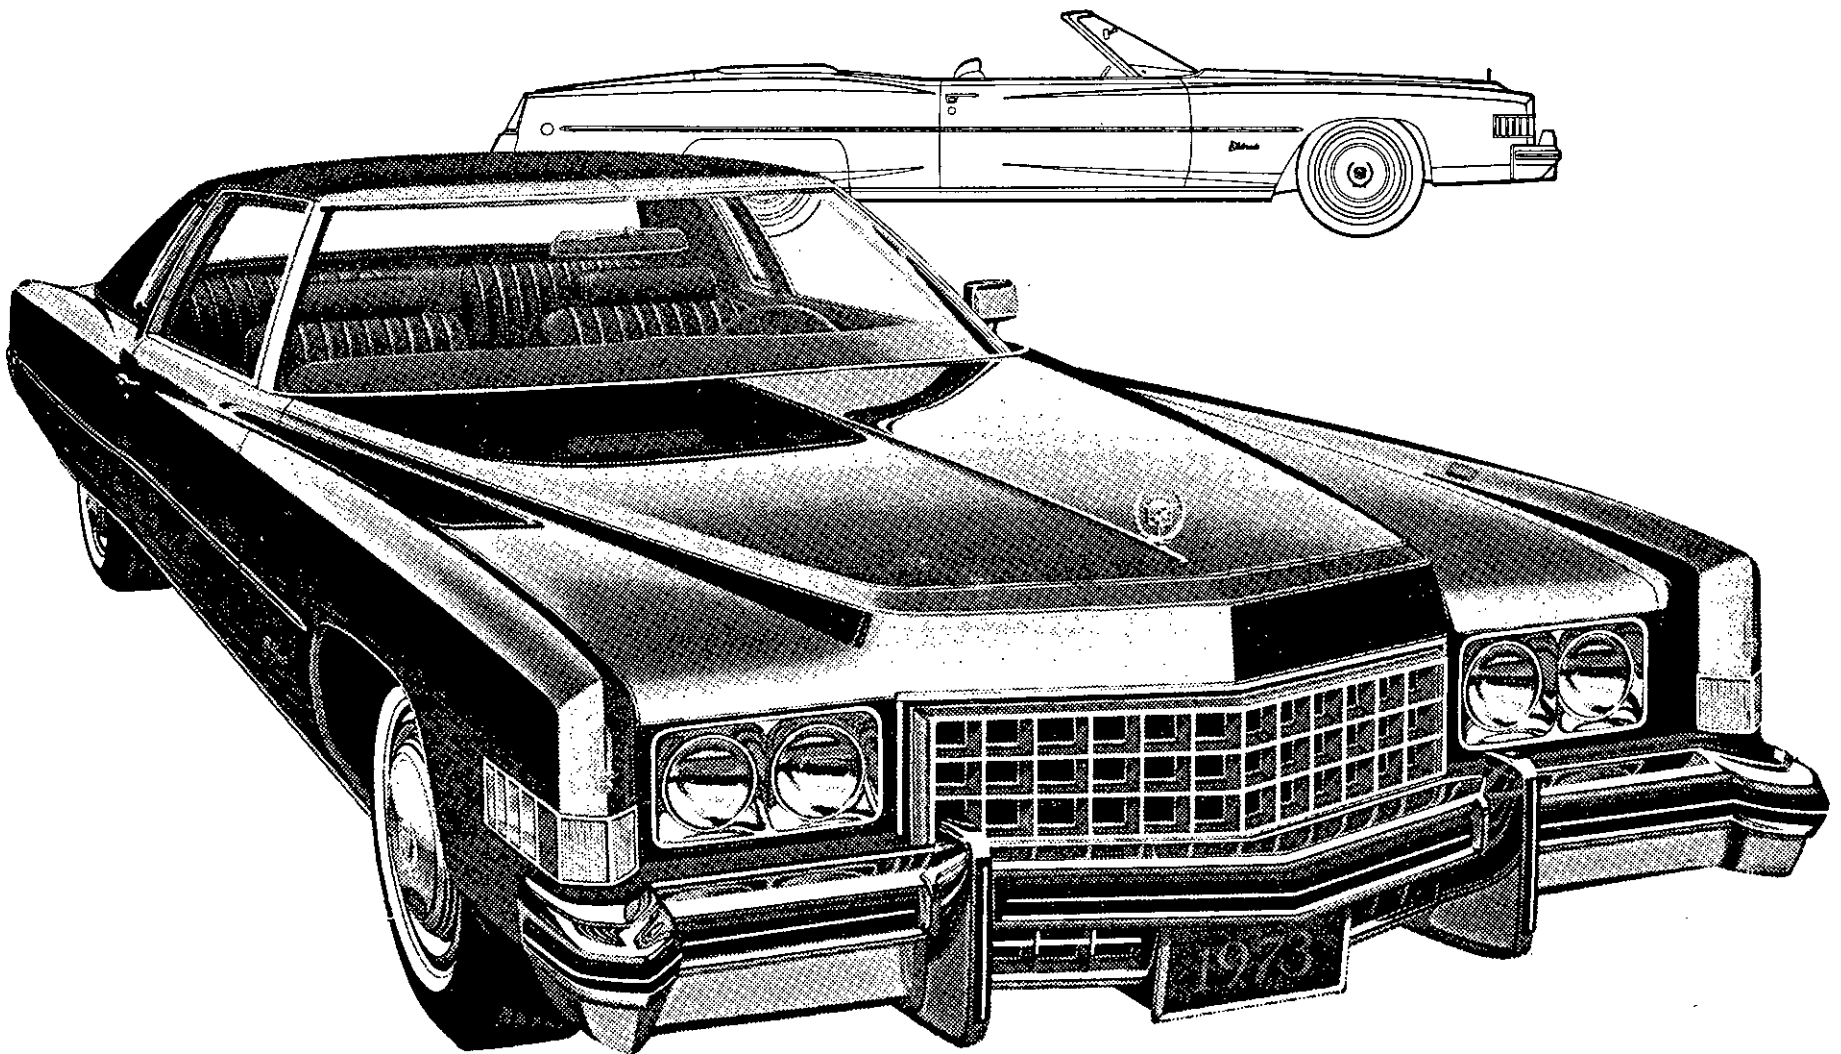

Clearly, you never had so many good reasons

see the six other new Cadillacs (more models

And you don't see the many new niceties you

The leadership shows.

## LIBRARY NOTES

**SINCE IT'S** Back-to-School-Month and all the students are hitting the books again, the Bethlehem Public Library thought it would be appropriate to have a display of book binding and book restoration materials. You will find this display in the glass case near the circulation desk.

The bookbinding information was provided by Mrs. Paul E. Houle of Delmar, the book restoration information by Mrs. Harry R. Bain of Glenmont, and the accurate miniatures of bookbinding equipment by Miss Gisèle Poullier. The display includes miniatures of such bookbinding necessities as a Press, a Sewing Frame, a Backing Vise, and Gold leaf. There are samples of the various leathers used and also of paper from the 15th, 16th, and 17th centuries. In addition to these items, there are 15 volumes which are examples of the types of bindings used for books. They are beautiful.

## BETHLEHEM AUXILIARY POLICE TOUR GE PLANT

**MEMBERS OF THE** Bethlehem Auxiliary Police recently toured General Electric's Plastics facilities in Selkirk.

Participating in the tour were Louis B. Hauf, Jr., Chief of the Auxiliary Police, and John C. Rapp, Assistant Chief. This is an organization comprised of citizens who volunteer their ser-

vices to assist the regular police force in times of emergency. The tour was made to familiarize the Auxiliary with the plant's safety and security procedures.

The two men are shown receiving hard hats, which G.E. donated to the force, from Bill Vivian, the plant's Personnel Manager.

## THE SPOTLIGHT

August 28, was made by D.R. Blanchard, Marketing Manager.

In his new position, Wester will be responsible for all advertising and sales promotion activities related to the marketing of Noryl thermoplastic resins.

He joined G.E. Plastics in 1970 as an Advertising Specialist with responsibility for all publicity, product literature, and promotional material.

Wester received his B.A. degree in English from LaSalle College, Philadelphia, Pennsylvania, in 1968. In the same year he joined the G.E. Advertising and Sales Promotion training program and was based in the company's Philadelphia News Bureau.

In 1969 he joined the GAC Corporation (Allentown, Pa.) where he was responsible for developing and executing a wide range of advertising and promotional programs.

Wester, his wife, Anna Marie, and their two children live in Delmar.

The deadline for Spotlight Classified Ads is Friday afternoon preceding publication the following Thursday.

THE SPOTLIGHT

What a work of art is the binding of a book!

**UNFORTUNATELY,** summer is over! Children are off the streets and back to school! That means it's time for the activities of the Bethlehem Public Library's Children's Room to begin. There will be something for everyone between the ages of 4 and 14 because a full program is planned. The pre-school story hours for 4 and 5 year olds will begin on Wednesday and Thursday, October 4 and 5. Registration for these story hours will be Wednesday, September 27, at 10 and Thursday, September 28, at 2. This is the only activity requiring prior registration.

Kindergarten Day will be Tuesdays with the story-time beginning at 10 for afternoon school-goers and at 2:15 for morning kindergarteners. It will last 45 minutes and be a time of fun: movies, stories, games, songs, and crafts.

There will be Story hour for first and second graders on alternate Wednesdays beginning October 4 at 4. This will be a time for just enjoying flannel board, stories, games, movies, crafts and songs.

On opposite Wednesdays from Story hour, beginning October 11, will be the famed Harriet-the-Spy Club for third and fourth graders. This is a club of mystery

and intrigue, of discussing books and playing games. It meets at 4.

Puppet Club, for fourth, fifth and sixth graders will meet every Thursday at 4 beginning October 5. We now have in the new library a special room for working on scenery and puppets and a stage on which to perform our plays for the public.

Young Critics is a creative writing club, but includes reviewing new books, writing stories, poems and plays and then going through the process of trying to get them published. This is for fifth and sixth graders and meets alternate Fridays starting October 6 at 4.

Curtain Raisers is the new club this year and will be for seventh and eighth graders. It is a dramatics club, beginning with fun type acting and moving on to serious plays for production. This will meet on October 13, and then alternate Fridays from then on, at 4.

We're anxious for many participants to take advantage of our new building's many facilities. If you have any questions, please don't hesitate to call Mrs. Harris, the Children's Librarian, at 439-9314.

**The Spotlight Goes to School**

**LINDA HERRMANN**, daughter of Mr. and Mrs. Richard Herrmann, 11 Dumbarton Dr., Delmar, was initiated into the Golden Key organization at Cottey College, Nevada, Mo., during a recent pinning ceremony on campus. Members of Golden Key, who are carefully selected from the second-year class, act as official guides for visitors to the Cottey College campus.

**THE BETHLEHEM** Central High School Business Department has added three new courses to its offerings this year, Merle E. Miller, Chairman, announced this week.

Mrs. Joanne Davies has begun teaching Machine Shorthand, Mrs. Mary T. Elliott is teaching Office Skills and Mr. Miller has 24 students enrolled in Personal Use Business Law.

The Machine Shorthand, using the Stenograph machine, is de-

Step aboard Albany's newest restaurant and step into the past for a good old-fashioned evening of riverboat fun for the whole family. You'll love this friend-ship of informality and mouth-watering Galley Treats like the Captain's Special — a giant sirloin steak for you and your First Mate — cooked to perfection, carved at your table and bedecked with crisp golden onion rings or a pan of juicy fried mushroom caps. Hoist your favorite drink while the kids dive into a Schooner Sundae. And when you see how old-fashioned our prices are, you'll want to make your first voyage the first of many.

## HERE AND THERE

**SMOR-GAS-BORD** from Swedish words smorgas: open sandwich, and bord: table. Meaning: a luncheon or supper buffet offering a variety of foods and dishes (as hors d'oeuvres, hot and cold meats, smoked and pickled fish, salads, cheeses and relishes).

Our thanks to Webster for his accurate if incomplete definition of what the Clarksville Community Church's Couples Club is again sponsoring this year.

On October 7 no one should miss attending as the Couple's Club proceeds to show Webster just what a great smorgasbord consists of when put on by experienced chefs.

Experienced? This will be the eleventh Smorgasbord the Clarksville Community Church has put on, and since the first "small" one of only a few hundred diners, it has grown yearly until it has now become a major event in the area.

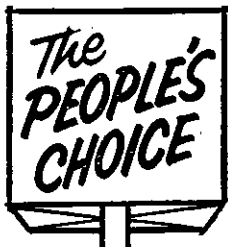

Webster failed to mention the appetizers, shrimp and fruit cocktails, soup, and juices. He did mention "hot and cold meats," but from that would you have considered a selection like: ham, turkey, roast beef, and Swedish meat balls?

And the salads: Potato, macaroni, salmon, not to mention all the gelatin salads, the baked beans, and the hot vegetables. Don't worry, the Couples Club is not about to leave out all those innumerable little goodies from Swiss cheese to picklet herring.

So as not to be too torturous, we won't even mention the dessert list.

Co-chairing this year's "feast to remember" are Mrs. Ralph Carpenter and Mrs. David Ingraham, and waiting to take your phoned reservations (because of the demand, it is by reservation only) are Mrs. Donald McKaig, 768-2358 for either the 4:00 or 5:15 sittings; and Mrs. Russell Udell, 768-2287 who is handling the 6:30 and 7:30 sit-

Tom, who is well-known for his activities with the Slingerlands Community Players, will talk on "The Businessman and Community Theatre," a subject dear to his heart.

**THE TOWN BOARD** of the Town of New Scotland at its regular meeting on Sept. 6, passed a bonding resolution for the purpose of renovation and addition to the Town Hall.

The resolution calls for an expenditure of \$25,000.00 from current funds and \$195,000.00 in bonds payable in ten years.

The total maximum amount to be spent on the project will be \$220,000.00 which includes furnishings for the new Town Hall.

The plans and a rendering are on display at the Town Hall for all residents of the Town to inspect. The plans provide for a larger meeting room, private offices for the Supervisor, Building Inspector, Assessor and Comptroller. The Town Justices will also have an office and there will be a conference room for general use by various departments.

A few years ago, the Town acquired more land to the side and rear of the present building in anticipation of expansion.

There will be a small parking

lot located to the left front of the building for citizens that have daily business at the Town Hall and there will be a large parking lot in the rear for meetings and people that work at the Town Hall.

Plans call for complete landscaping with the colonial character of the present building carrying on through the new addition.

It is estimated that the cost to the taxpayer will be \$2.65 per thousand of assessed valuation the first year and will steadily drop each year for the ten (10) year bonding period.

Alternatives, such as a brick building and a new site were investigated and found to be much more expensive.

Although only a permissive referendum is required under the law, the Town Board has decided that the proposition should be put to a vote and have therefore set the date for the referendum on Oct. 9, 1972 from 1:00 to 8:00

P.M. at the Town Hall. All registered Voters are eligible to cast their ballots.

The Town Board urges that the Voters cast their ballots in favor of the new Town Hall. It is badly needed now and the longer we wait the more it will cost.

It will also improve the image of the Town and will be something the citizens can be proud of for many years to come.

The Town is growing fast and will soon be a Town of the First Class with a population of 10,000 people. At that time, new departments and changes in the structure of the Town Government will require more space and the proposed additions will be needed to better serve the townspeople.

It is the hope of the Town Board that bids will come in lower than the \$220,000.00 asked for. This is the maximum figure asked for and the bids may well be less.

**PLEASE**—Niagara Mohawk has again urged candidates for public office and organizations sponsoring community events to refrain from attaching signs and posters to utility poles.

Ralph P. VanWoert, a local manager for the power company, said that posting signs upon utility poles is not only illegal but poses a serious threat to the safety of utility workers.

Mr. Van Woert said Niagara Mohawk linemen are required to climb utility poles to keep electric service working properly. If poles are covered with nails and staples from affixing signs, they become severe safety hazards.

Many power linemen suffer painful cuts and scratches which can occur when they contact nails or metal fragments on a pole. Worse yet, if the linemen's "climbing hooks" slip on imbedded nails, serious falls can result.

"Clean poles protect our linemen and help improve the appearance of the community," Mr. Van Woert said.

He also noted that many local ordinances have been enacted to

prevent the posting of such signs.

**VOLKSWAGEN'S** role as a leader in the area of automotive research and development is dramatically recorded in a new documentary film being made available here through Colonie Motors, Inc., authorized VW sales, service and parts facility at 2242 Central Avenue.

The 16mm, 27-minute color film—entitled "Each Day at Dawn"—shows the effort VW is putting into the present and the future to assure the quality of its products from a comfort, safety and performance point of view. In some scenes, cars are purposely crashed and overturned so that VW engineers can study the results and learn how to develop new and better ways to improve their designs and an Experimental Safety Vehicle—the ESVW—is built to show that technical advances can be made to a car without sacrificing style.

According to Mr. Langan, President of the local VW agency, much of what the company's engineers have learned in the area of research and development in recent years has already been incorporated into current models his company sells and, he said, "today's Volkswagens are the most advanced cars we've ever had from our factory in the 24 years our products have been on the market here"

Volkswagen's research and development center in Wolfsburg, Germany, practically op-

erates around the clock, he said, and employs about 4,000 technicians, engineers, and other personnel who start their day "Each Day at Dawn."

**ALL OF A SUDDEN** summer is gone! The jolt of "fall is here" turns a family's fancies to school, football, fall wardrobes and summer chores that didn't get done.

Fall is also the best time of the whole year to seed your lawn. Mother Nature is on your side if you want to "seed-in" an established lawn to fill in bare spots and sparse areas.

Scotts, the lawn people, point out that conditions for grass seed germination and seedling growth are most favorable in the early fall, through September. Days are shorter...nights cooler and longer. The soil is warm, with favorable moisture conditions from dew and fall rains.

Lawn experts recommend some

basic things that will give you the best results as you seed into an established lawn. By following helpful hints, you will be improving your lawn by adding the vigor and color of new plants.

A most important first step is to buy high-quality grass seed. Usually the so-called "bargain" seed consists of a high percentage of worthless chaff and filler, and often contains thousands of weed seeds. Top quality grass seed is blended only from the very finest, carefully selected seeds, and Scotts experts agree that a lawn can only be as good as the grass seed that goes into it.

Proper preparation of the soil crust is a key step. Break up the surface soil to give the seed a lodging place. Use any one of several types of manual or power tools available.

After mowing the existing grass, you are ready to spread the seed and fertilizer. A high-phosphorus

lawn food, such as Scotts Starter Fertilizer, is recommended for the early stages of grass growth. It can be spread either immediately before or after you plant the seed.

A continuous supply of moisture from rain, dew or sprinkling is required to cause the seed to germinate. It's important that the growing process start as early as possible so the seedlings are firmly established before cold weather arrives.

Until the new grass plants are developed, protect seeded areas from foot traffic. A small stake and string fence should do the job.

Weed control is also effective in the fall. However, if you plan to seed, Scotts lawn experts point out that weed control should wait until next spring.

**THE ALBANY JEWISH** Community will welcome Israel's Torch of Independence on Tuesday, September 26, at 10 A.M. at the Albany County Airport. The torch will be initially lit in a ceremony to be held Monday, September 25, in Jerusalem in which Israel's President Zalman Shazar will kindle a flame of Independence. The ceremony will inaugurate the beginning of the 25th Anniversary of Israel's Independence and the rebirth of

the Jewish state.

The torch for Albany along with those for more than 95 other American cities will be kindled from the one lit by President Shazar and then carried by runners to Lod Airport, Tel Aviv, and flown to the United States by El Al Airlines. The transfer of the torch to Albany will be made aboard the American Airlines flight arriving in Albany at 10:13 A. M.

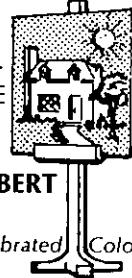

Plans are being made to have a "Ruach" celebration in front of the airport when the torch is rekindled after being received at the plane by local dignitaries from the Albany Jewish Community Council, the Albany Jewish Community Center, the Jewish Youth Organizations and the Jewish Students Coalition-Hillel at SUNYA.

The celebration is being planned with the help of American Airlines and Albany County Airport. Helping also in the planning of this event are Alex Seidenfeld, Educational Director of Temple Israel's Samuel Lasko, Principal of HACD, Rabbi Ephriam Zimand of Temple Israel, Rabbi Bernard Bloom of Temple Beth Emeth, Jay Bachrach, Program Director of the Center and Joseph Green, Teen supervisor at the Center.

Jewish Education of the Albany Jewish Community Council will enable anyone interested in participating by making reservations with Mr. Seidenfeld at Temple Israel, 438-7858 by Sept. 20th to board the free chartered buses which will leave the parking lot of Temple Israel at 9:00 a.m. that day.

The program will include remarks on the welcoming of the torch by Edward Bookstein, President of the Albany Jewish Community Council, a prayer for peace, the singing of Hatikvah, the singing of Israeli songs, the reciting of Shehechyonu, the prayer of thanksgiving and a tribute to the memory of all the soldiers who have fought and died for the Independence of the State of Israel for the past 25 years. Following the welcoming ceremonies, the torch will be brought back to the Jewish Center and then will be shared by the Congregations and Jewish communal organizations of Albany.

All Jewish synagogues and Jewish organizations of the Capital District have been invited to join in the celebration. The general public is also invited and will be welcome to share in this happy experience.

**CAR POOL TIME** is here again. School is open, commuters' vacations are over and it's time to get back to the old routine.

While participation in a car pool can be a time-saver and a convenience, many New Yorkers avoid such arrangements for fear they will leave themselves open to a lawsuit which won't be covered by their regular auto insurance.

Generally speaking, according to the Insurance Information Institute, there is nothing to worry about. However, a few words of caution and explanation are in order.

Insurance on a privately owned, pool-shared vehicle is placed in jeopardy only if the pool is operated for a profit. In the situation where everyone in the pool uses his car an equal amount of time there is, of course, no problem.

The problem most often arises when one of the car pool participants does not share in the driving chores and thus pays a regular fee.

To preserve insurance coverage, the Institute points out, any car pool fee should not be more than the fair share of the gas, oil and general depreciation on the car. A simpler way for the non-sharing passengers to reimburse the pool members is to give a gift sometime during the year to the drivers.

This divorces the concept of "fee" from the privilege of riding in a car pool and leaves the insurance protection intact.

In the case of car pools involving children, the Institute stresses the importance of wearing seat belts not only to protect them in the case of an accident but also to prevent the kind of children's antics that might distract the driver's attention.

Once a car pool participant is convinced his regular auto insurance is valid, his next concern is the amount of coverage he has.

He should consider bodily injury liability coverage with high limits, according to the Institute since this is what protects him against claims which others — including his "pool" passengers — can bring against him after an accident.

As an example, says the Institute, limits of \$300,000/\$500,000 would provide up to \$300,000 coverage for one injury in an accident with a \$500,000 per accident limit.

Medical payments is another important coverage. If written with limits of \$1,000, each person

in the car can receive up to \$1,000 for medical expenses incurred within one year of an accident regardless of who is at fault. The Institute emphasizes that because the dollar limit applies to each passenger separately, there is no need to increase the limits in order to cover additional passengers.

Property damage liability coverage, which protects the motorist against claims resulting from damage of other people's property, is not likely to be affected by involvement in a car pool since the number of passengers would not ordinarily contribute to the amount of property damage done by the car in an accident.

**THE ARTS** and Continued Education Programs are being emphasized in the Fall program at the Albany Jewish Community Center.

Registration is now in progress and classes will begin the week of Oct. 9. Gerard Salata, M.A. in Sculpture and Pottery and Bruce Ross of SUNYA and Skidmore will teach 3 classes in Pottery and Ceramics. During the month of October, Mr. Salata will also have an exhibit in the Center's main lobby, steel sculptures. Several pieces had been exhibited at SUNYA Gallery in May.

Pat Morris will teach a painting and drawing class. Focus will be on sketching and composition using charcoal, pencil and pastel paints.

Cecille Sirotkin, a graduate of the Chicago Art Institute and Master of Fine Arts at American

University, will teach two classes in Non-Objective Painting. She has studied under Moholy-Nagy and Gyorgy Krepes and has formerly instructed at the Chicago Art Institute and the Chicago Institute of Design.

Frank Alexander of the Woodstock Artists Association and the Art Students League will teach two classes in Painting and Composition using acrylics or oils.

Jan O'Brien exhibited at the Schenectady Museum and has had many outstanding shows in the local area. She will teach a Wednesday evening class for beginners and advanced students in Oil Painting and Acrylics and a Thursday morning Multi Media Class.

Beginning Printmaking emphasizing instruction in design, woodcut, linoleum block and silk screen will be given by Sherrill Gould. Robert Kurzon, architect and sculptor, will instruct an elementary Sculpture class in which students will use found objects in addition to basic materials.

Modern Dance classes will be given both afternoon and evening at the Center. Louise Schmitt, who has studied with Paul Sandardo and Charles Weidman, and Ida Gilman, who has danced with the Graff Ballet and is presently with the Capital District Modern Dance Council will instruct.

Classes in Ulpan Hebrew instructed by Professor Zvi Abbo of SUNYA, and Conversational French instructed by Claudie Rubin are also offered in the Center's education program.

Jim Healy, former city editor of the Times Union will give a Public Speaking course and master chess player, George Kawas, will teach chess to all levels of chess players.

## Watch for Worms

**MASSES OF WEBBING** spotted in deciduous trees during daylight may mean that caterpillars are stealthily consuming foliage under the cover of night.

According to Prof. Edgar M. Raffensperger, of the N.Y. State College of Agriculture and Life Sciences, Cornell University, certain species of caterpillars build protective webbings in which they spend the daylight hours and move to feed on green foliage only at the fall of night.

Three caterpillar species that appear with some frequency in New York are capable of doing considerable damage around the home and in forested areas, he said.

Two of these types build their webs in early summer. Eggs laid in mid-summer of the previous year hatch in the spring.

One of these, the eastern tent caterpillar, builds its nest in the smaller branch crotches of wild cherry, chokecherry, apple, birch, oak, poplar and other trees.

The forest tent caterpillar is more frequently seen in sugar maple, and gum trees. Its nest is often in the form of a mat of

webbing on the trunk or larger limbs.

If the webbing is examined at dusk, columns of caterpillars can be seen marching along the branches and twigs. With diminishing light they feed free of the daytime risk of insect-eating insects.

The late summer web builder is the fall webworm. It develops from eggs laid in the previous spring by a light colored moth which frequently has dark spots on the wing. Its web is spun over the ends of branches.

This is the least selective of the three and will attack a wide range of trees and shrubs.

All of these species are kept somewhat in check in nature by parasitic wasps and flies, and by disease-causing bacteria. Whenever these natural controls fail the homeowner can assist by removing the webs. The insecticides Methoxychlor, Diazinon, and carbaryl can also be effective when used according to directions on the container.

The Cornell entomologist also added that small children should not be encouraged to play with caterpillars. Some have poisonous hairs and spines that can cause painful skin rashes.

# GRAND UNION'S FOUNDERS' DAY

Cyrus D. Jones, Founder

Frank S. Jones, Founder

Arthur A. Jones, 1912-1916

Harry L. Jones, 1916-1924

**THE GRAND UNION** Company, tenth largest food chain in the nation will celebrate "Founders Day" this September, as they reach the end of their first Century of operation.

Cyrus D. Jones, founder of the Grand Union Company began his own food retailing business in September of 1872, selling coffee, tea and spices from his horse and wagon, door to door, to area housewives in Scranton, Pennsylvania. And from his next enterprise, a very small store, he saw this business grow to a very large size operation before his death at the age of 77, in 1929. At that time, Grand Union was operating 685 small size grocery stores and had some 120 home delivery routes.

Frank Jones, brother of Cyrus entered the business within a year of its founding and was named President of the Company when it incorporated on December 1st, 1901. He held this post until his retirement in 1910 and he died in New York City at the age of 79.

A succession of Presidents was now underway. William Burke, formerly Corporate Secretary succeeded Frank Jones and pre-

sided as President until his death in 1912.

The Jones name was back in the headlines with Arthur Jones who became the next President, succeeding William Burke. He was the eldest son of Cyrus Jones and he presided over the company until the year 1916.

Another son of Cyrus Jones, Harry, became President in 1916, and was the last of the Jones family to serve with the company. 1928 saw the end of the Jones reign with his retirement at the age of 88.

In 1924, J. Spencer Weed, became President of the Grand Union enterprise and he successfully guided the company through the depression years and the years of World War II. He became President of the Board in 1947, and was succeeded as President by Lansing P. Shield.

A Rutgers graduate and World War I Air Force Pilot, L.P. Shield, came to Grand Union in 1924, as Chief Accountant and was Treasurer by 1928; a Vice President a year later and from 1947 until his unexpected death in the early 1960's, he served as President of Grand Union. Shield made Grand Union a front runner in the race

to develop supermarkets and move with the customers from the cities to the suburbs. He also initiated the Grand Union Company's discount store division — sales multiplied and profits rose.

A clerk who joined the Company in 1918, Thomas C. Butler, was gradually climbing the ladder of success and in 1936, became Treasurer; Vice President in 1958, President in 1960 and Chairman and Chief Executive Officer in 1966.

Before retiring from active management in 1968, he supervised the further expansion of both the company's supermarkets and general merchandise divisions. During the eight years he headed Grand Union, sales increased by 50% and profits rose to 60%.

The Grand Union Company today operates under the guidance of Charles G. Rodman who became President in December of 1966 and he has instituted a tremendous growth pattern.

Founded in 1872, The Grand Union Company has grown steadily through an often turbulent, but always exciting Century. Having survived panics and depressions, over the past Century,

Grand Union is currently deeply involved in the Nations struggle to control inflation through economic stabilization.

During the dramatic years beginning in 1872, Grand Union has grown from a one-man, one-store food retailing enterprise to a widely diversified merchandising organization. Its 26,000 people today operate 574 stores ranging from small convenience outlets to huge supermarkets and even larger combination food/general, general merchandising/drug stores. Other enterprises participated in and owned by the company are the Grand-Way General Merchandise Stores, The Triple-S Blue Stamp Company, Grand Patio Restaurants, and the North American Equipment Company.

The handful of customers in the 1870's has grown to more than three million a week in the 1970's.

A Century from now it is hoped that the company can look back, as it does today—with pride on having participated in a truly remarkable achievement of inestimable value to millions upon millions of Americans.

Grand Union has a proud heritage—a heritage it will seek to preserve in its new Century.

# Test your gas furnace now, so it won't test you later.

Finding out your gas furnace doesn't work is bad enough.

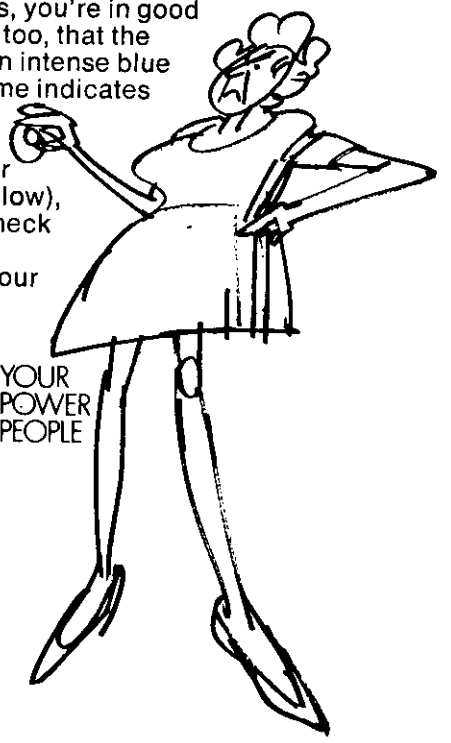

But finding that out on the first cold fall day is even worse.

So take two minutes to check your furnace now, while the weather's still warm. If you've left your gas pilot on, just turn your thermostat to the highest point and see if the furnace comes on. If it does, you're in good shape. Make sure, too, that the flame burns with an intense blue glow—a yellow flame indicates poor combustion.

If your furnace doesn't operate (or the flame is too yellow), call us and we'll check it out.

Do it now. So your patience won't be tested this fall.

Now we can give you broad car insurance.

At a compact price.

Auto insurance may never be the same around here again. Because we have something special to offer you: Auto-Rite, the policy for safe drivers. If you have a good driving record, we think you should get something out of it... such as a lower rate for your insurance. It's not only what you pay that'll come as a happy surprise. The real surprise is in how much

you get. Because Auto-Rite is not the trimmed-down, minimum-coverage policy you might expect for the price. It's the opposite. It's quality insurance that can give you a full range of coverages. Liability — up to \$500,000. Collision. Fire. Theft and comprehensive. Medical payments. You can even have emergency road service.

You get another advantage: Aetna's country-wide claim service. Take our word for it, it lives up to its reputation for speed and fair play. And naturally, our agency is always here to give you personal service and attention. Find out if you qualify for Auto-Rite. Let us quote you the facts and figures. You could be in for a happy surprise.

# Wandering & Wondering . . .

**AND THEN THEY WERE OVER!** With all of the tragedy, controversy and heartbreak, the XX Olympiad seemed long. But when the closing ceremonies got under way, it seemed all too short — and, at our age, the 1976 Games looked all too far away! Avery Brundage won't be around to take the barbs of criticism; many of today's heroes will have turned professional or retired; and most of the goats will have been forgiven and forgotten.

The ABC-men did a great job — with an extra round of plaudits to Chris Schenkel, Jim McKay, Bill Russell, Bill Toomey, with extra-special mention to Eric Segal, Pete Jennings and Artist Nieman. The reporting job was the finest — marred only by those 421 commercials.

. . .

**IF YOU ARE IN A BUSINESS** who uses our columns for advertising and you've had any doubts about your ad's pulling power, read this!

Dear Mr. Fuller:

Let me take this opportunity to express my gratitude for the wonderful response to the advertisement we ran in The Spotlight for employees for the new Denby's. **There were approximately four hundred applicants in the first two days.**

We look forward to a long and pleasant association with you and doing business with The Spotlight in the future:

Very truly yours,  
DENBY'S  
John Hartz  
Manager

. . .

**LET'S KEEP BETHLEHEM BEAUTIFUL:** We had a call from one of our town officials who wanted to tell us that he too was an admirer of the late Ray Cecil Carter and what a great educator and fine man he was. Then he came to the nitty-gritty of his call. He'd like the town's residents to keep their grass clippings and debris under wraps rather than dump it on the curb four or five days ahead of the day it will be picked up.

He has a good point. If it were beautiful, we wouldn't dump it on the curb; as long as it's ugly, why make others look at it? It's not good housekeeping, groundkeeping — in fact, it's almost un-neighborly.

Let's make and Keep Bethlehem beautiful!

. . .

**SOME OF US OLD DIE-HARD CONSERVATIVES** are of the opinion that a high school should be run by the faculty — and not by a student governing board with the faculty portion made up of the ultra-liberals who will go along with any wild scheme proposed.

We have believed for a long time that student enroll-

ment at the Catholic Schools is held steady many times by the desire of parents to see their children receive a better-than-average education under fair rules of discipline that must be observed.

Up to the present, Maryrose Academy on New Scotland Avenue has been such a high school. This school for girls is large enough to satisfy anyone — but small enough that Principal Sister Anne Hogan is very well known to every student and those who desire to talk with her find her always available. There simply doesn't exist for any student a feeling that she is a lost small fish in an enormous pond.

She enforces the rules of the school — but the rules are of such substance that no thinking parent would want them amended or modified.

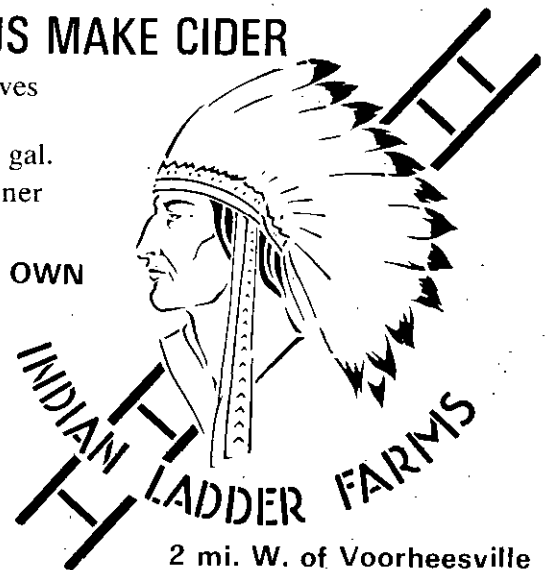

Thus it comes as a big surprise that there has been a movement on foot at this school to form a Faculty-Student Governing Board made up of **twelve** students and **seven** faculty members to be elected by the student body with an administrator to be appointed by the principal. The stated objectives of this body: "**to efficiently serve the students and faculty of Maryrose Academy by providing a school government that will create a workable and enjoyable atmosphere.**" Rubbish! If pinned down, 95% of the Maryrose girls would have to admit that these conditions already exist — **plus!** Sister Anne Hogan runs a school that is almost without equal in this area. If there are **two** descriptive adjectives that can be applied to Maryrose, they are "**workable and enjoyable atmosphere.**" Those words

in the proposal for organizing this student-faculty body are an insult to the present Sister Anne Hogan administration.

We hope that when this proposal comes up for a student body vote it is turned down by a walloping majority. Such a vote would restore the conservative parents' faith in the present system and justify the tuition they ante up for the privilege of having their daughters receive that "extra" in education.

HERE'S A LETTER from one of our readers who asked, for business reasons, that we withhold his name:

Dear Sir:

The Spotlight recently printed photos depicting the good guys of the Glenmont Volunteer Fire Company erecting posters to promote their summer carnival. It certainly would be a pleasure to have you now print a picture showing them removing these same posters from the poles in the Tri-Village area.

In some places the 1971 posters are still marring the scenery.

KEEPING THE HATE POT BOILING — All through history, there has been one blight that has nothing to do with the killing in a war, but it seems that it will forever be with us until man becomes civilized to the point of outlawing war. We're talking about the babies that are born to a country's native women, sired by the men of that country's allies or by the invaders. In the case of Vietnam, the babies are the result of the United States Army being there. And it's a tragedy.

These children are not accepted by the native children; they seldom have homes; seldom know who their father or mother was; and are actually social outcasts.

If their society still doesn't except these mixed breeds when they are adults, they'll hate their origin and both countries involved. The world will never know universal peace as long as the results of war continue to promote hate.

State Street, Albany, was calling to tell us that he appreciated our thoughts on the late Ray Cecil Carter. Fred and his wife, Jeanne, had just returned from a 6-week visit to South Africa where their married daughter, Susie, lives. We talked on and on about our high school days — and daze. Fred told us that at Susie's graduation from Beaver College, one of the guests was Jerry Finch, sometime Albany High School great, a super-Eagle Scout, who is now head of one of the language departments at Princeton University. Fred asked us about Ralph Wood who grew up in Delmar. We couldn't tell him anything except that several years ago Ralph was a member of the U.S. Diplomatic Corps and was stationed overseas in one of our embassies.

With the large number of Albany High grads who now reside in our area, it would be interesting if more would write or call and let us know about the ones who dropped from sight so many years ago.

One of the most beautiful girls in the Class of '29 was a Delmar resident until recently: Lois Goodrich Campbell and her husband lived at 59 Delmar Place — but they are no longer listed at that address. And there's no Leonard C. Campbell listed in the Albany telephone directory any more either.

EVERYTHING FINALLY JELLED and we have now talked with Mrs. Eric Leighton, 53 Lansing Drive, Delmar, and Jerry Passer, NYS Education Department. Many of our

questions have been answered but we are holding back all further comment on Five Rivers Environmental Education Center until we receive the official release from Mr. Passer. This is now scheduled for the issue of September 28.

**TALK ABOUT SEGREGATION!** — We keep preaching that today's black people are the result of segregation of years ago — and that, as such, we don't have that same prejudice today. To labor a point, let's go back to the year 1928 — when racism was really rampant. The President of the Senior Class at Albany High that year lived at **360 Kenwood Avenue, Delmar**. He was a rather nice, bigoted, narrow-minded (yet, in style) boy who believed that if a Protestant (which we both were) dated an Irish Catholic girl he was sure to wind up in something less than Heaven. His favorite topic of conversation was to tell us how wrong it was to take a Catholic girl to a dance! (Many years later we married one and we've lived happily ever since!!)

The point of this story (if it has one) is that today his old homestead, **360 Kenwood Avenue, Delmar**, is the St. Thomas Convent!! That's what he deserved for running down some of the finest people on earth — just because of religious beliefs.

We must have made **some** progress! The world isn't like this today.

area, you'd be about right. We're talking about the Slingerlands Community Players. Four years ago, they purchased the old hotel in Unionville as a permanent headquarters and place where they could produce and stage their plays.

It was the opportunity they'd been long waiting for. But it takes gobs of money to purchase property and even more to practically re-build to make it usable. This remarkable group has done all of the work themselves. Today they have a foyer, a stage and an auditorium with 88 of the most comfortable theater seats you ever sat in.

The Slingerlands Community Players came full circle last year when they presented a contemporary biblical drama during a Sunday worship service at the Slingerlands Community Methodist Church. The performance marked the Players' participation in the Church's centennial celebration. The Players who were noting their own twentieth anniversary trace their origins to a once active drama group in the church. In 1951 a few members of that group organized the Slingerlands Community Players as an independent community theatre. The new group's first production, **The Male Animal**, was presented in the auditorium-gymnasium of the Slingerlands Elementary School. The first season consisted of this single production.

As membership grew and activities expanded, the Players began to dream dreams. Dreams one day owning their own theatre with all the advantages thereof. A theatre of their own would mean many things. The possibility of playing in repertory, a fuller and more varied season, and opportunity for more people to participate in the creative process are a few of these. In 1963, the group decided to seek property that would be suitable to their pur-

poses and which they could afford. A building committee was appointed and delegated to seek out potentially suitable properties. Enthusiasm was everybody's. Whenever a member learned of something promising, the committee investigated. The committee probably encountered every possible reason for failure. Most often price was the hinderance. The Players' funds as well as ability to assume obligations were limited. But other impediments showed up as well. Some properties were tied up in the legal complications of estates, others, although vacant, were just not available for sale. In one case, two co-owners, although they wanted to sell could not agree on an asking price.

The search continued and in the spring of 1968, Dick and Mary Rosenberg, members of long standing, were searching for an old house that they might renovate. Their search led them to Unionville and a vacant two story building that had once been the Warrick Hotel. The building was not what they were looking for, but they saw it as a distinct possibility for the Players. The committee investigated and recommended that the building and seven acres of land attached would make an ideal home for the Players. On a Saturday afternoon in April of 1968, a general meeting was called at the vacant building for purposes of inspecting it and considering purchase. The membership voted unanimously to purchase. Before the group could purchase property, papers of incorporation had to be drawn up, and these and other legal operations delayed finalizing the sale until November. Later that month the Slingerlands Community Players moved into their new (old) home.

The Players were delighted with their new headquarters. At last they had not only storage space for the accoutrement of their craft but an uncluttered rehearsal hall and meeting room. The next year was spent doing very basic remodeling and renovation necessary to making their building suitable for the Players' needs. Removing the ceiling that separated the first and second floors in one area provided the high-ceilinged workshop where tall flats might be stored. Temporary pipe racks were installed in a smaller room to house costumes. Other areas served as storage space for a variety of other equipment and stage properties. A partition between two rooms on the first floor was removed to provide a large rehearsal room. These basic changes were central to making the building serve the Players' prime reason for being — to provide live theatre for the community. The Players had long dreamed of a theatre of their own and now more than ever. The Players decided in October of 1969 to convert a portion of their building to a small theatre. This, they felt would offer many opportunities over and above those provided by the three major productions at the high school. The Players now saw an opportunity to involve more people in a greater variety of artistic endeavors. It was decided that a portion of the building be converted to a small intimate theatre.

The largest of several rooms on the ground floor together with a center hall were selected as an auditorium. The partition between two smaller adjoining rooms was re-

moved to provide a lobby. The plaster ceiling in the auditorium was in obvious need of replacement. When it was removed, rustic hand-hewn beams were exposed. These proved so attractive that they remain exposed. As work progressed, the Players felt the need of a more suitable name for their home. They began to call it The Playhouse and so it is known today.

In all probability, The Playhouse is one hundred or more years old. Hand-hewn beams joined together with wooden pegs, square iron nails, wide floor planks and a field stone foundation are evidence of age even to the untrained eye. Construction engineers recognize structural details as part of a bygone era. Older natives still refer to The Playhouse as the Warrick Hotel. The villages of the Heldebergs that overlook The Playhouse had similar hotels. Merchants in horse-drawn wagons made 4 to 5 day jaunts through the area selling their wares to farm families or purchasing produce and livestock. These village hotels provided food and shelter at the end of the day. So perhaps did the Warrick.

Last September, The Slingerlands Community Players inaugurated their twentieth consecutive season at The Playhouse with an experimental theatre production of Eugene Ionesco's **Exit The King**.

The 1972 season will see two of their three plays produced at the Playhouse with only the musical **Oklahoma!** on the stage of the Senior High School auditorium. So you can see how much progress has been made. The two productions scheduled for the Unionville Playhouse are: **Ten Nights in a Barroom**, the old mellerdrama, and **The Effect of Gamma Rays on Man in the Moon Marigolds**. **Ten Nights** will open on October 25 and play for 10 performances, 5 nights (Wed., Thurs., Fri., Sat., Sun.) each of two weeks.

Right now the Players face an ever-present problem: How to get a sale of enough **season tickets** to underwrite their three productions. If you are willing to help in this worthwhile cause, we urge you to fill out the blank below and mail it with your check:

**What: Annual Drive for Season Tickets**  
**When: Starting today through October 14**

This year will mark the 21st season for this group which devotes its energies to presenting three outstanding stage productions each year. Self-sustaining through the purchase of tickets to its presentations, the Players need extra help this season to help finance the extensive improvements they are making to the Playhouse in Unionville. Your purchase of a season ticket will help to insure the continuance of this fine endeavor. An order blank appears elsewhere on this page.
