ABOUT THE CALENDAR

The information printed in this column is a FREE service to **Spotlight** readers. We neither charge nor receive any fee for publicizing these events. It is for this reason that we ask those who send in information to make sure that it is complete; we **cannot** (repeat: CANNOT) make weekly changes in running announcements.

Because the Calendar condenses the coming event in capsule form, it has become one of the most widely-read weekly **Spotlight** features. It was so designed to allow for more space for additional features. Therefore, organizations should **not** expect to find a duplication of facts in another place. If we were to run all of the events **twice**, we'd be cutting down on our available space and thereby defeat the whole concept.

ALBANY COUNTY LEGISLATURE CANDIDATES — Residents of the Town of Bethlehem, with the exception of the first and tenth districts in parts of Slingerlands and North Bethlehem, will have an opportunity to vote for these three Republican candidates: left to right, Earl Robinson, Ed Sargent and Bernie Kaplowitz. During the current year, Albany County legislative districts were redistricted according to the 1970 census figures. As a result, the Town of Bethlehem will have three full representatives instead of the previous two. Bernie Kaplowitz joins incumbent candidates Robinson and Sargent. The new districts now break down as follows: 34th Legislative District, Earl Robinson — 2, 9, 12, 15, 16 and 18th Election Districts; 35th, Bernie Kaplowitz — 8, 11, 13, 14 and 17th Election Districts; 36th, Ed Sargent — 3, 4, 5, 6, 7 and 19th Election Districts.

COVER STORY

SUNDAY FUN-DAY — TOWN TOUR OCT. 14

The plans have been made; the work is done — now all that is needed for success is YOU! That's the way the men on our cover feel about the Drive Yourself Tour scheduled for this Sunday from 10 A.M. to 4 P.M. Shown looking over the map-brochure (the tour guide) which has been mailed to Town residents, are, left to right: William Clarke, Men's Republican Club; Clarence Strzemienski, Kiwanis; Anne McGoey, Bethlehem Business Woman's Club; and Rick Knight, president of the new Bethlehem Jaycees. They, together with representatives of some dozen organizations and clubs, are participating in and sponsoring this community project.

The Tour of a dozen places of interest in Bethlehem will show how the many facilities we generally take for granted actually work.

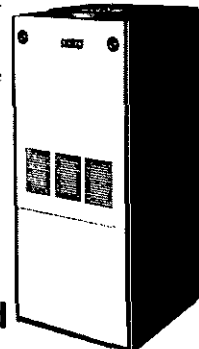

No matter which places you may choose to visit, everyone is urged to stop at Elm Avenue Park between 12 and 4 for the Chicken Barbecue being put on by the Kiwanis Club.

Remember, YOU have a very special invitation!

was given for advertising created to convince architects and engineers of the urgent need to conserve energy, and to stimulate them to design buildings and building elements which conserve energy. The advertising campaign ran in professional journals and featured Owens-Corning's energy conservation awards program.

In announcing the Corporate Social Responsibility Advertising Awards program last February, Esquire said, "There are many companies and industries that have begun to come to grips with the problems peculiar to our time, and these firms merit commendation and encouragement." There were 20 winners in the first annual competition, which drew 130 entries. Judges were all from the University of Michigan.

Charles E. Peck, construction group vice president, accepted the award for Owens-Corning. In commenting on the winning advertisements, he said, "As manufacturers of insulation, we have long been aware of the potential for energy conservation. With fuel and power shortages growing worse in the past few years, we saw the need to promote a conservation ethic. We felt we could help develop this ethic, and the energy conservation awards for architects and engineers were only one step in the action plan we undertook."

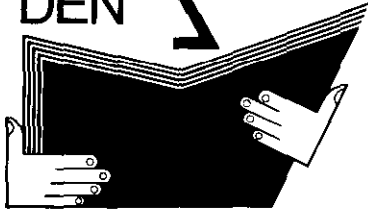

Mr. Peck described the possible impact of energy conservation by pointing out that more than a billion dollars worth of fuel and power might be saved each year in the U.S. if all commercial, industrial and institutional buildings are designed with energy conservation in mind. He added that energy savings of similar magnitude can be achieved in the residential sector.

Owens-Corning's winning advertisements were executed by Ogilvy & Mather Inc. of New York.

An open letter to Louis J. Lefkowitz, NYS Attorney General:

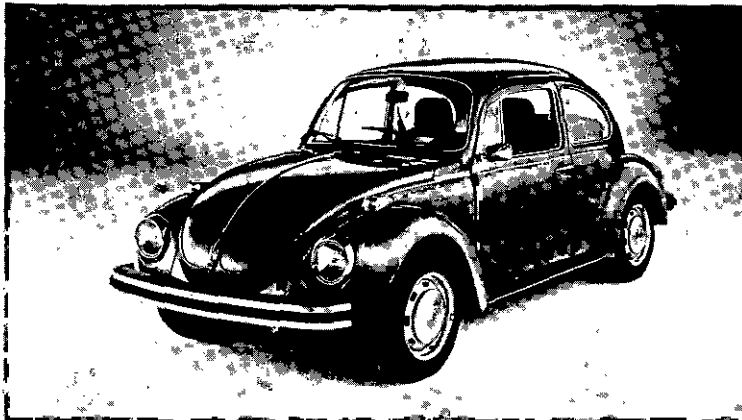

Dear Mr. Lefkowitz:

Enclosed herewith is a copy of a letter recently received by Mr. David L. Rothaupt cancelling his Mobil dealership which he has held for 57 years in Feura Bush, N.Y.

This arbitrary and reprehensible action (permitted under the terms of the dealer contract) can only be considered high handed, unethical,

inexcusable and indefensible, especially in the light of to-days fuel shortages. We can only regard this as a continuing effort and policy of the the Mobil Oil Corporation to drive another independent out of the market place.

The impact upon the community cannot be assessed at this point in time. We must feel however that the residents of the community will be left high and dry. There is only one other gasoline dealer

High School Day

On Friday, October 5, Mrs. Kathleen Venter, a Business Teacher at Bethlehem Central escorted approximately forty BCHS students to the Annual High School day at the State University Agriculture and Technical College at Cobleskill.

Each student participated in at least one of the contests held for business students. The contest were typing,

shorthand, rapid calculation, office procedures and general business information. The students also had an opportunity to tour the Cobleskill campus and learn about the programs offered.

Mrs. Venter was a guest with the other visiting teachers and administrators at the President's Luncheon served in Prentice Dining Hall by students of the Food Service Program.

The Cobleskill Annual College Day attracts students from many schools of the eastern New York area and participation in the contests is very popular.

They sing in almost every possible situation, including churches, evangelistic crusades, schools, and civic and family gatherings. They now host a weekly television show on several stations, which reach approximately 5 million people.

Mr. McKenzie has been a resident of the Town of New Scotland since coming to the Albany area in 1965 to teach at Albany Law School. In 1967 Mr. McKenzie entered state service. In 1970-71 he was also employed part-time as Professor in the Police Science program at Hudson Valley Community College, teaching courses in juvenile delinquency and constitutional law to police officers.

"I am running for Town Justice in New Scotland for two reasons: first, I believe my qualifications for the position are superior. New Scotland is one of the last remaining towns in the Capital District without a lawyer serving as Justice. Secondly, since the Town Justice also sits on the Town Board in New Scotland, I feel that as an independent voice I can help bring about needed improvements in our town. I am es-

pecially concerned over the town's failure to provide a comprehensive recreation program for our youth."

Subscriptions and First Play

The Slingerlands Community Players have announced a subscription series for their twenty-second consecutive season of legitimate theatre in the Capitol District. In a departure from their traditional fare of three major productions, the Players are expending their season to include a bonus production for the benefit of their subscribers.

Subscriptions at ten dollars each will provide regular admission to the three major productions and an invitation to attend a performance of the bonus production. For that production this season, the Players have selected **The Price** by Arthur Miller. The Players anticipate that few, if any, general admission tickets will be available for this production. Invitations for the limited run will go first to subscribers. Subscriptions are available from Dick Swire, business manager, at 439-9528.

"One Flew Over the Cuckoo's Nest" by Dale Wasserman opens in two weeks at the Playhouse, home of the Slingerlands Community Players in Unionville. The production is under the direction of Phil Rice. Performances of this dramatic adaptation of Ken Kesey's popular novel of the same name are scheduled for October 24 through 28 and again for October 31 through November 3.

This first production of the Player's twenty-second consecutive season marks Mr. Rice's second directional stint for the group. A couple of years ago he staged the Players' highly successful production of "A Cry of Players" by William Gibson. On Stage, Mr. Rice has appeared with the Players in "Carnival" and "The Lion in Winter." A native of Delmar, Mr. Rice is a graduate

Inflation hasn't changed the price of ashes.

But it has changed the price of your home. For example, if you bought a \$20,000 home in 1968—today it's worth about \$27,000. Don't be left with a costly pile of ashes. See me about a State Farm Homeowners Policy that will cover your home for all its worth . . . and keep it that way with automatic Inflation Coverage.

Power Corp., announced John G. Haehl, Jr., the utility's president and chief executive officer.

The program will focus on all of the power company's residential, commercial and industrial customers in a large-scale effort to eliminate waste of energy and to upgrade efficiency and economy.

"However, even by successfully reducing wasteful consumption of energy, Niagara Mohawk must still continue building new generating facilities to meet future requirements," Haehl explained.

In recent years, he said, Niagara Mohawk began shifting from actively promoting consumption of electricity and natural gas to a position of conservation.

"There has been a total reorientation," Haehl pointed out. "Conservation and promotion of efficient energy usage are now the priorities. Niagara Mohawk's Marketing Department has been restructured into a Consumer Relations Department to augment this program, completely replacing our former marketing efforts."

"In light of today's demands, Niagara Mohawk must take the initiative and guide customers in the wisest use of all forms of energy. This role is consistent with our concern for continuing reliable electric and natural gas service and, of course, preserving the quality of the environment," Haehl stressed.

He noted that in recent

Wandering & Wondering . . .

WE JUST DISCOVERED WHY IT WILL COST 10¢ to mail a letter starting in January. The U.S. Postal Service (a Congress-created inefficient monster) will spend \$45,000.00 on a kitchen for the board of governors which meets only 12 times a year; almost \$825,000.00 will go to a public relations firm headed by an old buddy of the postmaster general; almost \$350,000.00 on advertising to make the public aware that it is no longer a member of the Washington bureaucracy.

There are claims and denials of the huge amounts to be spent but it all adds up to a lot of money, a 10¢ fee for a first class letter and probably even slower postal service from the Washington bureaucracy.

There are claims and denials of the huge amounts to be spent but it all adds up to a lot of money, a 10¢ fee for a first class letter and probably even slower postal service — if it's possible.

How are these things allowed to happen?

It all reminds us of the TV cigar commercial: "You KNOW we're gonna getcha!"

high enough, in fact, that our bi-focals have considerable difficulty. That's bad enough — but look at this: On Nov. 6 you'll have **ONE** Proposition, **TEN** Amendments and **ONE** Local Law to be voted on before you even consider the candidates — and if you wait until Election Day and then attempt to read each one as it appears on the voting machine, this could be the longest election in history! In order to justly consider these **twelve** items, we suggest that you read each one long before Election Day 1973.

In the Town of Bethlehem, the Republican Party has had a 16-page brochure printed in which all twelve appear with a brief explanation of each.

We have a brief word about one of the Amendments: the Transportation Bond Issue. We haven't read all of the provisions in this one but John M. Galvin, president of the NYSAAA, has and he finds some rather startling parts.

This one was passed by the Legislature in Special Session and is a \$3.5 billion package that provides \$2.1 billion for mass transit (including what amounts to a subsidy for **New York City** mass transit users), \$1.4 billion for highway improvement.

According to Mr. Galvin, the present NYS administration has kept the final price tag a large secret — so no one knows the actual, final cost and also a secret is **how** it will be paid for. Mr. Galvin claims that this \$3.5 billion package could reach a staggering \$13.3 billion over the next 20-year period. How does that slap you in a year when everything is priced too high for your pocketbook?

There's more — much more!

We just paused for a moment to let the first part sink in.

Mr. Galvin also claims that, again, unknown to the voter, passage of the bond issue would be the first step in implementing the NYS Master Transportation Plan, a highly controversial 20-year blueprint to regulate and change existing travel patterns. Not one voter in 10 has ever heard of this Plan or has any idea of how it would work. And you're not about to be told!

There is more!

Among the other offensive provisions of this monster, according to Mr. Galvin: (and this first one is a dilly! 1. A **NYS take-over of all local ZONING** powers to encourage high density development of living quarters for people which would be conducive to mass transit; 2. completely inadequate provisions for future highway needs.

It's not a police state proposal exactly — but it's getting close when the government tells you that you'd better not have any acreage because that makes it harder for them (the State) to get you to and from your work — and even if you work at home, you'll have to pay your share of \$13.3 billion to get your neighbor to work and back home.

This is the year we'd like to be able to pull the **NO** lever a million times!

And remember, this is only **one** of **twelve** cuties, some good, some bad, that will be there ready for you on November 6!

The Spotlight

ON THE OTHER SIDE OF THE COIN: One of the topics of conversation at a recent Grange meeting in South Bethlehem was a decision by the NYS Department of Transportation to replace the bridge in that hamlet with a brand new structure a full two lanes wide. The old bridge, made mostly of wood, has been a scary thing for years and dangerous because it is so narrow. It spans a 45-foot deep valley over an abandoned Penn-Central Railroad spur. For the past several years, trucks and school buses have found ways around it — for safety reasons.

This should be good news for everyone in the South Bethlehem-Selkirk area — that finally the ugly old structure will be replaced with something safe and a lot more pleasing to the eye.

And another thing: if you've driven 396 very often, you know what a feeling it was to approach the bridge on a frosty morning and try to slow down on its plank flooring. It was like hitting a greased skid. This will be a good miss, too.

ALTHOUGH IT'S WELL COVERED in other places in this issue, we'd like to call your attention to the Drive Yourself Tour scheduled for this Sunday, Oct. 14. There are a dozen suggested places to visit, all outlined on a map which was mailed to Bethlehem residents this past week. We'd like to suggest that you make your last stop Elm Avenue Park and the Kiwanis Chicken Barbecue. We missed out on the last one. The "Sold Out" sign was up when we arrived. It will be served from 12 to 4 — but we'd suggest you not wait until 3:59.

Just a word about the Tour — we think that Bethlehem should be proud of its accomplishments and the facilities offered to town residents. This Tour is an opportunity to see just how the things you take for granted actually work. You'll discover how competent planning and operation of the facilities have proven so superior to many of the communities around us.

THIS NEXT IS FOR THE CANNING AND FREEZING KINGS: All our lives we have been told and we've read that tomatoes cannot be frozen. Then the October issue of a national magazine carried an article which said that tomatoes CAN be frozen successfully. Select firm, ripe, perfect fruit and simply freeze them. Know what? As they defrost, the skin bursts, the juice pours out and the inside disintegrates to mush. As far as we're concerned, tomatoes still CANNOT be frozen!

Same mag, different page, different article — place whole, perfect tomatoes in a canning jar and cover with a vinegar solution; seal. Know what? After a few hours, the skins burst and you have a mess!

We don't recommend either of these recipes unless you know something we don't.

A FUN SUNDAY

What: Drive Yourself Tour

When: Sunday, October 14, 10 A.M. to 4 P.M.

Where: All around the Town

It's a beautiful time of year for a tour of the Town of Bethlehem and you'll be better acquainted with what makes it tick. Many organizations are helping to sponsor the event. It will work like this: you have received a map in the mail which shows nine key points to be visited — but you may start the tour anywhere and visit only those places which are of interest to you just so long as you wind up at Elm Avenue Park between 12 Noon and 4 P.M. for the Chicken Barbecue put on by the Kiwanis Club.

The nine locations on the tour map include: Bethlehem Town Hall, Justice and Police Building, Bethlehem Public Library, Town Water Filtration Plant and Reservoir, Five Rivers Environmental Education Center, Elm Avenue Park, Town Garage, Bethlehem Historical Association, and the new Sewage Treatment Plant.

More than a dozen local clubs and organizations are involved in the tour sponsorship in order to make it interesting and educational. Follow your tour with a sumptuous chicken dinner to complete the day.
